KAISER BRINGS UP RESERVES FOR LAST EFFORT

LINE OF THE ALLIES EXTENDS TO THE SEA

The French, British and Belgian Forces Are Now Able to Prevent Any Sudden German Flanking Movement.

Allies Progress Continues Everywhere--The Russians Repulsed German Attacks Against Warsaw and Ivangorod--A Battle is Now Raging to the South of Przemysl.

Paris, Oct. 16.—The allied lines have been extended so that they can hold a line extending from Ypres to the sea. As a result they will now be able to prevent any sudden flanking movement by the German forces which have been sent into Belgium. This was the most noteworthy announcement contained in the official communique issued at Bordeaux at 2.40 o'clock this afternoon, and telegraphed here to be made public by Gen. Gallieni.

The report declared that the progress already reported as being made by the allies at every point of the battle line was being continued without interruption to-day. The line has been extended from Ypres to the sea it was stated. In general the entire situation was described as "excellent."

The text of the official statement was as follows: "The progress indicated in yesterday's communication is confirmed. On our left wing the action of the allied forces now extends from the region of Ypres to the sea. In the east to the left bank of the Vistula.

"During the day of October 13th, the Russian troops repulsed German attacks directed against Warsaw and Ivangorod. The battle is now going on to the south of Przemysl."

Germany to Sacrifice Her Reserves

Paris, Oct. 16.—Germany is planning the sacrifice of her new reserve army in a final desperate attempt to crush France. The realization of this came home to everyone here to-day when the war office announced that the allied line now extends from Ypres to the sea. This new line, including Britain's newly arrived forces and French reserves from the south of France, was created to prevent general outflanking operations by the enormous numbers of German reserves, reported traversing Germany en route to the battle front. One report reaching here placed the number of these fresh hords at not less than 240,000 men, with all branches of services included.

CANADA'S CONTINGENT NEEDS LITTLE DRILLING

London, Oct. 16.—In the leading article on the arrival of the Canadian troops, the Daily Mail pays Canada this splendid tribute:

"What Plymouth was privileged to witness was something more than the arrival of so many thousands of hardy natural soldiers. It was a living picture of the empire in action, the scattering of all illusions of imperial disintegration with which the Germans have bemused themselves.

This was a spectacle hardly to be paralleled since the crusades. A feature which appears to have struck competent observers of Canada's contingent most favorably is the general atmosphere of maturity about the men.

"These fellows went back much liking into shape, declared one grizzled non-commissioned man who doubtless has been enduring some trying moments recently in training new home levies into shape.

CHRISTMAS GIFTS FOR THE SOLDIERS

Princess Mary Issues an Appeal For Five Hundred Thousand Dollars.

London, Oct. 16.—Princess Mary has issued an appeal, in which she says "I want you all to help me help the Christmas present from the whole nation to every sailor aloft and every soldier at the front. On Christmas eve, when, like the shepherds of old, they keep their watch, doubtless their thoughts will turn to home and loved ones left behind. Perhaps, too, they will recall the days when as children themselves they were wont to hang up their stockings, wondering what the morrow had in store.

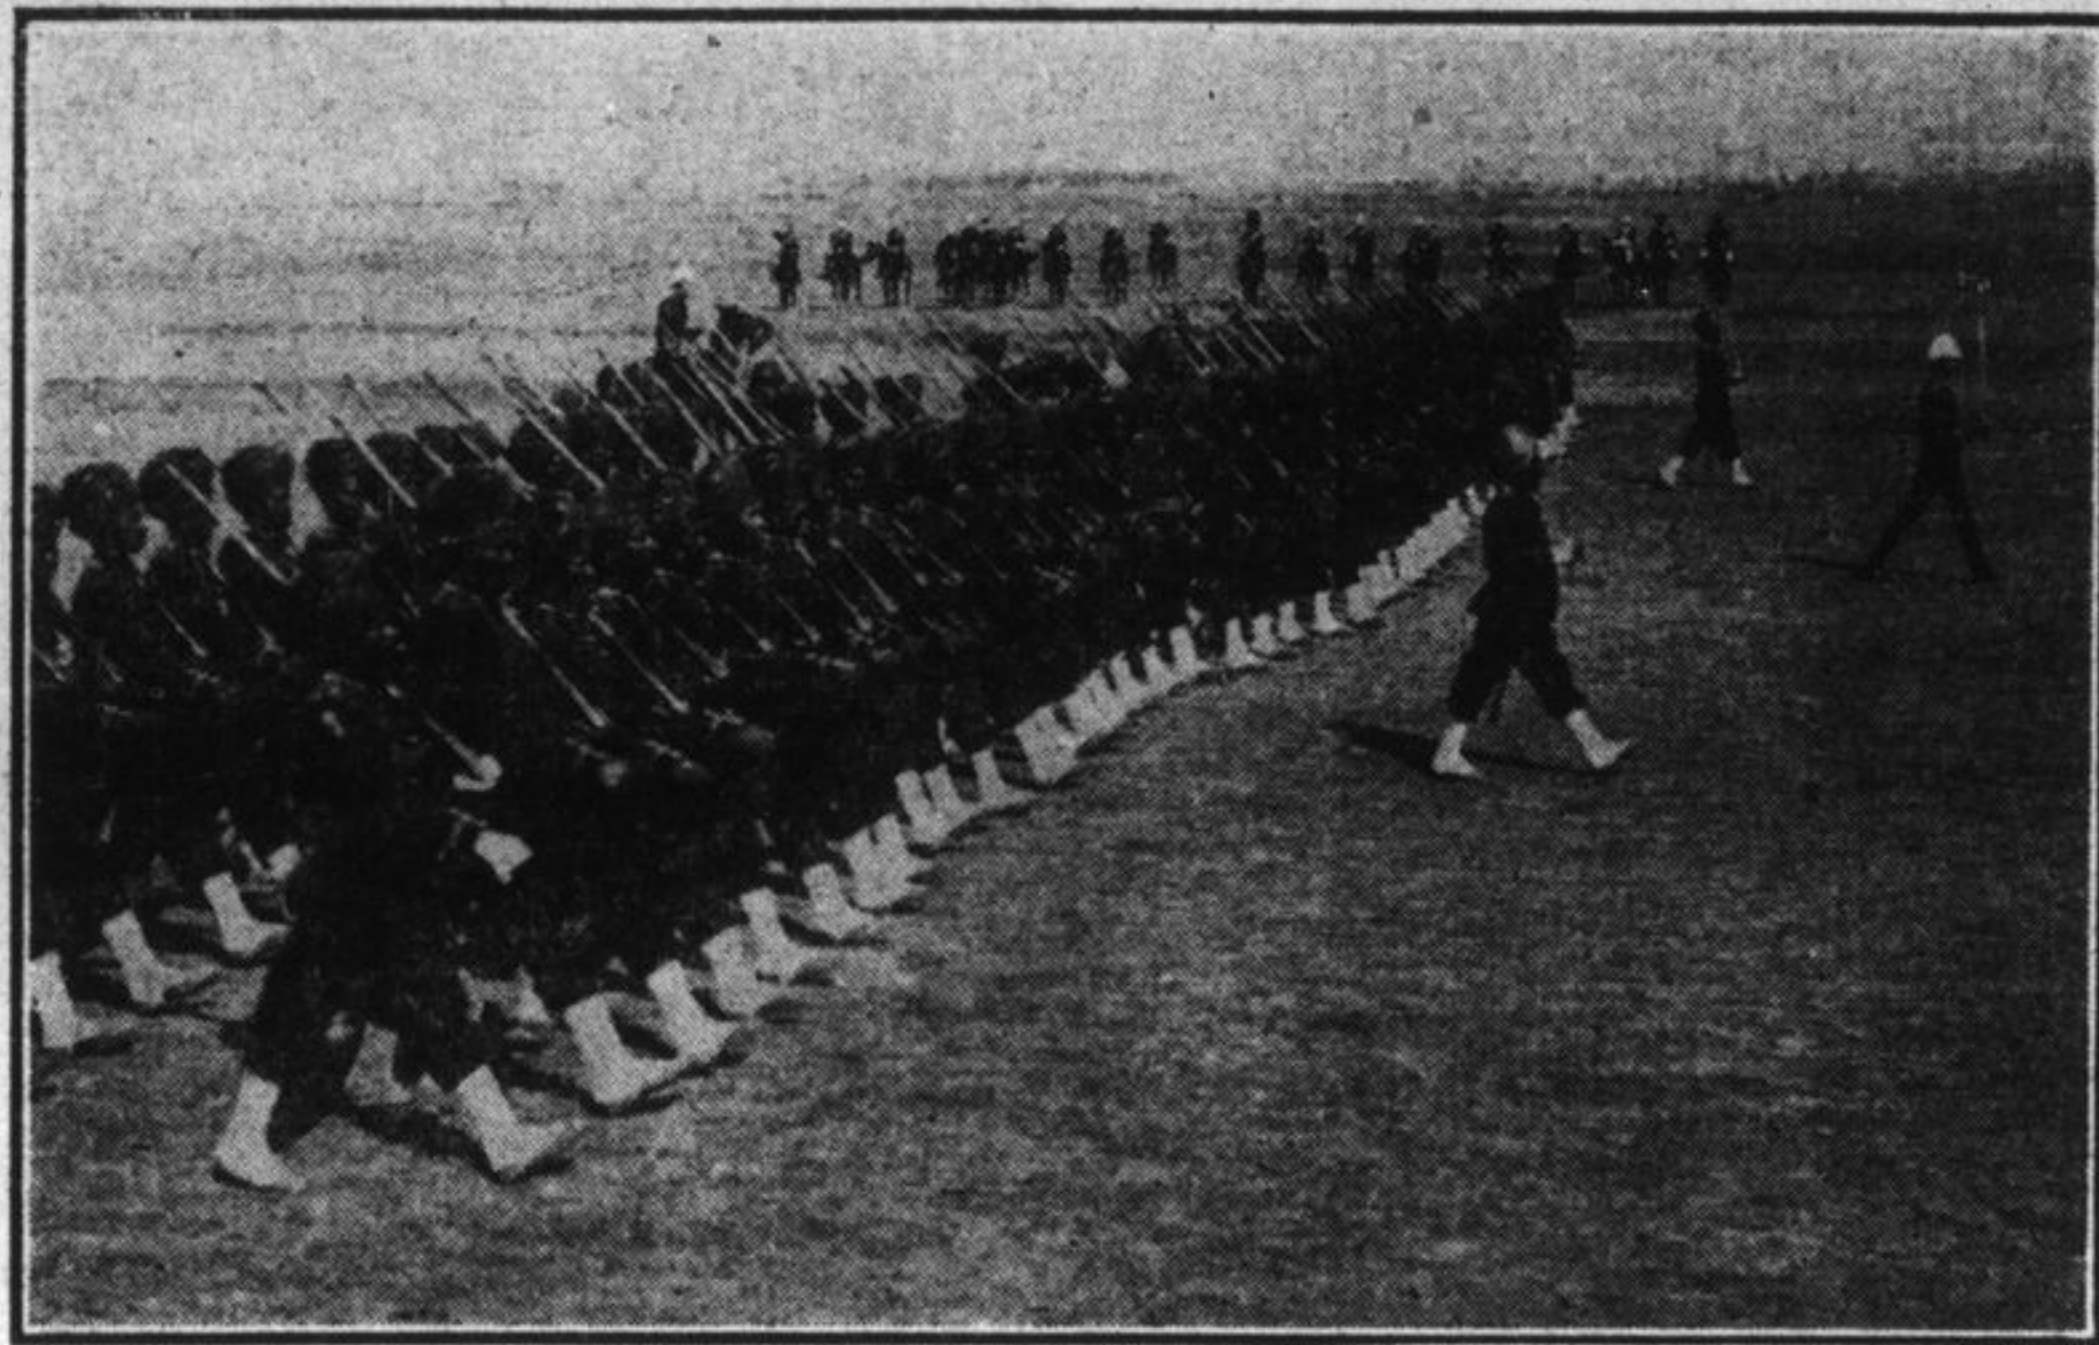

"I am sure we will be happier on Christmas morning to feel that we have helped by sending our little token of love and sympathy—something useful or of permanent value, the making of which may be the means of providing employment in the trades adversely affected by the war."

STALLINGS REFUSES The Offer to Appear in Vaudeville Act.

Boston, Oct. 16.—George M. Stallings, the Braves manager, has turned down a \$15,000 offer for a six weeks' vaudeville tour. The manager of the Braves could clean up this sum by going on the stage twice a day for six weeks or less, saying enough words to last ten or fifteen minutes, matinee and evening, and then retire to his Georgia plantation to hibernate for the winter. But he has declined the offer. "It does not appeal to me," declared the "miracle man."

OCCUPATION OF OSTEND. By a German Force Is Momentarily Expected.

London, Oct. 16.—As was the case just a week ago with Antwerp, so it was to-day with Ostend. That is to say, its occupation by a German army is momentarily expected.

INDIAN FIGHTERS WITH THE BRITISH AT THE FRONT.

These dusky-hued "fire-eaters" from the broiling sands of India are considered the hardest fighters of Great Britain's Colonial Army.

GEN. BOTHA TAKES FIELD AGAINST REBELS

Is in Command of Strong Dutch Commandos—Hertzog Offers His Services.

Cape Town, Oct. 16.—As a result of Colonel Maritz' rebellion in the northwest of the cape provinces, Gen. Louis Botha, premier of the Union of South Africa and commander of the troops of the union, is taking the field earlier than he originally intended to.

General Botha is placing himself at the head of several strong Dutch commandos, organized on the old burgher line, which are affiliated with regiments trained by the union defence force.

Gen. Hertzog, who has been one of General Botha's most bitter opponents, has placed his services at the disposal of the premier.

ANOTHER OBSTACLE CLAIMED BY DEATH

Italy's Foreign Minister, Who Favored Germany and Austria, is Dead.

Rome, Oct. 16.—Marquis Di San Giuliano, the Italian minister for foreign affairs, is dead. His death is expected to have a potent effect on Italy's attitude in the war. He had always staunchly advocated Italy's adhering to the triple alliance and joining Germany and Austria in the war. In this attitude he engendered much feeling against himself. His death has removed the greatest obstacle which existed to Italy's taking up arms on the side of the allies.

A PRIEST KILLED.

Rev. Fr. O'Farrell, Frankford, Lost Control of Auto.

Frankford, Oct. 16.—Rev. R. M. O'Farrell, Catholic priest, was found dead on the road a few feet from his auto about three o'clock yesterday afternoon, three miles from Frankford, on the Stirling road. He had left Frankford about a half-hour before, intending going to Stralings. When found the car was crossing the road, right side up. It is supposed to have been thrown out after losing control of the car from striking sand. An inquest is being held.

The deceased was attached to the archbishop's palace at Kingston three years ago. He was about forty years of age.

BOMBARDING FERCELY.

Tokio, Oct. 16.—With all the non-combatants reported safely out of the fortified German position at Kiau-Chau the British-Japanese expeditionary army forces and combined fleets off shore are bombarding continuously. A part of the battery has been desroyed.

All Britain Is Demanding Naval Revenge

London, Oct. 16.—All Britain was demanding revenge to-day. The loss of the armored cruiser Hawke, with practically all her crew, is in itself no serious disaster to Britain's strength. There are plenty of war craft and lots of volunteers to take her place. But the almost uninterrupted series of successes to German submarine operations has called forth a chorus of criticism of the admiralty that cannot be checked without a stern blow with resolute success. It is evident that the submarine strike its blow far from the German coast and close to the naval base of Aberdeen. Because of this fact bewilderment grows. Where is the British fleet? That is the question on everyone's lips this evening. Of course, an authoritative answer to the question is not forthcoming.

The admiralty is making no comment, but its chiefs, in their attitude, make it plain that news will soon be forthcoming that will balance the score with the German navy.

CANADIANS REACH CAMP AT SALISBURY

First Detachment of Troops From Ships Arrived at Midnight.

Salisbury, Eng., Oct. 16.—Country folk for many miles around lined the streets of Salisbury during the whole of Thursday afternoon and late into the evening in readiness to give the Canadian troops a rousing welcome on their entry into this famous city, but, much to their disappointment, there was no sign up to nearly midnight of any of the contingent arriving. It was, in fact, just on the stroke of twelve when the first detachment made its appearance.

The men looked none the worse for their long sea and train journey. On reaching camp they were refreshed with tea, which had been brewed for something like sixteen hours, in expectation of their arrival. The remainder of the troops will be brought in to-morrow.

Contrary to reports, the camps are all on Salisbury Plain, within three or four miles of each other, and the men will live under canvas, not in huts, as one story has it. In more ways than one the Canadians will find their new quarters a great improvement on Valcartier, where the sand and dust in particular caused some trouble. The grounds are judiciously situated on gentle slopes, which are well drained, and the men should be quite dry.

THEFT ON HUGE SCALE.

Three-Quarters of a Million Bushels Likely Taken.

Montreal, Oct. 16.—A large quantity of grain, said by some to be more than would fill two of the biggest "tramps" plying out of Montreal, has been stolen from elevators owned by the Montreal harbor commissioners. The figure is set by some at 750,000 bushels.

The harbor commissioners state, however, that only a few hundred bushels have disappeared.

The first indication of the thefts was received from England, where a cargo was reported about 10,000 bushels short. An investigation followed and the deeper they conducted it, the more they are amazed.

Trades And Labor Council.

The members of the Trades and Labor Council met on Thursday evening, with W. Baxter in the chair. A committee was appointed to meet the mayor in connection with the unemployed question, and another, comprised of W. Driscoll, J. Wright, and W. Baxter, to interview the mayor as to the best place to have the register for the signatures of the unemployed placed. It is now at the city clerk's office, and it is desired to have it placed in the Trades and Labor hall. There was a discussion upon the extension of gas, water and sewer mains on various streets.

Ontario Fire Chiefs.

Stratford, Oct. 16.—The Ontario Fire Chiefs' Association, this morning, elected the following officers: President, Chief Earl, Milton; vice-president, Chief Graham, Ottawa; secretary, ex-Chief Finch, Guelph; treasurer, Chief Keys, Galt; directors, Chief Aitken, London; Chief Armstrong, Kingston, and Chief Thompson, Toronto. Ottawa was selected as the next place of meeting.

Kingston Edifies In England.

Registrations in London, Eng., include Mrs. H. A. Panot, wife of Col. Panot; Mrs. Leslie, Kingston, wife of Major J. S. N. Leslie, and Mrs. Simpson, wife of Major Simpson, Kingston.

The Holland first chamber passed the measure providing for the second war credit of \$20,000,000.

WESTERN BATTLE IN FAVOR OF ALLIES

There is Evidence That the German Assaults Are Now Being Delivered With Much Less Force in France.

Believed That German Advance to Coast Has Been Checked and That Enemy Has Been Compelled to Weaken His Left and Centre to Strengthen His Right Again.

London, Oct. 16.—The western battle is going slowly, but surely, in favor of the allies, the Germans who started to advance on Calais and other French coast ports have been forced to evacuate the left bank of the Lys river, which is a considerable way east of the points to which their advance guards reached last week.

Evidence that the Germans assaults are being delivered with less force is conveyed in the intimation that between Somme and th Oise their artillery attacks are not being followed up with infantry charges. It is possible that they have withdrawn some of their troops from this position to strengthen their advance toward the coast, but this, it is considered, would be risky, as it might permit the allies to break through and interrupt the communications of their armies which are fighting north of the Aisne.

On the whole, the British military critics consider the communication "a most cheerful one." They believe that the German advance to the French coast has been definitely checked, and that the advances reported elsewhere show that the Germans have been compelled to weaken their centre and left in order to strengthen their right again.

However, although the Germans have failed to break the allied line and have themselves been compelled to give ground, they are now in a better position, having a front which stretches from the Swiss frontier to Antwerp and Dutch territory, so that there are no flanks which the allies can attempt to break in, and this is believed to be what they are trying to do on the Belgian frontier.

Rheims Cathedral Again Bombarded. Paris, Oct. 16.—The Temps says that a German shell fell in the Rheims cathedral, Tuesday, and destroyed the gallery of an apse. Three other shells, according to the newspaper, demolished a part of the nave. The public attorney was buried in the ruins of the court building. He was extricated, suffering greatly from shock.

Japan Justified. Peking, Oct. 16.—Replying to the Chinese protest concerning the occupation by the Japanese of the railroad in Shantung province, which has been made use of in connection with the campaign against Kiau-Chau, Great Britain has declared that she is unable to interfere with her ally.

Japan had no alternative, the British answer says, owing to the fact that the railroad is German-owned and that the Germans were using it for military purposes.

War Tidings. The general staff of Kiev has given out a statement alleging that dumcum bullets are being used by Austrian troops.

The admiralty announces that the administrator at Rabaul, on Blanche Bay, in the Bismarck archipelago, reports the capture of the small German sailing vessel Comet, with a complete wireless telegraph equipment on board.

The Russians in a fight on the Vistula claim that in this engagement they took 20,000 prisoners and many guns.

The union forces in South Africa engaged the rebel forces under Lieut-Col. Maritz and captured eighty of the rebels.

Two hundred and fifty German cyclists have arrived at Bruges. The Germans are reported to be still advancing toward Ostend.

Five German spies masquerading as Red Cross aides were captured in Paris on Thursday.

According to the Scotsman a German submarine was sunk by British patrol ships off the coast of Holland on Saturday.

The German gunboat Geier, from Tsing-Tau, China, arrived at Honolulu on Thursday with a complement of 100 men twenty-five hours in advance of the Japanese liner Shinyo Maru, which is due here Friday, bound for San Francisco.

The Belgian government before removing to France ordered all male citizens between the ages of eighteen and forty-five to enter the army within two days or be treated as traitors.

The reckless bravery of the Russian officers, daily resulting in a long list of casualties, has constrained Emperor Nicholas to urge the commissioned cadets at Tsarskoe-Selo to be more cautious.
