

KIDNEY TROUBLE AFFECTED HIS SPINE

Suffered For Forty Years Until He Used "Fruit-a-lives"

BROOKS, Ont., Oct. 13th, 1913.

"For about forty years, I was troubled with Lame Back brought on by Kidney and Bladder Trouble. I was never confined to my bed with the trouble, but it affected my spine and I had to rest for a time. I took advertised remedies which never did me any good. Then I saw "Fruit-a-lives" advertised and decided to try them. They did me more good than any other remedy. My son suffered from the same trouble and frequently had to leave off working, but "Fruit-a-lives" remedied it for him. I would strongly advise anyone suffering from Kidney and Bladder Trouble to use "Fruit-a-lives".

THINK BRITAIN STARVES

Ridiculous Stories Spread in Hamburg to Encourage Germans.

London, Oct. 19.—The Germans have some very odd ideas as to the progress their armies are making in the war, according to a Birmingham woman, who has arrived here from Hamburg, where she was detained by the authorities for some time.

The popular impression prevails at Hamburg, she said, that all of the people in England are on the verge of starvation. She said the report had been spread that England's fleet is hiding and that a big coal strike is tying up the country, and that the general state bordered on a revolution.

The retreat of the German army from Paris was explained away, she said, by saying that it was a strategic move to get reinforcements, and that Paris would be occupied soon. Two weeks later the Germans would be in London, people in Hamburg believe.

The Kaiser has grown to be a popular idol now, she declared. They people think he strove to the last minute to avert the war, which they say England precipitated.

You Should Support Canadian Workers in Canadian Laundries

At a time when so much is being said regarding the patriotism of those industries which keep their employees working full time during a period of unusual depression, we wish to draw public attention to the advisability of giving laundry work to those laundries which employ Canadian labor and which spend their earnings in Canada.

Many Kingston men and women find steady and remunerative employment in local laundries, and so far as the Imperial Laundry is concerned, it has not laid off a single employee nor will it do so as long as there is a possibility of keeping the entire staff even reasonably employed. By supporting a laundry such as the Imperial Laundry, your patronage keeps many Canadians employed and helps along the city in every way.

You are cordially invited to call and inspect our establishment. A telephone message will bring one of our drivers to your door.

Austro-German Losses Now Estimated at 1,350,000.

London, Oct. 17.—The Daily Chronicle has received from a correspondent in Berlin, the following:—"The authorities in Berlin estimate their total losses in France and Belgium up to date as more than 700,000 men. This does not include their losses on their eastern frontier, which they estimate at more than 150,000.

"They also acknowledged that Austria losses exceeded 500,000. Official reports which have been published only concern a portion of Prussian losses in France. No official lists have been published regarding losses of troops from Bavaria, Wurtemberg, Saxony, or Hanover.

"From this evidence the Austro-German losses approximate 1,350,000. This figure covers killed, wounded and missing, and, of course includes all prisoners."

Large Orders For Canada.

London, Oct. 17.—Complaints made since the war began that the war office was placing orders with firms in the United States instead of in Canada will probably be heard no more, for thanks to the energetic representations made by Hon. G. H. Perley and others, there should be no repetition of this in the case of commodities which Canada is in a position to furnish. Large orders for war material and military supplies are now being placed in Canada by both the British and French governments. An officer of the Ontario government reported to-day that the admiralty was expending \$500,000 through the Ontario government for a supply of evaporated apples for the use of the fleet.
