

SUNDAY SCHOOL WORK

TO BE TAKEN UP AT BIG GATHERING IN KINGSTON.

Record Attendance Expected at Convention of Ontario Sunday School Association - Meetings Will be Held on November 4th, 5th and 6th.

A most extensive programme, covering every phase of the work of the Sunday school, has been prepared for the forty-ninth annual convention of the Ontario Sunday School Association, which will be held in Sydenham Street Methodist church on November 4th, 5th and 6th.

It is of interest to note that these annual gatherings have so increased that a dual convention was held last year at Ottawa and Owen Sound. This year London is associated with Kingston.

The programme is built to emphasize four departments of the Sunday school - the elementary (under twelve years of age) and the secondary divisions (the 'teen age), the miniature and the superintendent. This is the first time these latter two have been featured. An hour will be devoted to the "rural school" problem.

The Ontario leaders in the work of the Sunday school will be assisted by J. Ritchie Bell, of the Montreal Sailors' Union Institute; Mrs. H. M. Lloyd, of Chicago, a strong worker among the children's divisions, and John Alexander, superintendent of the secondary division of the International Sunday School Association. Mr. Alexander is not surpassed in this department by anyone.

One of the most interesting features of the gathering will be the "question box," open to all. Questions will be answered by experts in Sunday school work. Sunday school workers will derive a great deal of help from this big gathering, and a record attendance is looked for. Prof. J. T. L. Coleman, of Kingston, will speak on "Religious Education."

Trotter-McMachan Nuptials.

On Thursday, Oct. 15th, the marriage took place at the parsonage in Elgin, of Miss Adda McMachan, daughter of Mr. and Mrs. Wilson McMachan, to W. E. Trotter, of Phillips hills, son of William Trotter. The ceremony was performed by Rev. Mr. Macfarlane. The bride, who was given away by her brother, has been a resident of the vicinity all her life and will be greatly missed by her host of friends. Mr. and Mrs. Trotter left on a honeymoon trip to Ottawa and will reside near Phillipsville.

Health and Beauty Answers

Clara: I made my faded, "stringy" hair take on its natural color again and become soft, fluffy and brilliant by shampooing with cantrox, a teaspoonful of which I dissolved in a cup hot water. It gently, yet thoroughly, dissolved dust, dirt and excess oil, and when I rinsed it out left the scalp healthy and pliant. Since my first trial I have used nothing but this.

Iphigenia: Yes, you can be sure of hair beauty if you give it proper care. Rid your hair of itching dandruff by use of this economical home-made tonic, which will make your scalp so healthy that the hair naturally grows long and heavy. Get an ounce of quinine at your druggist's, dissolve it in one-half pint of alcohol, add one-half pint cold water and rub into hair roots daily.

Antonette: Instead of making over your gowns because you have outgrown them, why not try this harmless flesh-reducer? Get four ounces of paraffin from your druggist. Dissolve it in one and one-half pints hot water. Take a teaspoonful before each meal, and you will see a gradual decrease in weight without loss of strength or sagging skin. It is simple, harmless and effective. Requires no dieting or exercise.

Miss O.: The "face cream without grease" which you will ask about is easily prepared at home by this recipe: Get from your druggist one ounce of alomizin; dissolve it in one-half pint cold water. Add two teaspoonfuls glycerine, stir well and let stand over night. Apply it frequently, and prevents wrinkles and all skin-flabbiness. It is cleansing, soothing and healing and there is nothing better to relieve enlarged pores, muddiness and all roughness or redness of skin.

Christine: For your sallow, pimply skin, which indicates a liver upset, you should make up and use the old-time kerdene blood, kidney and liver tonic. This is prepared by pouring one ounce kerdene into one-half pint alcohol (do not use whisky), and then adding one-half cupful sugar and hot water to make a quart. Take a teaspoonful before meals and your skin will soon be clear and beautiful. The kerdene tonic is good for most bodily pains and aches, because it eliminates from the system the poisons causing them, and its timely use frequently prevents serious sickness.

Celia: You say "I am a slave to my powder rag." Why not try this fine liquid beautifier? It is lasting in effect and economical, besides being due to a white and tone the skin and rid it of sallowness or blemishes. Get 4 ounces of spermax, add two teaspoonfuls glycerine and one-half pint hot water or witch hazel. This makes a big quantity and is far better than the ordinary face powders. It will be very becoming and will seem like a part of your skin.

Millicent: Don't be frightened into buying eye-glasses before you really need them. It is better to strengthen the eyes than to aid their weakness. For some years I have used this simple home-made tonic which has both beautified and strengthened mine. Dissolve an ounce of crystals in one-half pint of water. Two drops daily, or several times daily, will give relief to tired or aching eyes, and soon make them clear and sparkling.

QUASHED APPEAL

Important Decisions in Liquor Cases Handed Out.

Judge McDonald, Brockville, heard appeals in the matter of conviction of the Opinion Club, of Chafley's Lock, for unlawful sale of liquor to be consumed off the premises. One of the convictions was against O. A. Davis, an employee of the club, and the other against W. H. Park, president of the club, each for the sum of \$100 and costs.

The convictions were made by H. S. Davidson and C. E. Johnston, both of South Crosby. The point in question was whether the Opinion Club having a license has power to sell liquor to be consumed off the premises. After hearing C. H. Deacon, for the prosecution, and W. A. Lewis, for the appellants, the judge held that the club was liable, but inasmuch as the object in view was to decide as to the rights of the club, only one conviction should stand. Mr. Deacon and F. B. Taber, the inspector, concurred in this view, and accordingly the conviction in Mr. Davis' case was quashed and that against W. H. Parks was sustained. Inasmuch as the appellants had honestly believed that they had the right to sell to their guests liquor to be taken away from the premises, and the question as to whether they had such right was the real question in dispute.

Clark-Evans Wedding.

A quiet marriage was celebrated Monday evening, at Brock street Methodist church parsonage, when the pastor, Rev. John Webster, united in holy wedlock James Clark, of Rochester, N.Y., and Mrs. Kate Evans (nee Moore), of Kingston. Mr. and Mrs. Clark are going to locate in Kingston.

Stone Coming Too Slow.

The supply of stone is coming too slow for the macadamizing of Union street, which is one of the civic works being undertaken for the unemployed. The city engineer is urging the contractor to speed up the supply, and offers to secure him all the men he may need.

Sidney McCann, B.Sc., has just returned from a geological survey in the neighborhood of Great Slave lake. He says news of the war was just heard in the far north about the middle of September.

A. E. Grasset, a graduate of the Royal Military College, and mentioned with the Royal Engineers, is now in despatches. He graduated in 1908, winning the sword of honor. His style is one of the principal ingredients in a dressmaker's bill.
