BREAK A CHILD'S COLD BY GIVING SYRUP OF FIGS

Cleanse the little liver and bowels and they get well quick.

When your child suffers from a cold don't wait; give the little stomach, liver and bowels a gentle, thorough cleansing at once. When cross, peevish, listless, pale, doesn't sleep, eat or act naturally; if breath is bad, stomach sour, give a teaspoonful of "California Syrup of Figs," and in a few hours all the "clogged-up," constipated waste, sour bile and undigested food will gently move out of the bowels, and you have a well, playful child again.

If your child coughs, snuffles and has caught cold or is feverish or has a sore throat give a good "dose" of "California Syrup of Figs," to evacuate the bowels no difference what other treatment is given.

Sick children needn't be coaxed to take this harmless "fruit laxative." Millions of mothers keep it handy because they know its action on the stomach, liver and bowels is prompt and sure. They also know a little given to-day saves a sick child to-morrow.

Ask your druggist for a 50-cent bottle of "California Syrup of Figs," which contains directions for babies, children of all ages and for grown-ups plainly on the bottle. Beware of counterfeiters sold here. Get the genuine, made by "California Fig Syrup Company."

POTATO RIOTS.

High Price of Food Leads to Serious Disorders.

Amsterdam, via London, Oct. 28.—The high price of potatoes in Germany has led to serious excesses in Brunswick, according to the Vorwaerts.

This newspaper says the booths of potato sellers who refused to sell at the ordinary price were stormed and the potatoes thrown into the street and the greater part of them destroyed before the police arrived on the scene.

A general demand is being made for the German government to establish maximum prices, not only for potatoes, but for other articles of food, it is said.

THE LATEST REVOLT

BOTHA IS NOW LEADING GOVERNMENT TROOPS.

The Younger Boers Are Almost a Unit For the British Cause—Hope to Suppress the New Uprising Very Soon.

London, Oct. 28.—No attempt was made to-day, to minimize the seriousness of the latest revolt in South Africa. The new leaders, Generals Christian De Wet and Christian Frederick Beyers, have a strong local following in the Orange Free State and Western Transvaal.

The admission by the war office that Premier Botha has himself gone to the front to lead the fighting against the new rebels indicates that the government has no intention of treating the revolt lightly. For the last fortnight the government of the Union of South Africa has been endeavoring to keep De Wet and Beyers in line.

The union government is in excellent shape to deal with the uprising. No troops have been withdrawn from that territory, while it is declared here that the younger Boers are almost a unit for the British cause. Because of this latter fact, high officials have high hopes of an early and a complete suppression of the new uprising.

Tuesday night's news from the battlefield describes the allies' position as quite favorable, with the French making substantial progress near Soissons.

Useful New Invention

Enables Anyone To Play Piano or Organ Without Lessons.

A Detroit musician has invented a wonderful new system which enables any person or little child to learn to play the piano or organ in one evening. Even though you know absolutely nothing about music or have never touched a piano or organ, you can now learn to play in an hour or two. People who do not know one note from another are able to play their favorite music with this method without any assistance whatever from anyone.

This new system which is called the Numerical Method, is sold in Canada by the Numerical Method Music Co., of Canada, and as they are desirous of at once making it known in every locality, they are making the following special free trial and half-price offer to our readers.

You are not asked to send any money until you have tried and are satisfied with the new method. The Numerical Company is willing to send it to you on one week's free trial, and you will not have to pay them one cent unless you desire to keep it. There are no express charges to be paid as everything will be sent by mail. Simply write a letter or post card to the Numerical Method Music Co., of Canada, 116M Curry Hall, Windsor Ontario, saying "Please send me the Numerical Method on seven days' free trial."

If you are satisfied after trying it, the Method and fifty different pieces of sheet music, cost you only \$5 although the regular price of these is \$10. You should not delay writing, as the Numerical Company will not continue this special half-price offer indefinitely. Later on the Method and fifty pieces of music will be sold at the regular price.
