PRAYER FOR OUR SOLDIERS.

For our valiant soldiers, Lord, to thee we pray: Guard and keep them ever, Be their guide and stay, Many a weary hour, From their foes protect them, When through the reid they're marching! When in darkness resting, Arms are laid aside, God of battles, shield them— Still with them abide; And if they in fighting, Should not think of Thee, Do not thou forget them, Still their avenger be. Lord, when sick and wounded, Far, perchance, from care, Let thy healing Spirit Save them from despair. Saviour, be thou with them, All their prayers to hear, Strengthen, watch, and comfort, When none else is near. Hungry, Lord and thirsty, Thou wilt wilderness, Thou didst hear thy people In their sore distress; Thou canst turn to blessing Every human pain, Grant that these through suffering Saving faith may gain.

Lord, among our army, Fighting for our land, Thou hast also soldiers Fighting Satan's band; Lord, be thou their helper, Touch their lips with fire, Let thy Holy Spirit Inspire, All their words inspire. Safe beneath the shelter Of thy mighty shield, Thou canst keep from danger Soldiers in the field; And, although around them Tens of thousands die, Thou canst keep in safety Those for whom we cry. —Presbyterian Review.

SHORTENS MAIL ROUTE

To North Pacific Coast By More Than Two Days. Residents in the busy little city of Prince Rupert, British Columbia, are enjoying this week for the first time, the benefits of a direct mail service with the east. Postal service over the Grand Trunk Pacific railway between Edmonton and Prince Rupert has just been inaugurated and a great saving of time is being effected. Hitherto the mails have been taken from Prince Rupert and other coast points to Vancouver by steamship, and then sent east by rail. Under the new arrangement of direct service over the G. T. P. there will be a clear saving of two and possibly three days time. A letter posted in Montreal or New York should be in Prince Rupert within five days. Via Vancouver it would have taken at the very least seven days. Prince Rupert is destined to be an important stopping place on the shortest route around the world, for any scheme that has for its ultimate object the swift circling of the globe, must reckon the city on its right of way. The distance from Liverpool to Prince Rupert by this route is 10985 miles against 10858 via New York and San Francisco. Moreover, ships sailing from Prince Rupert, pass, with a few strokes from the land locked harbor to the high seas, and begin their journey across the Pacific 500 miles nearer the east than a ship would by sailing at the same time from any other Pacific port.

Their Little Joke.

A certain N.C.O., who is training part of Lord Kitchener's army in England, recently had a severe shock. The other morning he had out for instruction two or three hundred strapping young fellows, mostly recruits from city offices. After the usual infantry drill, and while the men were still in line, he gave the order, to be passed down the line from man to man, "Prepare to fix at the white house. Eighteen hundreds yards' range." While the order was going down the line he strolled round the back of the recruits to the last man, so that he might receive the message from him. At last it came. With features that didn't relax one little bit the man turned to him and whispered in a tragic voice: "Red Indians are attacking us. The beggars mean to scalp us." An unconfirmed report has it that the N.C.O. had to be carried off the ground by the ambulance.
