**A WELAND FIRM**

To Make Shrapnel for British War Office.  
The Electric Steel and Metals Co., Limited, whose plant was recently completed in Welland, Ont., have received orders from the British war office, through the Canadian department of militia and defence, for the manufacture of shrapnel shell.  
A number of the directors of the Electric Steel and Metals company have been engaged in the making of shells in English arsenals, and the experience enables them to turn out the complete shell in the Welland plant. The present contract will keep the plant going day and night until April, 1915. The stock in the Electric Steel and Metals Co., Limited, was recently issued by Rooke, Bickle & Co., Toronto.

**Every Man To His Trade.**  
Mark Thistlewaite, private secretary to Vice-president Marshall, ran across a 30-page handwritten letter from a crank in the official mail this morning. After reading three pages of it he decided, with a grin, to brighten his chief's day by letting him wade through the document; and accordingly laid it on top of the pile of letters on his private desk.  
Vice-president Marshall came in with a cheery greeting and passed into his private office. There was a buzz sound, "Mark," he exclaimed, as the secretary appeared, "when I keep a dog, do you suppose I'm going to do my own barking?"  
Some people are willing to take almost any old thing except a hint.

**LATEST WAR TIDINGS**

The bombardment of the German position in Kiau-Chau began Saturday.  
It is the impression that a general advance of the allied forces in France and Belgium has been ordered.

Extremely severe fighting is in progress in the Argonne region, where the Germans are again trying to push southward.  
Announcement of Turkey's participation in the war caused enthusiasm in Berlin.  
Lord Nairn, son of Lord Lansdowne and King George's equerry, has been killed in action in France. The Black Sea fleet has attacked the Turkish squadron, sinking a mine-layer and a destroyer, and capturing a collier.  
Turkish warships are bombarding Sebastopol.  
The claim is made that Turkey did not intend to make war on Russia, but that action was taken by the German crews of the Goeben and Breslau.

The Germans in their retreat destroyed all of the railways and bridges, as well as all stores in the territory evacuated. The Russian artillery has been an important factor in the fighting.  
General Von Klueck's army, which holds the positions near Soissons, has again attempted the offensive, but it is officially declared that it has failed to gain any ground, and that the allies now hold some of the former German trenches on the right bank of the Aisne.

Both Great Britain and Russia have presented the following demands to the Sublime Porte: An explanation of Turkey's naval action in the Black Sea; the dismissal of German officers from Turkish ships; and the dismantling of the cruisers Goeben and Breslau, said to have been purchased by Turkey of Germany.  
A Reuter despatch from Constantinople says that Turkey has formally announced its annexation of Egypt. The British cruiser Hermes, built in 1900, was sunk by a German torpedo in the Straits of Dover, with the loss of two men drowned and forty missing.

Communication with Constantinople has been cut off, but it is understood that all diplomatic representatives of France and Britain have departed.  
The Italian cabinet has resigned as the result of a deadlock on the question of declaration of war against Germany.  
All reports to hand indicate that the allied troops are holding their lines in France and Belgium.

Two Turkish torpedo boats entered the harbor of attack merchant ships, but were driven off by the Russian gunboat Kubentz.  
Official London bureau issued the names of twenty officers killed, eight wounded, eight missing, thirty-two captured, and one deserter.  
It is officially announced that the British, French and Russian ambassadors asked for and received their passports on Sunday, leaving Constantinople at night.  
A Reuter despatch says the German casualty list for the past week amounts to 62,000; total to date about 420,000.  
On Thursday British aviators dropped three bombs in the midst of German war material near Bruges, in a daring great damage.

**WARR BULLETINS**  
Turkish ambassador in Berlin says the sultan will declare a holy war at once and involve the British Mohammedan troops in India and Egypt.  
Germans again failed in a terrible night attack near Ypres against British and French.  
It is understood in Rome that a quarter million Turkish troops are already in Egypt.

Reported in Toronto that United States secret service has notified the Canadian government of a plot to blow up the Welland canal and the C. P. R. tunnel at Hamilton.  
Tsing-tau is on fire from the shells of British and Japanese warships.  
Russians have made a great advance west of the Vistula river.  
Col. Albertas has defeated another rebel commando in the Transvaal.

**MOVEMENT OF THE ALLIES.**

Is In a North and North Easterly Direction.  
London, Nov. 2.—The general trend of the movements of both allied and German armies is for the moment, according to both British and French official statements, in a northerly and northeasterly direction which is in accordance with the desires of the allied commanders, but that Germany has resumed her hammer blows with greater energy than ever is attested by the British official information bureau.  
In spite of these stubborn counter-strokes it is claimed that all the movements of the trine forces are in a forward direction towards the line still held by Germans in force and stretching from Bruges to Thourout, Roulers, Iseghem, an Courtrai.

**On a Mysterious Mission.**  
London, Nov. 2.—The British government has sent three of its highest officials to the continent on a most mysterious and important mission. The delegation consists of David Lloyd George, the chancellor of the exchequer; Lord Haldane, the lord chancellor; and Lord Reading, the chief justice.  
The destination of this mission is being kept a profound secret, as we as his object. The most plausible report has it that the three have gone to Holland and possibly will extend their journey to the Scandinavian countries to deal with the matter of the shipment of goods from neutral countries into Germany.  
James Robinson was sentenced by Justice Kelly at Hamilton to two years in the penitentiary for manslaughter in the killing of Andrew Richardson.  
Mrs. Jacob Page, Paleton, lost a eye through a can of syrup exploding when she was opening it.
