Fire Insurance

Now that the fall season is once again with us, necessitating the starting of stoves and furnaces, the danger from fire risk consequently increases, so that it is essential that all property should be adequately covered.

If in need of any additional insurance or contemplating a change, I would appreciate the opportunity of hearing on your requirements. I represent several strong tariff and non-tariff companies.

Who "Pays the Piper?"

Stop the Fire Waste!

It makes your rent higher, increases your taxes, and by raising the cost of your groceries and butcher, puts up the price of food. "You pay the insurance."

When you build set a good example for your neighbor. Every brick building erected helps to reduce the insurance rate. Every frame building helps to increase it.

Work for extended fire limits. Build with brick and buy your brick at home.
