LORD ROBERTS' APPEAL.

Refrain From Treating Soldiers to Strong Drink.

London, Nov. 10.—Lord Roberts, whose efforts for the moral welfare of the men in khaki has become proverbial, makes an earnest appeal today against the prevalence of treating soldiers.

Thousands of new recruits, he says, are literally having their constitutions undermined and their work interfered with by the frothy though thoughtless, public who insist upon giving the men with drink. His appeal applies equally to members of overseas contingents.

Co-operative marketing of live stock is suggested by the Saskatchewan department of agriculture as a means of reducing the spread between the prices paid by the producer of live stock on one hand and by the consumer on the other.

Cured Fifteen Years Ago of Piles and Eczema

By Using Dr. Chase's Ointment—Certifies That the Cure Was Permanent.

Some people have tried so many doctors and so many treatments in their search for cure for piles and eczema that they find it difficult to believe there is an actual cure.

The strongest point about Dr. Chase's Ointment is that it not only brings relief promptly, but brings about actual and lasting cure. In 1897 Mr. M. Ketcheson, 38 Church street, Peterborough, Ont., wrote as follows: "I was troubled for thirty years with itching piles and eczema. I could not sleep at night, and when I got warm the itching was terrible. Eczema covered my legs down to the knees, perfectly raw. I have tried every preparation I could hear of. Seeing Dr. Chase's Ointment advertised, I procured a box, and this Ointment effected a complete cure. On Sept. 24, 1912, Mr. Ketcheson writes as follows: "I received a letter from you to-day, saying that you found on file a statement made by me 15 years ago. I have always given Dr. Chase's Ointment a good name since it cured me, and shall tell you how I came to use it. "I had suffered for many years from eczema and piles, and had tried doctors and everything I could hear of in vain. Reading about Dr. Chase's Ointment, I purchased it at once, and was soon completely cured. That was fifteen years ago, so there can be no doubt of the cure being a permanent one. I have met a great many people who have been cured by Dr. Chase's Ointment. Dr. Chase's Ointment, 80 cents a box, all dealers at Edmondson, Bates & Co., Limited, Toronto.

FALL OF TSING-TAU

Means the Loss of All Germany's Asiatic Territory.

The fall of Tsing-Tau ends the most picturesque of the minor phases of the great world war now raging.

On two continents and in many of islands of the sea where colonies of the warring nations were planted, combats of more or less interest have taken place, garrisons have been captured and towns occupied peacefully, but in the little German concession on the south side of the Shanghai peninsula of China there has been going on since late in August a reduced scale of war that from all accounts has duplicated nearly all the features of those battles in Europe that have resulted in the capture of fortified positions.

The capture of Tsing-Tau loses to Germany her last foot of possessions on the Asiatic mainland as well as her last strategic position outside of the German empire in Europe.

For sixty-five days the little German garrison, amounting to about 7,000 men and nearly wholly composed of reservists who were living or doing business in China, has held out against the land and sea attacks of the Japanese, of certain British detachments of both white and Indian troops that found themselves in China at the outbreak of the war, or doing business in China, has held out against the land and sea attacks of the Japanese, of certain British detachments of both white and Indian troops that found themselves in China at the outbreak of the war.

Her demands ignored, when the ultimatum expired a week later, Japan proceeded cautiously with plans to seize the German settlement on the Chinese mainland.

The operations in this isolated far eastern theatre of the war have been reduced to a scale of some 200 miles as compared with the whole continent of Europe, but on that account they have been none the less interesting. Aeroplanes and all other accompaniments of modern warfare have figured in both the Japanese and the German operations.

KAISER'S PEACE TERMS.

As Outlined After the First Month of War.

M. Clemenceau, in his newspaper L'Homme Enchaîné, has published the Kaiser's peace terms for France, as they were outlined after the first month of the war. They are as follows:

1. Germany will take all French Colonies, including the whole of Morocco, Algeria and Tunis.
2. She will annex all the territory of the east of France along a line drawn from St. Valery-sur-Cote to the sea at Lyons; that is to say, about one-quarter of France, with 15,000,000 inhabitants.
3. A war indemnity of £400,000,000.
4. A treaty of commerce for twenty-five years without any reciprocity on the part of Germany; after that period the terms of the treaty of Frankfurt of 1871—that is, the most-favored-nation treatment—to obtain between the two countries.
5. Recruiting for the army to be suppressed in France for twenty-five years.
6. All French fortresses to be demolished.
7. France to hand over to Germany 3,000,000 rifles; 3,000 guns and 40,000 horses.
8. All German patents to be accepted and binding in France free of tax for twenty-five years without any reciprocity on the part of Germany.
9. France to abandon the agreement with Russia and England.
10. France to conclude a treaty of alliance with Germany for twenty-five years.

These conditions of peace Count von Bernstorff somewhat facetiously described as the German ten commandments. "We must sing France for ever as a nation," he said. "We must make her a power like Turkey or Portugal, even if we have to kill 5,000,000 Frenchmen in order to do so."

Famous Corps Wants Recruits.

London, Nov. 10.—A fourth squadron is being raised of the King Edward's horse, to make good losses sustained by the regiment in the firing line. One hundred men from any of the Dominions are required. Only those able to ride and shoot need apply as the regiment will go on active service almost immediately. The headquarters are the Clarendon hotel, Watford.

ARE LOSING MORALE

GERMANS WANT TO GO HOME TO THEIR FIRESIDES.

They Sing a New Song - French Aviators Brought Down Two German Taube Machines.

Paris, Nov. 10.—The work of destruction at Arras continues. The cathedral has been badly damaged. Many civilians have been struck down in their own homes by the flying shells.

While their comrades locked on, two French aviators attacked the drivers of two German Taube machines and brought them down, the conflict proving one of the most stirring episodes in this region.

During a recent bombardment by the French artillery shells fell in the German trenches at the rate of eighty two per minute. This and the terrific hammering that goes on steadily is breeding the morale of the German troops, as evidenced by a new song which they are now singing. Instead of "Deutschland Uber Alles," the verse runs: "Glory, glory, we are going back home to our own firesides where there will be no war."

One of the worst stories of German barbarity now current makes the doings of the Mexicans look like "peaceful" shooting. The Belgians affirm that four hundred civilians at Dinant were imprisoned in a church. Then the Germans entered by the back doors and drove them out the front exits at the point of the bayonet. As they emerged from the place they were mowed down by machine guns. Those not killed were allowed to go free. I give the story under reserve, but Belgians and Frenchmen repeat it everywhere and it is asserted that survivors have been found to substantiate it.

HINT TO HONEST DEALERS.

No Go-Betweens for Army Contracts Says Acting Premier.

Ottawa, Nov. 10.—That the government will not allow any alleged go-betweens to represent themselves as able to secure army contracts is evident from a statement made last night by Sir George, who is acting premier in the absence of Sir Robert Borden. "That several persons in the United States, and chiefly in New York, are representing themselves as official buyers of army supplies for the Canadian government, or as purchasers for or advisers of the representatives of the British and allied governments who may be buying in the United States and are so purchasing and advising by the official sanction and authority of the Canadian government."

"On Friday last," said Sir George, "representatives of three important firms in New York came to Ottawa to see me to ascertain the truth of the statements made by some of these persons who had approached them for business and, needless to say, on the basis of a fatuous promise to be paid an amount of order. These persons are doing much harm not only in confusing reputable firms and raising prices, but in spreading the impression that crooked dealing is being carried on by Canadian government's representatives."

"I desire to state that no one has any authority from the Canadian government to represent himself as having been authorized to buy for the government or as having been authorized to buy for the account of the British or allied governments nor to act as adviser or helper of any representative of the government. These people are making a nuisance of themselves and injuring the reputation of Canada and all honest dealers should give them a wide berth. The names of some of these are being sought by the government and will from time to time be published as they are obtained and, if possible, be dealt with under the law."

GERMANS USING BOYS.

On the Firing Line - Their Losses Dreadful.

Paris, Nov. 10.—The fact is no longer concealed that the Germans' original plans for an advance on Calais have been frustrated. At the same time, there is no evidence as yet, of a general retirement, despite the fact that German headquarters have twice been moved further toward the east. The fact is that it is obviously their intention to cling tenaciously to the entire coast line running from Ostend to Knocke as long as possible, and within the last few days reinforcements have passed through Ghent in a westerly and northwesterly direction. The composition of these reinforcements suggests that the Germans are nearing the limit of their resources in personnel. Whole battalions are made up of youths from 17 to 19 years of age. I have seen cyclist scouts less fit physically for active service than English public school boys. If their duties were confined to patrol work they would no doubt be very efficient; but many mere lads have been thrown recklessly into the fighting line; where they have come into conflict with the seasoned troops of the allies.

These German boys fight with great pluck and determination and their losses have been dreadful.

"After The Ball."

Taken from the world's most famous song hit by Chas. K. Harris. At a glance it sounds good. When you see it you get more than you ever dreamed of or bargained for. It runs the gamut of every emotion that could be conceived tears—thrills cheers and laughter. The work of the well known stars surpasses anything ever filmed. The story differs in every way, and summed up briefly is the most satisfying offering ever put forth in this country.

The Photo Drama company have spared no expense in making "After The Ball." This is vividly apparent when you view this more than excellent photo play, which will be shown at the Grand Opera House for four nights and a daily matinee commencing Wednesday, Nov. 11th.

ABOUT THAT COUGH? LOOK AT THIS & THINK!

THIS diagram of the human body shows you that there is absolutely no connection between the stomach and the lungs. When for a cold, a cough, or any chest complaint, you take medicine which goes—not to your lungs, but to your stomach, you are wasting time. You must BREATHE IN healing for the lungs—you can't take it in by dosing your stomach with sickly mixtures and cough drops!

Peps provide the new "breathing treatment" for coughs, colds, bronchitis, and all lung troubles. Peps bring lung-healing pine fumes to your home, instead of you having to go to the pine forest. Peps are pine fumes, and certain highly-beneficial medical essences condensed into tablet form. You put a Peps on your tongue and let it dissolve. As it does so, the healing volatile essences are liberated. You breathe them DIRECT TO YOUR LUNGS. Whether you breathe deeply or easily, these healing essences pass down your breathing tubes, bathing all the inflamed surfaces which no liquid or solid matter can ever reach, in health-giving pine fumes, and carrying health and healing wherever they penetrate.

The tissue-strengthening, pleasant fumes, so liberated from the dissolving Peps, are not only healing in their operations. They are highly antiseptic. They kill the germs of consumption, catarrh, and those many and varied throat and lung troubles so common to-day.

You have a nasty night cough? Take a Peps before going to bed—your cough will not trouble you! Your lungs are a little weak, and going from the warm house into the cold air outside makes you cough? Just before going out put a Peps in your mouth—there will be no coughing! Your throat feels "stuffed up." Your chest feels tight, and your breathing troublesome? Peps will put matters right for you very quickly.

Peps are excellent for children. They contain no opium, morphine, or any other poison. Test them by getting free sample!

Peps cure coughs, colds, bronchitis, asthma, catarrh, sore throat, and all ailments of lungs, throat and chest. See box all druggists, or Peps Co., Toronto.
