

What are Pepps?

Pepps is the name bestowed upon a new scientific preparation put up into solid or pastille form, which provides an entirely new and effective treatment for coughs, colds and lung and throat troubles generally.

Look at it the other way round. Suppose you suffered from some stomach complaint—indigestion or ulceration. How strange you would think it if you were asked to take a medicine which had to be breathed in, and which went not to your stomach, but to your lungs and breathing passages?

There is no connection between the stomach and the lungs (see diagram below), and when for a cold or a cough or any chest complaint you take some medicine, such as liquid cod-liver oil, syrups, lozenges, which go not to your lungs, but to your stomach, you are wasting time.

Pepps—this newest remedy for coughs, colds, and lung troubles—goes to the lungs and breathing-tubes, direct. Pepps are really pine fumes and certain highly beneficial medicinal extracts specially prepared by a new scientific process and then condensed into tablet form. It is like making a breathable gas solid!

You put a "Pepp" on your tongue and let it dissolve. As it does so the healing essences it contains pass into vapor, and you BREATHE them direct to your lungs and air passages!

These healing essences, which pass down your breathing-tubes, reaching all the inflamed and raw surfaces, which no liquid or solid matter can ever reach, in health-giving pine fumes, and carrying healing health and healing wherever they penetrate.

These healing essences, which pass down your breathing-tubes, reaching all the inflamed and raw surfaces, which no liquid or solid matter can ever reach, in health-giving pine fumes, and carrying healing health and healing wherever they penetrate.

SHIP FIRED BY SPIES

CAPTAIN OF BURNING STEAMER SO NOTIFIES THE OWNERS.

800 Horses Destroyed—They Were Being Conveyed to Europe For the Allied Armies.

Norfolk, Va., Nov. 12.—Virtually all of the 800 horses on board the British steamship Rembrandt were burned to death when the ship took fire off the Virginia Capes, according to information reaching here. The Rembrandt was found from Baltimore to Saint Nazaire, France, and the animals are understood to have been intended for the armies of the allies.

It was reported here that Capt. Edin, of the Rembrandt, had notified officials of the Lampart and Holt line, owners of the ship, that the last reason to believe the vessel was fired by German spies who were members of the crew. The captain is said to have claimed that threats against the ship were made before she steamed from Baltimore, Saturday.

TO STIMULATE RECRUITING.

British Government Is to Canvass Every Household.

London, Nov. 12.—In order to stimulate recruiting and to find out how many of those eligible to do so are willing to enlist, the government has decided to send to every household whose name is on the voting list a blank form, which he will be asked to return with a statement of what members in his household have enlisted or are willing to enlist. The giving of this information, however, is not mandatory.

Each form will be accompanied by a letter signed by Premier Asquith, Andrew Bonar Law and Arthur Henderson, president of the parliamentary recruiting committee, in which they state that the number of recruits thus far obtained, though large, is not nearly large enough to meet the nation's requirements and that in order to maintain complete the new armies which it is hoped to throw into the field in a few months "we shall need all the best the nation can give of its youth and strength. If we are to repair, as far as may be humanly possible, the innumerable wrongs inflicted on our allies; if we are to avoid for ourselves the fate which they have suffered; if we are to maintain for our children all that we hold dear in honor and the freedom of our very life as a nation, we must fight with the courage and endurance which won for us the struggles of the past."

FROM PSYCHIC SOURCES.

Allies Will Make Unexpected Progress This Month.

London, Nov. 12.—War news derived from "purely psychic sources" is contained in the Occult Messenger as follows: "The United States, the most unlikely people of all, will put its finger in the Turkish pie. Greece, Bulgaria and Russia will be in Constantinople at Christmas, the Russians during the third and fourth week in November. Her armies assuredly will be victorious and tread German soil on the way to Berlin."

"The allies will make unexpected progress during the latter part of November. New guns are making their appearance to smash the German forts and a new invention in trench aviation seems to increase the allies' tactical superiority and throw dismay into the retreating Teutonic ranks. The German losses are appalling, more than 1,300,000 being already put out of action on both her frontiers."

PROFESSOR KILLED IN FRANCE

Paul Cret, Pennsylvania University, Gave Life For Country.

Philadelphia, Pa., Nov. 12.—A professor of the University of Pennsylvania, universally beloved for his goodness and internationally famed for his work as a designer, has sacrificed his life in the cause of the despatch from Washington, Paul Cret, whose allegiance was to France, but whose great career was inseparably connected with Philadelphia, died in battle while serving as a French private, and his body was buried where it fell, the despatch said. The message came as a great blow to thousands here who knew Professor Cret.

DISCHARGES SOME GENERALS.

Mexico City, Nov. 12.—Generals commanding 50,000 men in their neighborhood were relieved of their commands by General Venustiano Carranza because they refused to nullify their actions when they signed an agreement to abide by the decisions of the Aguas Calientes convention.

Among these are General Bonavides, commanding 10,000 men; Gen. Antonio Villarreal, General Javenoio Robles, and many others.

LOOKING FOR THE BULLET.

An officer had been wounded in the leg during the battle of the Aisne, and a surgeon was at work on him. After making many incisions, the officer, growing tired and worn with pain, asked if he had nearly finished. "I am looking for the bullet," said the operating surgeon.

"Why didn't you say so before?" replied the officer. "It's in my pocket."

JEAN FAURE DEAD.

Paris, Nov. 12.—The death is announced of Jean Faure, the old-time singer and composer, at the age of eighty-four. In addition to singing at the Opera Comique, he was the composer of the world-famous melodies, the most celebrated of which is "Les Rameaux" ("The Palms").

"Over five million cups of 'Salada' tea are consumed every day, and the demand is constantly increasing. 'Salada' is all fresh, fragrant leaves grown in hill-top gardens, and is free from dust."

In a few years the candles on a woman's birthday cake fall so throw any light on her age.

FOR AMERICA'S NAVY.

Bids Received For Construction Of Six Giant Destroyers.

Washington, Nov. 12.—Bids for the construction of six giant destroyers—the largest ever designed for the American navy—were submitted for opening at the navy department. Military characteristics not embodied in destroyers of the previous class have been planned for the new vessels and by increasing their displacement twenty four they will be enabled to carry four additional torpedo tubes and two 11-inch guns. When the new vessels are completed there will be sixty-eight destroyers in the navy. The destroyers were authorized by the last congress and their limit of cost, exclusive of armament, is \$325,000 each. They will have a displacement of 3,170 tons and a speed of 29 1/2 knots. They will measure 315 feet 3 inches over all with an extreme breadth of 28 feet 10 inches.

The new destroyers will be equipped with four 4-inch 50-caliber guns; four 2.1-inch triple torpedoes and two one-pounder automatic anti-aircraft guns.

MINES KILL LOBSTERS.

England May Have to Get Supply From Foreign States.

London, Nov. 12.—It may be necessary in the near future for the fish merchants here to import lobsters from America, as the presence of mines in the North Sea, so a well-known merchant said today, had greatly curtailed the supply, while the frequent explosion of mines had so greatly affected the lobsters that it is believed they have deserted some breeding places there. It was said lobsters were susceptible to sudden shocks.

Recently English fishermen have in certain localities run across numerous surface mines in the North Sea, and since then many have abandoned work while the government prohibits fishing in other areas.

In the Grimsby fishing trade more than a score of trawlers have been lost as a result of mine explosions and the greater proportion of the crews drowned—there are half a dozen trawlers overdue. It is estimated that in boats alone the Grimsby trade has suffered to the extent of \$600,000, most of which is borne by local insurance.

GERMAN MOVE IN ROME

Prince-Von Buelow Expected to Succeed Von Flotow.

Rome, Nov. 12.—Herr Von Flotow, the German ambassador here, will shortly leave Rome. Prince Von Buelow who usually resides here, and who through his Italian marriage has great influence in Italian society, is mentioned as his possible successor in view of the importance of the post at this crisis.

The pope has sent a letter to Mgr. Dohretsch, archbishop of Antivari, saying that since he became pope he has striven to diminish the horrors of this war, and begging Mgr. Dohretsch, as he had begged the archbishop of Cologne, to help prisoners and wounded in Montenegro. His holiness expresses confidence that the Montenegrins will treat them kindly.

The pontiff has also written to the Archbishop of Rheims in the following words: "We take a part in the grief caused by the spectacle of such misfortunes and by the thought of your fatal consequences to your diocese from the religious, artistic and material standpoint."

WAR NEWS AT CHURCH

Magdalen Islanders Must Attend to Hear Latest.

Ottawa, Nov. 12.—If the few settlers on Magdalen Islands want to get the latest war news they must go to church on Sunday. There are two wireless stations on the islands and to these stations the department of naval service sends the chief news items of the war for the week every Saturday night, and this news bulletin is put up outside the church door on Sunday mornings.

To the two wireless stations in the Hudson Bay country, Le Port and Port Nelson, war news is also sent from Ottawa by wireless as well as to tea remote places on the north Pacific coast, where there are wireless stations and to outlying points on the Great Lakes.

When the war broke out the naval department deemed it wise to dismantle seven of the 10 wireless stations on the Pacific coast and the two in the Gulf of St. Lawrence, but these have again been put into operation.

PARIS' THEATRE PROBLEM.

Meeting Called to Discuss Re-opening And Actors' Relief.

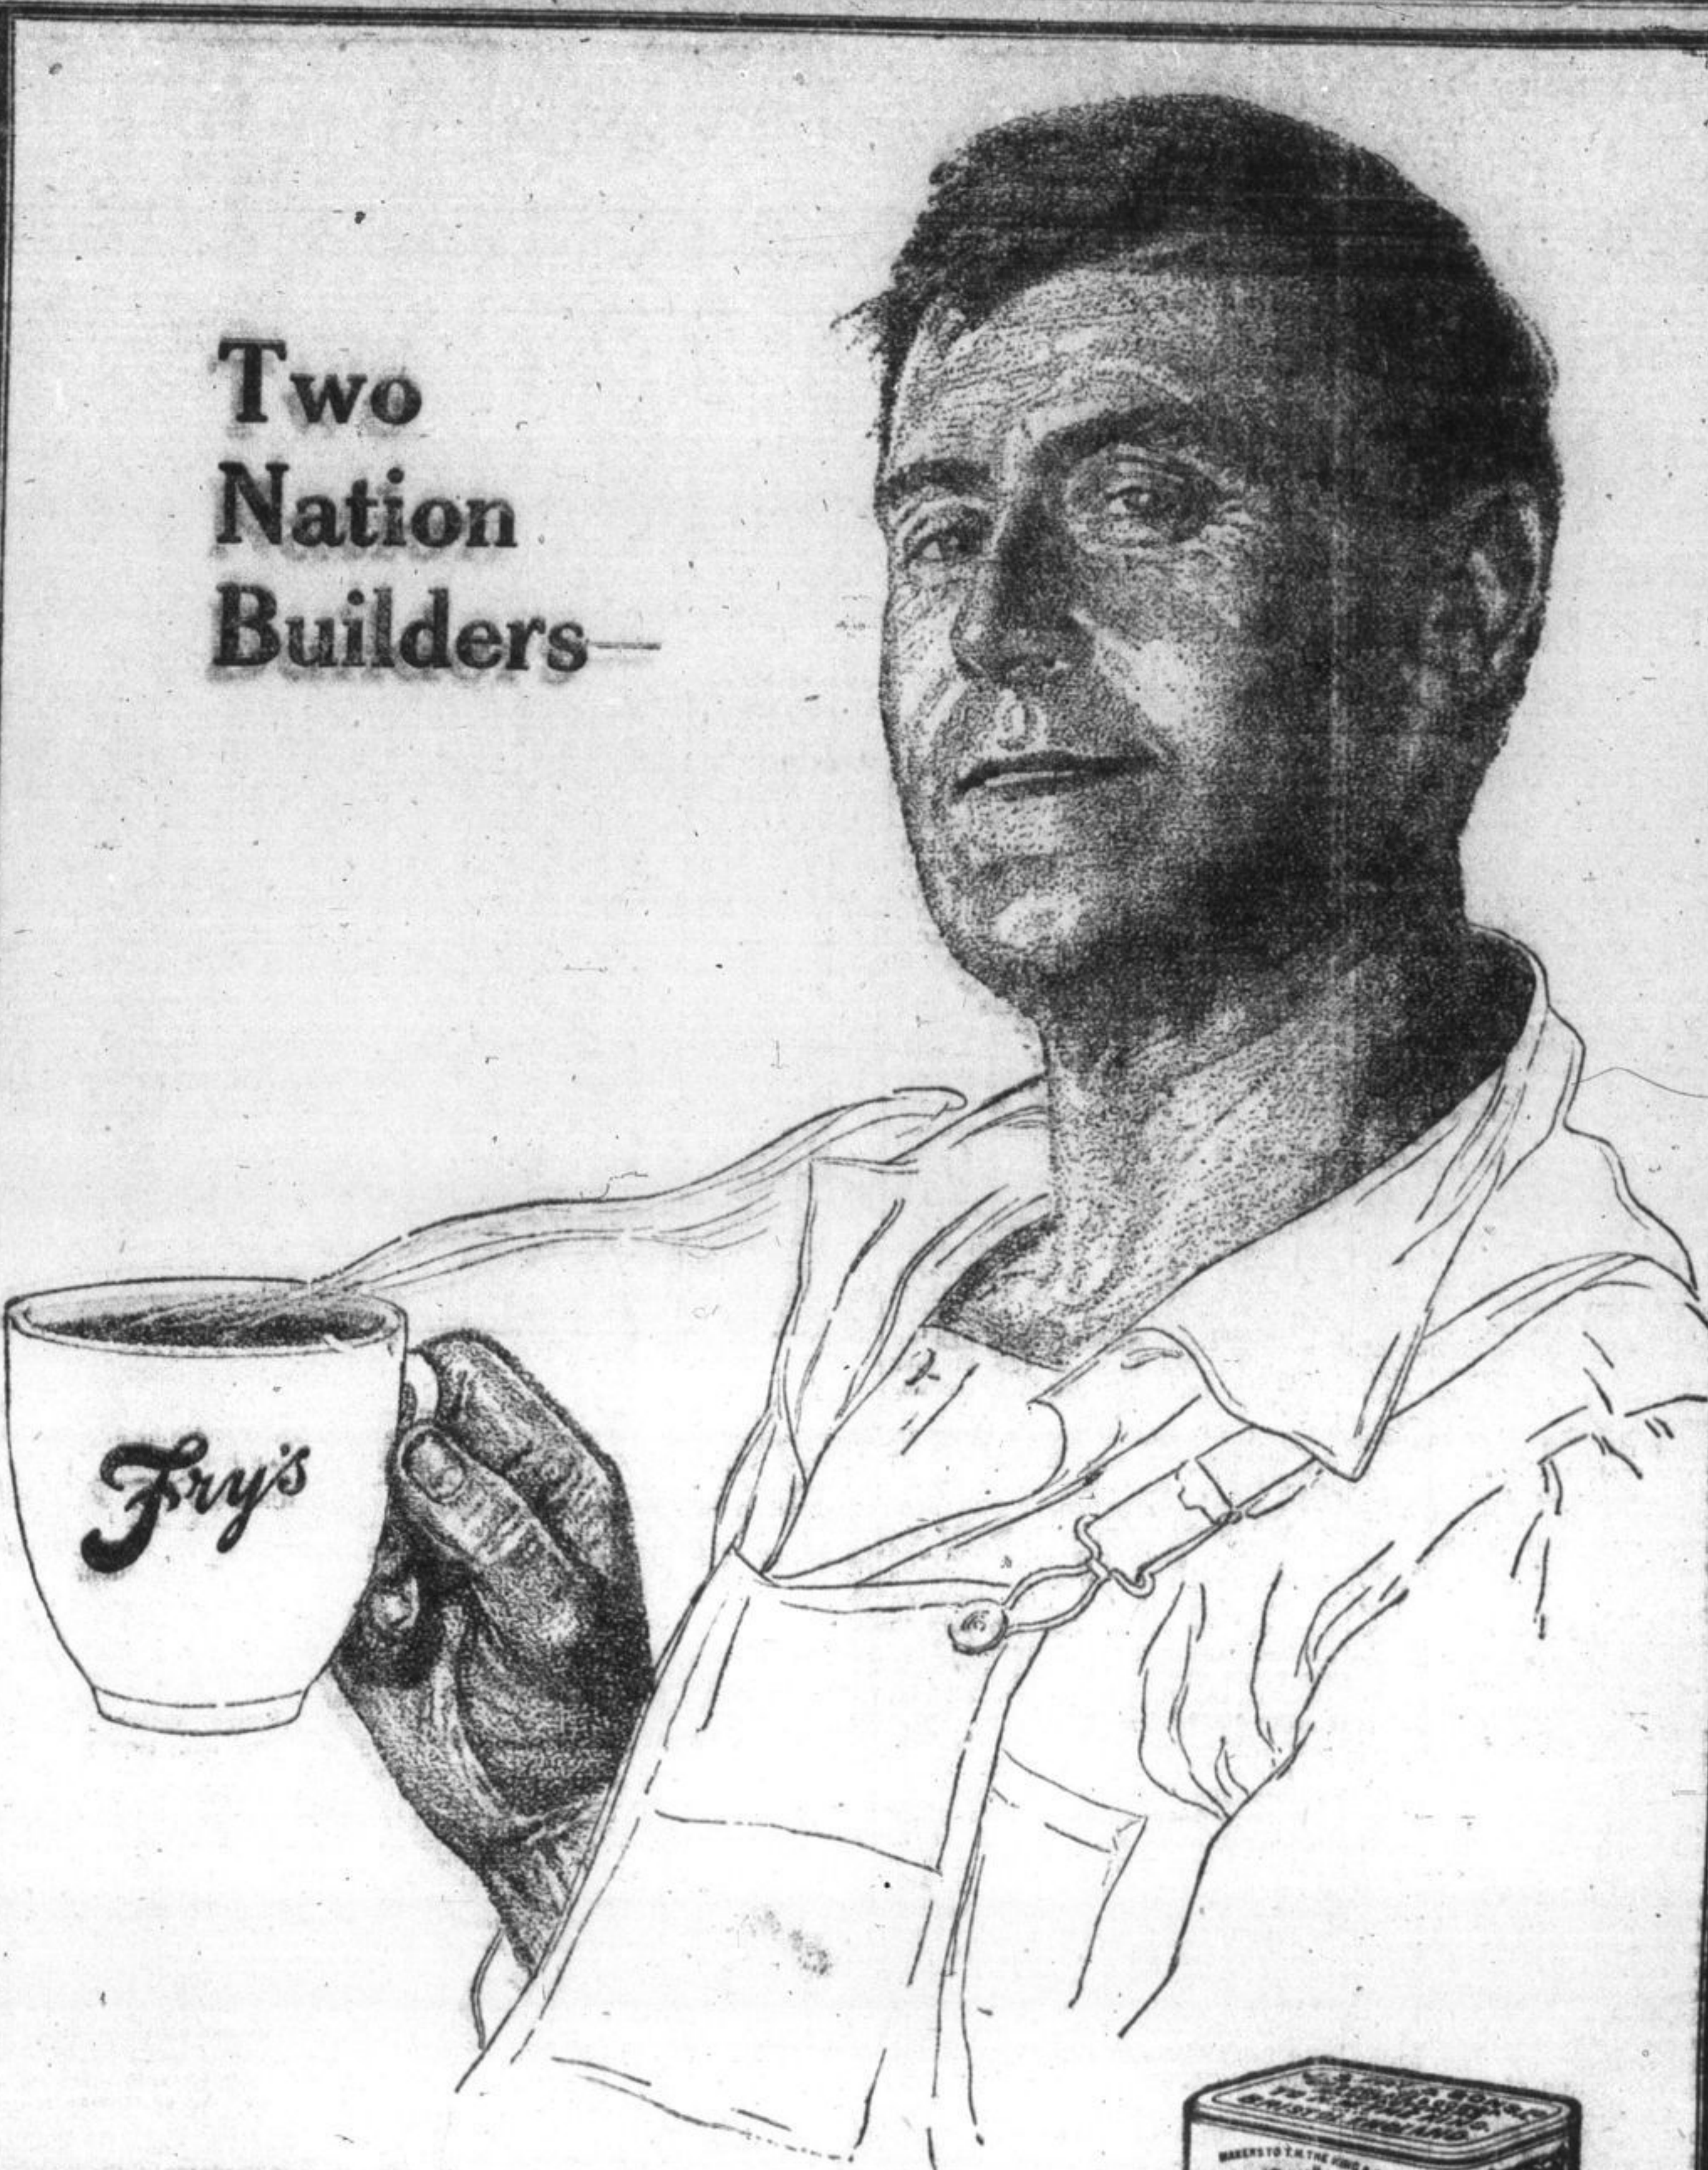

Paris, Nov. 12.—A large meeting, attended by the representatives of all the theatrical and amusement organizations of Paris and also of the provinces, held yesterday with the view of procuring the re-opening of the theatres and other places of amusement, also discussed measures to relieve distress among actors and employees of the theatres. The meeting drafted the principle of a manifesto, which will be further considered on Friday before its submission to the authorities.

"Nothing in the nature of a theatre or music hall in Paris is now open, with the exception of one. That, a concert hall, devoted to a patriotic programme. Numerous moving picture shows still remain open."

LEFT ESTATE OF \$2,188,000

Over Half Goes to James Manuel, of Ottawa.

Ottawa, Nov. 12.—The will of the late John Manuel, millionaire lumberman, died for probate disposes of an estate of \$2,188,000. Over half of it, \$1,123,000, goes to his brother James of this city, and a number of nephews and nieces are also named. They include John Thompson, Jeanette Thompson, John Thompson, all of Ottawa, and Whittier, Ont., and James Turner, of Stoutville, Ont., \$50,000 each. There are also a great number of beneficiaries to the same amount in Scotland. Bequests to charity totalled

Two Nation Builders

ANY man can make his day's work a pleasure by drinking FRY'S COCOA regularly. It's like putting in a good foundation to a building. FRY'S is rich in energy and muscle-making properties and supplies the body everything it needs for its daily building operations. It's far more than a mere beverage. It is so pure and so concentrated that it is very economical, a small teaspoonful of FRY'S making a large cup of delicious cocoa. Start on FRY'S today.

Trade Supplied by
J. S. FRY & SONS, Limited
Truro, Montreal, Toronto, Winnipeg, Calgary, Edmonton, Vancouver, Victoria.

MRS. WINN'S ADVICE TO WOMEN

Take Lydia E. Pinkham's Vegetable Compound and be Restored to Health.

Kansas City, Mo.—"The doctors told me I would never be a mother. Every month the pains were so bad that I could not bear my weight on one foot. I began taking Lydia E. Pinkham's Vegetable Compound and had not finished the first bottle when I felt greatly relieved and I took it until it made me sound and well, and I now have two fine baby girls. I cannot praise Lydia E. Pinkham's Vegetable Compound too highly or what it has done for me. I always speak a word in favor of your medicine to other women who suffer when I have an opportunity."—Mrs. H. T. Winn, 1225 Fremont Ave., Kansas City, Mo.

REPAIRING

Centre Tables, any finish, \$1.50 and up.
R. J. REID
Repairing Undertaker, Phone 877.

West Gallia Abandoned.
Rome, Nov. 12.—Eсад Paaha has sent a letter to the Italian government, declaring that he recognizes the Italian rights over Valona. The "Corriere d'Italia" is authority for the statement that Austrian military headquarters has been transferred to Hungary, the entire army retiring and abandoning Western Galicia.

The background in some portraits is the best thing about them—if it is far enough back.
