One Cause of Bad Complexion—the Cure

"Look at a section of skin under the microscope and you will readily understand why cosmetics generally injure the complexion," says Dr. H. Roberts Mackenzie. "The skin, smooth as it looks to the naked eye, under the glass exhibits a lacework of tiny holes, mouths of myriads of little glands. To keep the skin healthy these holes must be unobstructed, that the perspiration and natural oil can have free outlet. Should the glands be blocked up with irritating gritty particles, a common result of using powders and creams, Nature retaliates by causing sallowness, roughness, blotches or pimples.

"As a substitute for all cosmetics I recommend ordinary mercolized wax. It not only does what the various face preparations are supposed to accomplish, but its peculiar absorbent action frees the pores from the daily accumulation of impurities, also absorbing the devitalized particles of surface skin. This produces a natural, healthy, youthful complexion. One ounce of this wax, to be had at any drug store, usually suffices to rejuvenate the poorest complexion. It is put on nightly like cold cream and washed off mornings."—Family Physician.

THE BOARD OF WORKS

RECOMMENDS SUBMITTING BY-LAW TO THE RATEPAYERS.

For Expenditure of $30,000 On the King Street Breakwater— Considers Building Retaining Wall Near Foot of Willian Street.

The Board of Works will recommend to the City Council that a by-law be submitted to the ratepayers at the municipal elections in January for the raising by debentures of $30,000 for the rebuilding of the King street breakwater of concrete. The board has every confidence that the ratepayers will endorse the by-law, as the construction will give a good deal of work to the unemployed.

The city engineer presented a plan of the proposed rebuilding of the breakwater. He had the assistance and advice of E. H. Pense, engineer of the public works department, Ottawa. The cost was estimated at about $30,000. The plan includes an iron railing.

The engineer reported that it would cost the city $3,000 to excavate and build a retaining wall in connection with the proposed railway extension from the foot of William street along Ontario and down Ore street.

The board decided to refer the matter to the city solicitor for advice. It is desirous that the street should be put into such condition that the railway extension be possible. This will provide work for various classes.

The account of W. R. Hamilton for $12 damages to his bicycle by running into an excavation near Victoria Park, was ordered paid on recommendation of the city solicitor.

The communication of N. C. Polson, jr., regarding the bad condition of the roadway on Princess street from King to Ontario, and on Ontario street from Princess to Queen, is receiving attention of the city engineer. The blocks in question may be paved next spring.

The chairman and the engineer were instructed to report as to how much stone would be required to build a roadway to the Frontenac Ice company's plant.

It was decided to increase the price for breaking stone in the quarry by hand from $4 to $6 a toise.

In attendance were Alds. Litton, (chairman), Fair, Couper, Peters and Sutherland.

GAVE FINE LECTURE.

Prof. Morison Spoke on "The Founders of Modern Germany."

Convocation hall was well filled on Tuesday evening, for the first of a series of lectures to be given under the auspices of the Kingston Historical society. Prof. Morison, of Queen's University, was the speaker, and he spoke in a very interesting manner, with the subject, "The Founders of Modern Germany." Rev. G. D. Ferguson presided.

Prof. Morison dealt at length with the history of the French-Prussian war, following up to the present day conditions in Germany, and in summing up declared that the fight should be continued for democracy. It was our duty, he declared, to fight until democracy comes; until war shall be ended in war. Although he hoped that this present war would end all war, he did not believe that it would. The kaiser should be put down in his rule, and the rule of the people knew what they wanted, and it should not be the rule of the ruler alone. Christianity could not overcome it alone, common sense was needed.

At the close of his lecture Prof. Morison showed a number of fine pictures and cartoons dealing with his subject. Pictures were shown of the old time war vessels of France and Germany and the present day battleships.

The lecturer, on motion of R. J. Carson and G. E. Hague, was tendered a vote of thanks for his able discourse.

Prof. W. L. Grant announced that the next lecture would be given by Professor Wrong, of Toronto, his subject being on "German Militarism." The probable date is Dec. 2nd, but this has not been definitely decided.

A collection was taken up during the evening, the proceeds in aid of the Red Cross society.

The Red Cross society, treasurer, Miss E. Macdonell reported to the Whig on Wednesday morning that the sum of $39.57 had been received by the collection of this lecture.

DEMONSTRATION CAR.

Attracted Great Deal of Interest in City.

Tuesday afternoon there arrived in the city over the Canadian Pacific railway a demonstration car which contained exhibits of the live stock branch of the dominion department of agriculture. The car, which, is making a tour of Ontario, Quebec and the maritime provinces, remained in the city over night and during the afternoon and evening was visited by a large number. Wool and egg exhibits are featured in the demonstration.

The object of the wool exhibit is to assist farmers and city dwellers alike to gain a more complete and definite knowledge of the character of wools grown in this and other countries, and of the products manufactured therefrom. It will demonstrate how wool may be handled to secure the best advantages to both producer and consumer. Carelessness in the preparation of Canadian wool has resulted in an injury to its reputation upon the markets of the world.

The principal features of the egg exhibit are contained in two large show-cases, and strongly illustrate right and wrong methods of marketing eggs.

An additional and important feature of the exhibit is a large candling booth, in which demonstrations were given in the art of candling eggs. This phase of the work was of particular interest to consumers, for the reason that but few appreciate the fact that the quality of an egg can be accurately determined without breaking the shell.

Bible Sunday will come on December 6th this year. The Bible is considered and its annual progress recorded.

A CALL TO CITIZENS

TO BECOME ACQUAINTED WITH USE OF RIFLE.

Reserve Battalion to Provide for All Ex-members of 14th Regiment and Citizens in General—To Fill up Ranks of City Regiment.

A meeting will be held in the City Council chamber on Thursday evening of ex-officers, non-commissioned officers and men of the militia and citizens in general. Lieut. Col. A. B. Cunningnam will preside at this meeting the object of which is to provide means for ex-officers, non-commissioned officers and men of the militia, and citizens in general, whereby they can become acquainted with modern drill and the use of the rifle. It is felt that the moral effect would be a good one and also create enthusiasm which would lead to the younger men recognizing their duty more fully and thereby join the 14th regiment, whose ranks have become depleted by those who have offered their services for overseas.

The reserve battalion and home guard is a distinctive organization, and has no connection with the veterans of any similar organization, and is essentially a business man's organization, and all drills will be held to suit their individual conveniences.

The meeting Thursday evening will be strictly a business meeting for organization purposes. Those who wish to join the class of instruction, now being held at the armouries can do so, and those who cannot spare the time for these classes can decide what nights they wish to drill. There can be organization of groups of friends into companies, and they can elect their own officers and non-commissioned officers. When they are sufficiently advanced in drill, they can then be formed into a battalion, and the drill carried on in its more interesting details.

A number of the prominent business men of the city have intimated their intention of joining, and the success of the movement seems assured.

In Montreal, Brockville and other cities, the members of similar organizations even went so far as securing their own rifles at their own expense. However, this will not be necessary here, as it is the intention of holding target practice later on, whereby members can learn the art of shooting as well as drill.

Young men should not be held back from joining the 14th regiment and every encouragement should be held out by employers and others to have them join, not the reserve battalion or home guard but the 14th regiment.

IN MARINE CIRCLES.

All the Vessels Will Soon Be Laid up, —Marine Notes.

The marine season is fast drawing to a close. In a week's time it is expected that nearly all the vessels will be laid up. A few of the coal schooners have one or two trips to make yet before they are laid up for the season, but the majority have already finished. The freighters will keep going just so long as navigation is open, but the grain traffic is about over. The Montreal Transportation company has received its last cargo from Fort William, and the company is now busily engaged getting all the steamers and barges laid up at the various places for the winter.

The steamer Stormount passed up to-day from Montreal, on the way to Fort William.

Owing to the heavy gale that was blowing on Tuesday several of the lake steamers had to take shelter in port. The steamer Canobia, which passed up early on Tuesday morning, had to run back to port on account of losing her anchor, when attempting to lay within lee of the Duck Islands. The steamer tied up at the Canadian Locomotive company's wharf for repairs.

The steamer Neepawah passed down the American channel, loaded with grain for Montreal, on Tuesday.

The steamer Ames passed down on Tuesday night, with a cargo of grain for Montreal.

The steamer City of Hamilton passed up on Tuesday night.

The steamer Aletha is due from Picton on Wednesday afternoon.

Once tried always used, White Rose flour.

TO LESSEN THE EVILS

WHICH CONFRONT SOLDIERS MOBILIZED HERE.

Sydenham Street Methodist Bible School Deals With the Question of Spiritual Help for the Volunteers.

It was unanimously decided at the annual meeting of the teachers and officers of Sydenham Street Methodist Bible school, on Tuesday evening, to do more in lessening the evils with which the large body of soldiers now stationed here amidst us are confronted. Ald. T. F. Harrison, superintendent of this school, said there are many of these soldiers who have come from wealthy and respectable homes. Now that these are interspersed within the ranks where will be found others who lean towards evil habits, instead of those of more elevating qualities, Mr. Harrison deemed it wise to stretch forth a hand and uplift the standard of living among the soldiers. At the same time keeping a firm check upon those, who before coming here were devoted to religious principles, was urged by the chairman lest they should be tempted with any corruption. The plea was expressed that an invitation be sent to the soldiers inviting them to come to the church and Bible school. Rev. Alfred Brown asserted that he had interviewed Col. T. D. R. Hemming upon the question and was told that just as soon as all the soldiers had been uniformed, they would be sent in detachments to the various churches.

Elmer Davis and several others expressed the opinion that it was little enough for us to help these young men spiritually before they leave for fields of danger. A committee was appointed to look after the matter, with Mr. Davis as chairman. It was also decided to place literature and other interesting matter in the Y.M.C.A. rooms, which have been opened up for the soldiers in Ontario hall and the old Salvation Army barracks on Bagot street.

Some discussion also arose over the Chinese department of the Bible school, after Mr. Harrison had called upon Miss E. Pound, assistant superintendant of the same, to voice her opinion. The latter claimed that there should be more unison in the working of both branches, better system above all being required. The music of this foreign department to her mind was also deficient, and upon her suggestion a musical committee to look after the singing was chosen, comprised of J. W. Corbett, Miss Sexsmith, Mrs. Harvey Chown and Mr. Monroe, missionary committee. This committee is to pick out suitable hymns and have them translated into Chinese.

Some few minutes were taken up by Mr. Harrison in dealing with the vacancies that had occurred by certain teachers and other members of the Bible school having gone or are going to the front. Among these were mentioned George T. Richardson, Harry E. Pense, Calvin Day and Noble Armstrong. Mr. Harrison paid a tribute to these young men who are going to fight for "freedom's cause."

Harold Ettinger was chosen as secretary of a vest-pocket Bible league, that is to be formed in the school. Before the business meeting, supper was served by some of the young ladies of the school.

GRAND OPERA HOUSE.

Ernie Marks' Company In "Along the Missouri."

"Along the Missouri," a western rural drama, was the bill presented by the Ernie Marks Stock company at the Grand Opera House last evening. The story is one of love and intrique and was portrayed by the company in a forcible manner. Ernie Marks, as "William Watson, or Kind Old Bill," portrayed the character of an honest old farmer, in a clever way, while his son John, Norbert E. Dorente, a budding politician, took the leading part, which gave him good scope for displaying his dramatic ability. Paul Dasher, "Randolph Radbourne," played the villain in such a natural way as to win the disapprobation of the audience. Gus Hogan, "Rip Stokey," the hired boy, was amusing. Kitty Marks, as "Katharine Patton," and "Clara Bell Prae," gave clever interpretations of their roles, and received hearty applause. Demstead Price, Happy Allen and Norma Seifert were well up in their parts.

In the specialties Gus Hogan, Happy Allen, Grace Lockwood and the two Browns won the admiration for their singing and dancing.

On Thursday evening the bill will be a Canadian comedy, "The Call of the Woods," a play which Mr. Marks has special rights to produce.

JUNIOR RUGBY ON SATURDAY.

Ontario and Collegiate Play for City Championship.

On Saturday, on the athletic grounds, the best junior city rugby game of the season will be played. The Ontarios and the Collegiates will clash for the championship. Both teams are practising daily and some splendid work is being accomplished. The boys are taking great interest in the league and the winners of the game on Saturday will have to play good rugby. The teams are pretty evenly matched. Large crowds attend these games as the class of rugby played will be a credit to junior intercollegiate union.

A Pound Party.

The Woman's Auxiliary of St. James' church will hold a Pound Party, on Thursday afternoon, Nov. 26th. The ladies of the congregation are invited to spend a social afternoon in the school room, bringing with them a pound of groceries of any kind to be sent to the Gordon schools in the Diocese of Qu'Appelle, in which the auxiliary is especially interested.

Tea and Sale

The Church Women's Aid of St. George's cathedral will hold their annual tea and sale of work in St. George's Hall, Thursday, November 26th, from three to six.

Lieut. C. F. Carson At Front.

BOWEN E. AYLESWORTH DEAD,

Former Member of Legislature for Lennox.

The death occurred suddenly at his residence, at Bath, of Bowen E. Aylesworth, formerly member of the Ontario legislature for Lennox. Deceased was born at Ernesttown, Lennox county, January 12th, 1837, the son of David and Nancy Aylesworth. In 1865 he married Elizabeth Ann Miller, daughter of Peter Miller, of Ernesttown. He was reeve of the township of Ernesttown for two years, and of the village of Bath two years, and was elected in 1897 warden of Lennox and Addington. He unsuccessfully contented Lennox, in the liberal interests, for the legislature at the general election of 1890, but was elected at that in 1898. His election was declared void, but he was re-elected the following year. He was defeated in 1902, when he ran for Addington.

To-night Annie Laurie.

Did you like "Bunty Pulls The Strings?"

The world famous song "Annie Laurie" that has moved down through the gray old years with a wealth of associations steadily gathering about it, is this season to be placed upon the stage by The Royal Scotch Players. Its author, Howard McKent Barnes, has written a pure Scotch play.

It can easily be seen that the scope for a play in "Annie Laurie" is infinitely wider than in almost any other song or story that has come down to us, for the mere name suggests womanhood with all its mystery and charm.

"Annie Laurie" will be seen at the Grand tonight.

Penitentiary Officers Volunteer

Eighteen officers from western penitentiaries are in the Princess Patricia's regiment that have gone to the front. Prince Albert lost eight officers, British Columbia four, and two went from both Edmonton and from Stoney Mountain. Two officers and the steward of the Edmonton penitentiary, are going on the second contingent.

Rummage Sale.

King's Daughters Rummage sale Friday evening, Nov. 20th, at 7.30 p.m., and Saturday morning, Nov. 21st, at 9.30 a.m., at No. 12 Montreal street, between Princess and Brock streets.

"God Kill the Kaiser."

In the primary department of the Sydenham Street Methodist Bible school last Sunday, the feacher said: "God bless the kaiser." A little fellow called out: "No, God kill the kaiser."

An operation was performed at the home of Gordon Smith, Washburn, on November 15th, for a growth on his ear, troubling him for some time. He is doing nicely.
