The Norwegian steamer Sir Tyr has been detained at Glasgow. The reason is, that 4,000 tons of copper ore, which are contraband of war, were discovered in the bottom of the Norwegian steamer's hold, hidden among a cargo of general merchandise.

LIVES ON BULLY BEEF.

Officer Would Wring Chicago Meat Kings' Necks.

London, Nov. 21.—An officer whose letter appears in the Morning Post writes:

"We live on various forms of dog biscuit, and bully beef of different brands. They vary enormously in quantity, and on my return I should like to get hold of some of those Chicago meat kings, wring their necks, and put them through their own mincing machines."

IS SHORT OF PETROLEUM.

Germany Issues Orders For Its Conservation.

Copenhagen, Nov. 21.—Germany is experiencing a scarcity of petroleum, due in part to the loss of supplies from Russia and Austro-Galician oil fields, but mainly to the breakdown of arrangements for imports from the other side of the Atlantic.

Throughout provincial Germany and in many towns as well local policemen have been instructed to interview consumers of petroleum for heating and cooking purposes and warn them that in future oil must be used for lighting only, and as sparingly as possible. Retail dealers also have been privately warned not to supply petroleum to strangers. It is a criminal offense to sell even a few bottles of oil without a special police license.

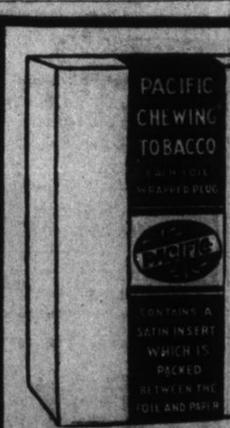

FOUR PRIESTS EXECUTED.

Put To Death by Military Government in Mexico.

El Paso, Texas, Nov. 21.—A military bulletin from Guadalajara received here says that four Roman Catholic priests had been executed by order of General Joachim Aguero, military governor in the state of Michoacan. TALE OF INSULT TO FLAG.

Germans in Antwerp Tore Up Stars and Stripes.

London, Nov. 21.—A Belgian who has arrived here from Antwerp gives the following description of conditions in Antwerp.

"I do not think the German garrison of Antwerp consists of more than 2,000 or 3,000 men. The Germans have no hands to spare for the reconstruction of the forts damaged by the bombardment. Big guns have been mounted among the ruins able to control the harbor. On the whole, comparatively few Belgians have returned, while very many are still trying to leave via Holland. In the last few days the Germans have steadily refused passports.

"A pitiful sight was presented when the train in which I traveled reached the frontier. A number of women and children were turned out of the train and permission to pass into Holland was refused to them. They were all sobbing and crying, for beyond the frontier was freedom, behind it tyranny.

"To the Germans Antwerp is a food elephant. They have to feed it and they have no use of it. On Sunday a steamer brought the Stars and Stripes arrived with food in the harbor.

"The Germans have tried very many times to build a pontoon bridge over the Scheldt, but each time the tide rises high it carries the pontoons away, and they have to begin all over again.

"In the taverns you have to be very careful, a careless word let fall in the presence of Germans, say a suggestion that the Germans are being defeated in the west, is sufficient for you to be arrested, court-martialed, and condemned to many months, even years, of imprisonment.

"I believe some day there will be trouble for the Germans with the Americans. I heard that German soldiers tore down the American flag from an office in the Red Star Line, where some American goods were stored. They tore it in half and destroyed it. The American consul came and demanded the flag. They could not find it. Then the consul demanded that they buy a new one. When it was brought he hoisted it and tore down the German flag, treating it the same way his own flag has been treated."

THE SPORT REVIEW

VARSITY WON INTERCOLLEGIATE RUGBY CHAMPIONSHIP.

Defeated McGill in Toronto On Saturday By 17 to 13 — Won Game In The Last Two Minutes.

Varsity defeated McGill by 17 to 13 in Toronto, Saturday, thereby winning the championship of the Intercollegiate Union. It was a game of thrills and excitement especially in the last quarter when the tide of battle turned in such a remarkable manner that the 7,000 spectators, were alternately in the highest degree of gloom and the next moment in the depths of despair. It was a grand climax to a great game and the hero was Cassells, the Varsity middle wing, who, in the closing moments of the game secured a loose ball and ran 50 yards for a touchdown. All the thrills of a football lifetime were crowded into the final quarter, and the victory of Varsity was not accomplished until within two minutes of the call of time.

The first quarter ended 7-1 for McGill, who led at half time by 8-2 and at three quarters time by 8-7.

Harvard Walloped Yale.

No Soccer Match.

There was no soccer match on Saturday on account of one of the teams not turning up. It was decided that Queen's and C.L.C. should play off for the championship on Saturday, but the former did not make its appearance, thereby giving C.L.C. the game by default. C.L.C. is winner of this season's league.

HAS CLEAR CONSCIENCE.

Explorer Says Kaiser Is Fresh and Elastic.

London, Nov. 21.—The Lokal Anzeiger publishes the following picture of the Kaiser by Sven Hedin, the Swedish explorer:

"I had the happiness to speak to the Kaiser in former years, and he has not altered. Lately, I met him frequently and I can only say that he has lost nothing of his freshness and elasticity. His appearance is not altered in the least, and yet every day he puts in 14 hours of work. Everything must be recited to him, and he takes part in everything. I am often asked the question: How is the Kaiser able to bear this physical and mental strain? I think, the correct answer is that he is able to bear it because his conscience is clear; that he feels himself innocent before God and man of having caused this war, and that he knows he has done everything in his power to prevent it. The Germanic cause cannot wish for any better representative than the Kaiser, and it would almost appear as though he had been born for this crisis. For just as he did all in his power to keep peace, he feels now that he is responsible for the development of the German destiny, and with this view he devotes to the cause all his feelings, thoughts and acts."

GANANOQUE TIDINGS

Death In Toronto of Mrs. George Bruton.

Gananoque, Nov. 21.—Mrs. George Bruton, an aged and highly respected resident of this section, passed away in Toronto on Wednesday last. The remains were forwarded here and the funeral took place yesterday afternoon from the home of Mrs. A. Stratton to Halstead's Bay burying ground.

The Young Men's Bible Class of St. Andrew's church held a very fine entertainment in their lecture room last evening when a short play entitled "The Minister's Bride" was produced.

Mrs. Alexander Amo, Wellington street, is confined to her home quite seriously ill. Mr. and Mrs. William J. Kelly, who have been spending part of their honeymoon with relatives at the capital returned home last evening.

PASS NORTH OF SCOTLAND

British Admiralty Allows Swedish Liners To Go That Way.

Stockholm, Nov. 12.—The Swedish foreign office has received permission from the British admiralty for Swedish transatlantic liners to make the passage by the north of Scotland. Through the sanction the worst troubles for Swedish shipping are removed, Germany having officially declared that she has no intention of making navigation in these regions insecure. "This permission on the part of Great Britain," says the Swedish Shipping Gazette, "must be hailed with great satisfaction, and brings the hope that everything will again be working under fairly normal conditions."

TAX ON BEER OPPOSED.

English Temperance People Fear More Spirits May Be Used.

Dundee, Scotland, Nov. 23.—The temperance party express grave doubts concerning the results of an increased beer tax on national sobriety. Some consider the chief result will be to make many abandon beer for spirits. Temperance legislation has systematically highly taxed light alcoholic drinks and heavily taxed spirits. New beer will approach in price the cheapest whiskey as a drink.

Parliament is notable now for dullness. The attendance is poor — at times not more than twenty. Members are conscious of their own comparative unimportance at this stage of affairs, and show it.

ALIENS MAY WORK IN PARLS

abinet Considering Question to Let Wood For Needy.

Ottawa, Nov. 23.—The best method of handling the alien enemies who are now being registered in various parts of the country, and who it is felt should be interned, is now being considered by the cabinet.

Negotiations are in progress with the provincial governments to see if arrangements can be made to put them at work in the provincial forests cutting wood for needy Canadians. In Ontario they would be placed at work under guard in Algonquin Park; Western Canada in Rocky Mountain and Jasper Park.

BANQUET TO DR. CONNOLLY.

Leaves Renfrew to Take Responsible Position in Ottawa.

Renfrew, Nov. 23.—Citizens of Renfrew tendered to Dr. B. G. Connolly, who has removed to Ottawa to become manager of the Capital Trust Corporation, a farewell banquet at the Hotel Renfrew. There were about 100 present, including several visitors, among whom were Hon. George P. Graham, Brockville, Dr. Maloney, Eganville, Judge Fisher Pembroke, and Dr. Murphy, Arran.

In the course of the evening a cabinet of silver, together with an address, was presented to Dr. Connolly.

Stop Nickel Export To Germany.

Ottawa, Nov. 23.—Steps are being taken to prevent the export to Germany of any of the production of Canada's nickel mines. Eighty per cent of the nickel production in the world comes from the Canadian mines, the only other mines of importance being in New Caledonia, a French possession. This means that Germany will be unable to get outside supplies of nickel and will probably have to depend entirely on stocks in store.

Bonus For G. T. R.

Sarnia, Nov. 23.—Last week saw the successful close of a whirlwind three-day campaign in Port Huron to raise \$100,000 to be used in an effort to induce the Grand Trunk railway company to rebuild its Port Huron shops, which were recently destroyed by fire. A two-million-dollar plant will probably be erected.
