The members of the Dramatic club, who have been practicing faithfully under Prof. Falls, have arranged a trip to Trenton and will put on their play, "The Rogues Comedy," in that town on Friday night, Nov. 27th, and arrangements may be made so that they will be able to repeat the performance in Belleville on the following night.

The board of curators of the arts' society held a meeting on Monday afternoon and John McNabb was given the secretaryship in the place of J. Stitt, resigned.

The theological society has secured practice hours at the gymnasium every Monday from nine to ten, and expects to place a strong basketball team in the arts league this season.

Joint meetings of arts' '15 and '16 and arts' '16 and '17 were held on Monday afternoon, and the arts candidates were given a chance to address the electors.

The first basketball team held the best work out of the season in the gymnasium on Monday afternoon. Some twenty men were on the floor and much first-rate material turned out.

The weekly meeting of the Boxing, Wrestling and Fencing club took place in the gym on Monday evening. About fifty enthusiasts turned out and the boxers were put through their paces by J. Mosher.

THE WAR WILL END. Only When Allies Have Attained Their Purpose.

London, Nov. 24—Attorney-General Sir John Simon said in a recruiting speech yesterday: "I will tell you a secret with the full authority of my colleagues in the ministry. I will tell you when the war is going to end, not approximately, but exactly. The war is going to end on that day when we and our allies have accomplished the purpose on which we are engaged."

NOW PROMOTES GIVING Will Try to Help Those Throw Out of Employment.

New York, Nov. 24.—The Society for the Prevention of Useless Giving has changed its name to the Society for the Promotion of Useful Giving, and yesterday announced plans to enter actively into the relief work being done in this city in behalf of the Belgians.

NO CHRISTMAS TRUCE. Russian Press Attributes Plan to German Intrigue.

Petrograd, Nov. 24.—The press devotes space to condemnation of a proposition by the British League of Peace that an armistice be declared for Christmas, and attributes the movement of secret work in England of Germans and sympathizers with Germany, whose activities are apparently far from being adequately realized by the British people.

SORE DEFIED DOCTORS.

Zam-Buk Quickly Worked a Marvelous Cure.

Mr. Earl G. Appleby, of Big River, Sask., writes: "Two years ago, while at work, I injured my left heel. The wound did not heal, but left an open sore about an inch and a half long. As you can imagine, this was extremely painful. I tried every salve that was mentioned to me, but could not get relief, and so I then tried several old-fashioned remedies, such as wax dropped into the sore, hot tallow, etc., and finally went to a doctor who stitched the sore. This was fairly successful for a time, but last winter the wound opened up again, and was as bad as ever. To say I was discouraged would be putting it mildly. I started in again trying all kinds of remedies and suffered hours of agony."

"My predicament was noticed by a fellow workman, who persuaded me to give Zam-Buk a trial. I did so, although I did not expect it would prove any better than the other remedies I had tried. In a short time after Zam-Buk had been applied the inflammation and pain were practically gone. Within a week the sore showed signs of healing. I continued with Zam-Buk and it finally closed the sore and healed it completely. I consider this cure so marvelous that I am sending this unsolicited testimonial, hoping it will influence other sufferers to give this wonderful ointment a fair trial."

Zam-Buk is purely herbal, and is soothing, antiseptic and does not contain animal fats or poisonous coloring matter.

Use Zam-Buk for cuts, burns, bruises, obstinate sores, eczema, piles, chapped hands, cold sores, rheumatism, and all injuries and skin diseases.

All druggists and stores, or from Zam-Buk Co., Toronto, on receipt of price, 60c. box, 3 boxes for \$1.25. Refuse substitutes.

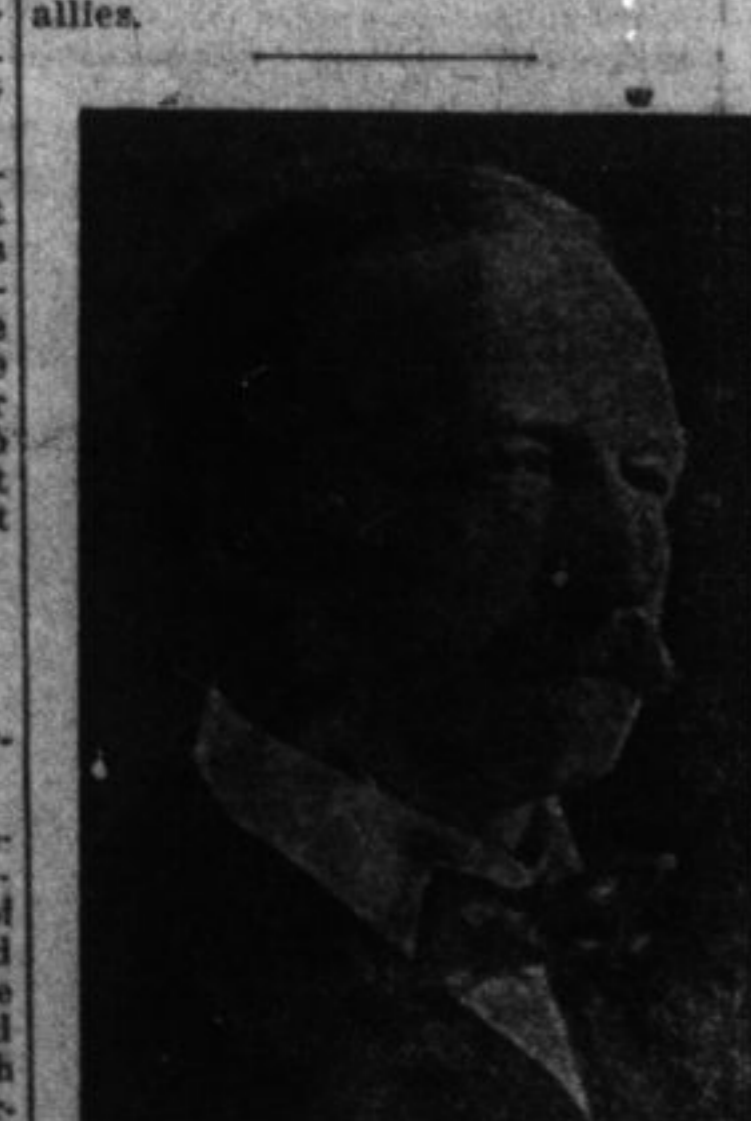

GEN. VON HINDENBURG. Regarded as Germany's greatest strategist because he drove back the first Russian attack and has again taken the offensive in Poland, which now appears as if they are marching into a trap.

SOME SERIOUS SPLITS

REPORTED BETWEEN GERMANS AND AUSTRIANS.

Mutual Recriminations at Stormy Council Presided Over by Kaiser—These Allies Fought Openly. Petrograd, Nov. 24—No doubt now remains that serious differences have arisen between Germany and her ally, Austria. It is said that a stormy council was held under the presidency of Emperor William at Breslau, after the German flight from Poland, after mutual recriminations, Germany demanded that Austria should give every man for the defence of East Prussia, implying that Austria had already gone beyond the hope of saving by the Austrians. On the other hand, Austria required that the Germans should make a serious attempt to save Cracow. It appears that this stormy council had been preceded by actual fighting between the Austrian and German soldiers. In the course of the retreat when the Germans reached the neighborhood of Pabianitz, largely populated by German colonists, the rest of the inhabitants being exclusively Jews, the German armies appeared to feel already at home. Quarrels broke out which terminated in the Austrians leaving Germany, and striking away on their own line of retreat.

Strong bodies of Germans were sent after them, and both parties opened fire. The result was decided by the arrival of German reinforcements, who, it is believed, have exterminated what they considered nationalist troops rather than regular allies.

SIR THOMAS SHAUGHNESSY. May enter the House of Lords and take over the Canadian high commissionership.

THE SPORT REVIEW

McGILL AND VARSITY WILL EACH GET \$5,000.

As the Result of Their Game On Saturday—Varsity Proved the Better All Round Team.

The Quebec Arena will have ice for skating the latter part of next week.

The Victoria Tennis Club of Victoria, B.C., want the Canadian lawn tennis championship games in 1915 or 1916.

For the tenth time in the history of the Intercollegiate Rugby Football Union, Varsity won the championship on Saturday, when they defeated McGill.

The Northern Hockey League is becoming a worthy rival of the O.H.A. They expect to have double the number of clubs this year.

When McGill kicked off to open the game at University of Toronto Stadium, Saturday, the ball went to touch-in-goal, but no score was allowed, as no Toronto player touched the ball before it bounded over the line.

At the annual meeting of the Ottawa hockey club, it was decided to remain loyal to the N.H.A. Frank Shaughnessy was again chosen business manager.

The Ottawa football club has had the poorest season on record financially, and also from the standpoint of winning games.

Coach Shaughnessy of McGill, with his knowledge of the American game, had the McGill team admirably drilled in the interference plays.

As the Intercollegiate winners have the final game for the C. R. U. championship on their grounds this year, the Toronto Stadium will be the scene of action.

The New York State Athletic commission will grant a license to the Brooklyn Sporting Club to conduct all open air fights at Ebbets Field except those held under National League auspices.

Unofficial figures given out after the match between Varsity and McGill show that close to 12,000 paid admission to the Stadium, the receipts amounting to \$6,800. The expenses, for grounds rental, officials and advertising will amount to about \$800, which will leave a surplus of \$6,000 to be divided, giving each club \$3,000. This amount will put both Varsity and McGill ahead on the season.

In comparing the teams after the match between McGill and Varsity at Toronto on Saturday, Referee Sinc McEvenue stated that in his opinion the better all-round team had won the championship.

In speaking of the play, McEvenue said: "Varsity had the edge on McGill on the line work all through the game. They used the weight to good advantage and through it wore their opponent down, playing them into submission in the closing period."

BASE TO ATTACK ENGLAND.

Whole Belgian Coast Being Fortified by Germans.

Rotterdam, Nov. 24—The origin of the statements in circulation a few days ago that ships of the British fleet had bombarded Zebrugg, it is now plain, came from the fact that a mine drifted ashore in heavy weather last Sunday and exploded on the breaker, doing great damage. The noise of the explosion was heard at Flushing, and gave rise to the sensational rumors mentioned. No civilian has been allowed within two miles of Zebrugg for the last fortnight, and it is known that big engineering works have been in progress at the head of the canal.

The whole coast from Knocke to Nieuport is now dotted with heavy gun positions, the German artillery being of sufficient range and calibre to make an effective response to warships attempting to bombard the littoral.

It is asserted that this is only the first step in the execution of a great scheme for holding and fortifying the coast, a scheme which was to have been carried out far as Calais, and may be regarded as the preparation of a base for an attack upon England, according to the pre-arranged plans of the general staff, than merely as a precautionary measure to cover a possible German retreat.

BUST OF SIR CHARLES.

Work Undertaken by London Sculptor Satisfactorily Completed.

London, Nov. 24.—The bust of Sir Charles Tupper, modeled by Frederic Lessore, the London sculptor, who is well-known in Montreal, is now finished and will probably be sent to Montreal for exhibition in the spring. The sculptor's task was undertaken at the request of Sir William Van Horne and Hugh Allan. Mr. Lessore commented upon the remarkable civility, humor and interest displayed on the features of the veteran and sole surviving father of Confederation, who made a most patient sitter. Sir Charles' family are very pleased with the result of Mr. Lessore's work, their judgment being that no bust could give greater satisfaction.

BERLINERS WANT PEACE.

Threatening Posters Torn Down by Police Re-Apparatus.

London, Nov. 24.—The Copenhagen correspondent of the Daily Mail says he learns from Berlin that placards are posted nightly in the suburbs of the German capital, demanding peace and containing threats. The police tear the posters down, but they always appear the next night, says the correspondent, and the authorities do not seem anxious to catch the offenders for fear of drawing further attention to the peace agitation.

A MESSAGE To Canadian Readers. In a recent issue of THE LITERARY DIGEST is published the result of an absolutely impartial canvass made by its editors among the editors of American newspapers to determine how the sympathies of the American press and public in the present war are divided. The article shows that in round figures 28 per cent. of the newspapers favor the cause of the allies, while 5 per cent. favor the Germans, and 65 per cent. state that the editors are neutral. The editorial replies also show that public sympathy is divided as follows:—51 per cent. is for the Allies, 10 per cent. for the Germans, and 38 per cent. is neutral. This article is just one of the many important features of the war news which Canadians will read with interest and which is exclusive with THE LITERARY DIGEST. Not only in recording the war news is THE LITERARY DIGEST giving immense satisfaction to the Canadian and American public, but in all other important topics of interest to mankind—politics, invention, science, business, religion, amusements the same impartial spirit pervades. SPIES LURKED IN ASYLUM

Took Places of Lunatics' Attendants and Aided German Gun Fire.

Paris, Nov. 24—German spies have been found in the most unlikely places, in Lorraine they used a lunatic asylum as a depot. All the doctors and most of the ordinary attendants deserted the institution with the approach of the French army. Their places were taken by spies. Fighting proceeded around the

BOY IS A SERGEANT.

Edouard Martel, 15, Has Fought Since War Began.

Paris, Nov. 24—At the Duchess of Sutherland's hospital at Malo les Bains, says the Journal, is Edouard Martel, only 15, but a full-fledged sergeant of engineers. Born at Malzeville, near Nancy, he joined a company of engineers who were passing through the village, became useful, and stayed with them. During the retreat from the Meuse to the Marne he fought in the ranks and shot two Germans. On the Marne he was gallantry in protecting by rifle fire the soldiers who were entrenching. He also, under heavy fire, took supplies to the advanced trenches. Capt. Bedos made him a sergeant, which was confirmed by Col. Duren, who embraced him before the retreat.

THE BATTLES IN THE EASTERN ARENA.

The Russians have been driving eastward in East Prussia and have captured Gumbinnen. The forces near Soldau are now north of Georgievich, as shown. The Germans are pressing hard on Lodz and Liech. Further south the Russians are holding their own near Gzenczow and have just captured Novo Sandec, forty miles south east of Cracow.

ENTRAPPED BY FLOODS.

Only 40 Survivors of 1,500 Germans—Saved by Swimming.

Paris, Nov. 24—Paul Chantard, La Liberté's special correspondent at the front, says that 1,500 Germans were encircled by floods on a hillside east of Dixmude on the night of Nov. 18th. For two days they remained under the allied fire, endeavoring to attract the attention of rescuers by night bonfires, which only enabled the allies to re-open their fusillade.

Finally, on the morning of the 21st those who were left surrendered but the water was so deep that the allies' efforts to reach them with pontoons were unavailing, and barely forty survivors were saved by swimming.

The same writer says that he is informed that another considerable force of Germans have been trapped north-east of Ferryze, on the right bank of the Yser. Until now they have refused to surrender, but their escape is impossible and their supplies are rapidly falling.

BLACK SEA WELL-MINED.

Russia Follows Britain's Example in North Sea.

Petrograd, Nov. 24, via London.—It was officially announced to-day that the Russian littoral of the Black Sea has been mined, in many places for a distance of sixty miles out from the coast. Ships are absolutely forbidden to sail at night in or out of the Russian ports on the Black Sea, through the mouths of the river Dnieper and Bug and in the Gulf of Kerch.
