BOARD OF WORKS HAS HAD BUSY YEAR.

It Had Its Reverses, But It Made Good Progress - Contractor Seeks His Tender Cheque.

The Board of Works will meet this afterneen and clean off its business slate for the year, which has been a very busy one for it. Its reports to the City Council may have been torn to shreds at times, but the board, under the direction of Ald. J. W. Litton, "got there just the same." The only thing it failed to get through was the proposition to rebuild the King street breakwater, but it would have succeeded if its report had been brought in earlier. Then Ald. Litton's body would have been prepared for the usual "reverse," but would have come back and driven a wedge through the council and also outfanked that civic organization so that nothing but surrender on the that nothing but surrender on the part of the city fathers would have

Covered Rink About To Open. If the weather keeps as cold 'as at present it is expected that on Thursday the citizens will have their first opportunity of skating on the covered rink. This was the bulletin this morning. Already there is about two inches of ice and more is being made. The ice is being made this year by William Sands instead of the well-known veteran, Michael Flansgan, who after twenty-four years of ice-making has resigned. His successor was assistant ice-manager last

There is also a change in curling rink. John Bibson, a wellknown curler, has taken the position of ice-manager, succeeding Joseph Dix. Mr. Gibson has been for over a month at work making parations for the season and the curlers will also be able to start at their game soon.
