BRITAIN IS BUILDING

SOME BATTLESHIPS OF A DIFFERENT TYPE.

More Powerful and Speedier Than Great Superdreadnoughts. — Will Be Ready in Spring.

London, Dec. 17.—Great Britain is about to amaze the world with several warships of a new type, a super-dreadnought, as much above the super-dreadnoughts as these are above the dreadnought and as the dreadnought was above the best warships of the Spanish-American war.

These new ships are the Queen Elizabeth class, not one of which is yet in commission. Details of them are carefully guarded and publication of facts concerning them in Great Britain would probably be followed by severe punishment. From a friend who recently visited the jealously guarded Davenport yard, however, the writer has obtained a layman's view of one of these giant craft. It was Warspite, which will be ready for action within six months.

The Warspite will carry ten 15.5-inch guns. What this means can be realized when it is remembered that the latest American battleships, which are the most formidable now afloat, carry only 14-inch guns.

Even more important is the wonderful turret arrangement. The turrets rise above each other like boxes in a grandstand, so that it is possible to fire all of her 15.5 guns over the bow. This is an achievement of which naval constructors would have despaired only yesterday.

More wonderful still, this monster floating fort is not, like the older battleships, a slow boat, unable to pursue swift cruisers. She makes twenty-six knots, a speed greater than the fastest trans-Atlantic liner. Her bow is narrow at the water line and widens in such a way as to offer the least possible resistance to the seas.

Another important feature is her armor. It is said she will be practically able to defy any ordinary torpedo or mine. This is accomplished by means of a triple coating of armor below the water line. An external explosion can damage her but not sink her.

Of course she is oil driven. Her cost will be about \$15,000,000. There are six such ships building which are expected to shake out their colors within six months. Construction is so perfectly organized that they can be built in eighteen months from the time they were started, it is estimated.

It is impossible to learn whether all or only one of the new battleships will be able to fire all ten of its large guns from the bow. The writer, it is informed, however that besides the six new battleships, the Davenport and Portsmouth navy yards alone are to produce eight battle cruisers by next spring or early summer.

At the Davenport station 5,000 men are employed, with about 5,000 soldiers and marines always on guard against hostile or friendly prowlers. You will remember that Winston Churchill, first lord of the admiralty, recently stated in the House of Commons that Great Britain could lose a super-dreadnought every month for twelve months without diminishing her relative superiority over the German navy, even though the Germans kept all their ships intact. From what is now known, this was no idle boast.

RED CROSS OVERBURDENED.

Germans Cannot Attend To All Their Wounded.

Rotterdam, Dec. 17.—The Hamburger Fremdenblatt, a paper which the German Red Cross system is overburdened by the wounded that it has been called upon to deal with during the past two months of the war. It issued an urgent appeal for funds for fitting up new hospitals in that town, and states that at the present moment, no fewer than seven thousand wounded are being treated in Hamburg, not including the large numbers that already have passed through the hospitals. The appeal continues that there are a great many more to be treated, and daily the numbers are growing. It is necessary at the present moment for the military authorities to keep many wounded in the hospital trains, as there is no reserve hospital. This is making the authorities short of trains at the front.

SEEKING CLOSER RELATIONS.

British Drummers Anxious to Be in Touch With Overseas.

London, Dec. 17.—A meeting of traders and manufacturers will be held next week to discuss steps towards getting removal of present taxes imposed by some dominions on British commercial travellers. The suggestion is made that the governments concerned should be approached on the subject in view of a general desire that on the termination of the war there should be closer trade relations with Britain and the dominions.

Another matter which will be considered is how to obtain standardization of company law throughout the dominions and colonies, a subject which has long been before commercial communities, but which seems difficult of satisfactory solution.

Deafness Cannot Be Cured.

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness caused by Catarrh that cannot be cured by Hall's Catarrh Cure, sent for circulars, free. J. C. HENNEY & CO., Toledo, O., 2331 - Broadway, N. Y. City.

"ENGLAND, THE ENEMY!"

Every German Heart Burns at Falkland Battle.

London, Dec. 17.—Count Reventlow, the well-known German writer on naval matters, discussing in the Deutsche Tages Zeitung the Falkland Islands battle, says: "The English force had everything at its disposal, and the Germans had nothing. Therefore, to draw from the result of this fight any inference with regard to the position in home waters would be a complete fallacy. The battle does not in any way prejudice the development on conditions in home waters. We lay special weight on this fact, because it is a truth which might not be recognized."

"On the other hand, we must see clearly that, in order to fight with success, we must fight ruthlessly—ruthlessly in the proper meaning of the word, that is to say, without any regard whatever for any things whatever which lie outside the line leading to our military goal."

MAN WHO STOLE HAM.

And Sentenced to Life Imprisonment Paroled.

Lansing, Mich., Dec. 17.—Governor Ferris has ordered the parole of Michigan's most widely known prisoner, Lewis Oliver, a "lifer" in Marquette, known as the man who was sentenced for life for stealing a ham.

Oliver was sent to Marquette by Judge Howard West, of the Ingham county circuit, under the habitual criminal act. It was Oliver's third conviction for burglary.

In 1891 Oliver was sent to Jackson for three years for burglary. In less than three years he was back. The second time the judge sentenced him to 10 years in Jackson and warned him that if he came back a third time he would get life. Under the law the second sentence began March 13rd, 1894, and on March 24, 1904, Oliver broke into a meat store and stole two hams and what cash was in the drawer, \$3.50. He wanted to plead guilty, but Judge West refused the plea. Oliver was convicted and sentenced to the sentence when it was delivered.

FUND GETS RICHER.

Pays Out Six Million Dollars and Gains Nearly Four.

New York, Dec. 17.—Even Rockefeller's fund is getting richer! And this in spite of war times.

The Rockefeller Foundation found itself with resources of \$100,000,000 and with resources of \$100,000,000 to "promote the well-being of mankind throughout the world," and whose more recent activities include the sending of \$1,000,000 worth of food stuffs to the Belgians and the expenditure of \$45,000 among the poor of New York, has now \$103,930,817 with which to pursue its aims. It was announced Monday.

This is despite the fact that appropriations of approximately \$6,500,000 have been made from the fund. Of the increase, \$319,738.77 is not profit on securities sold and redeemed, \$2,921,537.89 is unexpended income and \$689,545.53 is cash on hand December 1. The holdings of the foundation are divided into stocks and bonds of a book value of 271.66.

METALS IN GERMANY.

Even Lead Toys of Children Being Commandeered.

According to the Berliner Lokal Anzeiger, metals are running short in Germany—a fact which these letters were the first to disclose. The paper named states that silver is urgently needed, owing to the failure of the American supply, and even lead is at a premium. The public is urged to hand in plate, metals, silver ornaments, bottle stoppers, and even lead soldiers. An office has been established in Berlin for receiving such contributions. The metal thus received is sent to the state foundry of Freiberg, Saxony, where it is cast into ingot form. Appeals have been made to school children to sacrifice their lead toys for this purpose, a fact which clearly points to a serious dearth of lead in Germany.

TO HAVE WOMEN JURORS.

Assessor Will Certify List of Fifty Females.

Kansas City, Dec. 17.—"Ladies and gentlemen of the jury" will be heard in the three divisions of the Wyandotte county district court at the February term.

SHOULDER TO SHOULDER.

Veterans May Have Differences But Are United Body.

The secretary of the Veterans' Association informs the Whig that the "little differences aired at the meeting on Tuesday evening were not meant to be reported. If this is the case, the Whig regrets that its report told of 'family matters' of a private nature. The veterans may have their little differences, like many other well-ordered bodies, but they are a united body, and stand shoulder to shoulder.

Lyndhurst Locals.

Lyndhurst, Dec. 15.—The death occurred at Brookville of Joseph Galloway, a much respected resident of Lyndhurst, in the fifty-fourth year of his age. He leaves a widow and five children to mourn the loss of a loving husband and a kind father. The local pupils are practicing for the Christmas trees. Bryan Gamble and Benjamin Douglas held a successful dance in St. Luke's Hall on Friday night. G. S. Rooney has returned home from Winnipeg to visit with his family.

THE SPORT REVIEW

THE INTERCOLLEGIATE BASKET BALL UNION SERIES.

No Hockey Player Who Wishes To Remain Amateur Can "Try Out" With Professionals.

"Beulah" Davidson is coaching the Toronto Afonaut senior hockey squad.

"Silver" Quilly looks like one of the McGill defence players this season.

Hockey games in the Quebec Arena league will be played on Sunday afternoon in the Ancient City.

Pitre, who played at the coast last year, will again be with the Canadiens this season, and should strengthen the Frenchmen.

Percy Lesueur has consented to his transfer from Ottawa to the Toronto Ontarios, providing suitable terms can be reached. He has been in touch with Manager Livingstone.

The Chicago Americans should be serious contenders for the American baseball league pennant next year with Collins on second.

The Toronto News says: "The cream of the amateur hockey talent will be found with the Ontarios this season and Manager Livingstone's club should be great factors in the N. A. A. race."

A contingent of Canadian curlers will invade the United States early in February, and the Gordon International Medal at present held by a Montreal Caledonia rink.

With "Jerry" Ladamme captain of St. Michael's, it goes without saying that all the old guard, will respond to the call and get into the game again.

Every league in organized baseball is preparing to cut its salaries, reduce the number of players to be carried, eliminate or shorten training trips, cut down the length of the playing season, and to retrench in other ways, while the Federals are calling right into the trust and stealing away the star players.

Toronto Globe: Hockey players who desire to retain amateur standing are warned that they cannot do so and "try out" with professional teams. Practising with the pros, is prima facie evidence against them, and this business of running with the hax and hunting with the hounds is played out. It will be of no avail for those who failed to make good to come crying for reinstatement with the plea that "I didn't get any money."

At the annual meeting of the Canadian Intercollegiate Basketball union the following officers were elected for the coming year: Hon. president, Prof. J. Matheson, Queen's; president, A. G. Poirer, Varsity; vice-president, Mr. Hagey, Queen's; secretary, L. Smith, McGill. The schedule is: Jan. 22—McGill at Queen's; Jan. 29—Toronto at Queen's; Feb. 5—Toronto at McGill; Feb. 12—Queen's at McGill; Feb. 19—Toronto at McGill; Feb. 26—Queen's at Toronto.

JOSEPH LEITER WINS SUIT.

Need Not Pay \$380,933 For Note Given.

Chicago, Dec. 17.—Joseph Leiter need not pay and Moroni Elevator companies to pay for grain during Leiter's attempt to corner the wheat market in 1898, according to a verdict of the jury which heard the case. Leiter's sole defense was that the late future P. Postel, who was C. A. Pillsbury, both of Minneapolis representing the elevator companies had agreed with him to withhold their wheat from the market. Their failure to keep this alleged agreement prevented Leiter from effecting the corner and caused him a loss of about \$12,000,000, according to the testimony.

Federal Judge Humphrey, in instructing the jury, said: "If you find from the evidence that there was an illegal conspiracy to obtain control of the wheat market then the notes are void."

Leiter testified he had paid all other indebtedness following the wheat deal in 1898. His father, Levi Z. Leiter, sold Chicago real estate valued at \$10,000,000 to \$15,000,000 after the wheat failure in order to keep the son's record clear. He testified, Leiter said he had held the Minneapolis men responsible for his loss.

GERMANY'S AWFUL LOSSES.

Killed, Wounded and Missing Now Over 1,200,000.

Copenhagen, Dec. 17.—The hundredth casualty list, containing only 2,481 additions, brings the total Prussian killed, wounded and missing to 717,319. In addition there are 74 Saxon, 73 Wurtemberg and 108 Bavarian lists.

The total Prussian and Bavarian casualties hitherto published are about 1,000,000, Saxon and Wurtemberg lists give an additional 200,000.

Heavy losses of the Bavarians led some of the Germans to describe them as food for British cannon.

News From Lombardy.

Lombardy, Dec. 16.—R. Perry, Fredericton, N.B., made a short call on friends here during the week-end. Miss Louise Klyne is visiting friends in Smith's Falls. Mr. and Mrs. Nelson Covell are spending a few days with Mr. and Mrs. Herbert Covell, Mrs. J. Calladine, Smith's Falls, is visiting at J. R. Wood's. Miss Helen Bissonette, Smith's Falls, spent the week end here with friends. The annual meeting of the patrons of the Lombardy cheese factory will be held on Saturday evening. Issues for Johnston, Athens, visited the schools in this vicinity last week.

White Rose flour in 64, 12, 24, 49, 98 lb. packages; all grocers. Kodaks at Gibson's.

A WORD TO FARMERS

About Growing Mangels and Turnips For Seed.

C. Main, provincial agricultural representative at Sydenham, writes:

It is a well-known fact that quite a large number of farmers in Frontenac county depend upon mangels and turnips, to some extent, for feeding stock. On account of the conditions brought about by the present war, farmers will please take note of that fact that at least sixty per cent, or more of the seed of those roots has been grown in France and Germany for a number of years past. There will probably be enough to supply the trade for the crop of 1915; after that it is problematical. It is no experiment that both mangel and turnip seed may be successfully grown in Ontario, as a limited quantity is grown every year. If each farmer, who has roots would plant fifty well-selected ones, that have been kept well through the winter, he could not only grow what seed he wanted for himself, but would also have some for his neighbors. Let every farmer try to insure a supply of seed for the 1916 crop.

RESULT OF COMPETITION

Among School Classes in Physical Culture.

Two weeks ago a physical culture competition was held by the public schools in Macdonald School. This was known as the Strathcona Trust drill and was divided into three groups.

Group No. 1 consisted of the part second grades of Sydenham and Macdonald Schools and was won by Mrs. Maybe's class in Macdonald School.

Group No. 2 comprised the second grades of Ouse and Frontenac Schools, and the part of the Orphan's Home. This group was won by Miss E. Pound's class in Frontenac School.

Group No. 3 was comprised of the senior third grade of Frontenac School and the junior fourth grade of the Old Collegiate. This group was won by Miss N. Gallagher's class in Frontenac School.

At the time this competition was held, J. d'Estere was judge, but he left the matter in the hands of the inspector, J. Russell Stuart, to decide. The above is the way it resulted. The prizes have not yet been awarded.

KING ALBERT'S BOOK.

The Canadian Premier is a Contributor.

London, Dec. 17.—King Albert's book is issued. Already more than a quarter of a million copies are in the hands of the booksellers. Hall Caine is editor of the publication, which has contributions from well-known persons in many nations. The immediate purpose of the book is to raise funds for the Belgian refugees. There is a striking passage in Hon. Joseph Choate's contribution which says "those who were guilty of an awful breach of faith confessed their crime, while in the act of committing it, and plead necessity to absolve them from all law, a plea which the whole civilized world would not accept. As neutrals by international law and by our own law, our hands are tied, and will remain so, but our hearts go whither they list."

Ypres, The Harassed.

The Belgian town of Ypres (Flemish Yperen), around which the allies and Germans have fought so hotly, is in the province of West Flanders, of which it was formerly considered the capital. It has a population of more than 17,000. "It is situated," says the Encyclopedia Britannica, "thirty miles south of Ostend and twelve miles west of Courtrai, on the Yper Canal, a small river that empties into the sea. Ypres, both of which have been canalized. In the fourteenth century it ranked with Bruges and Ghent, and its population in its prime reached 200,000. It is remarkable chiefly for its fine half or cloth market, with a facade of over 150 yards in length. The main building was begun in 1301 and completed in 1304. The cathedral of St. Martin dates from the thirteenth century, with a tower of the fifteenth century. Jansen, Bishop of Ypres and the founder of the Jesuit School, is buried in the cathedral. The Butchers' Hall is also of interest and dates from the fifteenth century. Although Ypres is unlikely to regain the importance it possessed when its 'red-covered' contingent turned the day in the great battle of Courtrai (1302), it has an important linen and lace trade and a great butter market. The Belgian cavalry training school is established at Ypres."

Lyndhurst Man Dead.

On Saturday the death occurred at the St. Vincent de Paul hospital, at Brookville, of James Galloway, who succumbed to injuries received by being hurt by a wagon tongue. He was fifty-four years of age and leaves three sons and two daughters. Robert lives in Gapanoque and a daughter, Mrs. Tye, at Lyndhurst. The funeral took place on Wednesday from his late residence in Lyndhurst to the Olivet church. Rev. J. A. Waddell officiated at the funeral. Deceased was a Methodist and a conservative.

First Baptist Church.

Rev. T. T. Shields spoke with much power to a deeply interested audience last evening. He emphasized the necessity of the touch of God's power in the renewing of the sinner's soul. No external observance can effect the regeneration of the natural man. Upon the other hand no case, however wretched, is beyond the power of God to renew. The special services close this evening.

Few Immigrants Coming.

The only kind of immigrants that are arriving in the city at present from England are young girls, and very few of these are coming over. The men are not coming out, of course, and as a result the farmers in this district are continually asking for help.

Christmas Beef

IMPORTANT—It is important to all housekeepers that their joint of beef or mutton, lamb or pork for Christmas dinner is of the best quality in taste and cutting. Therefore, to obtain good quality, good value, good cutting and good attention, order your Christmas joint at

PARKER BROS.

Xmas Sweets. We have a large variety of fancy boxes. Price \$1.00 to \$10.00. MARBLE HALL, George Masoud, Prop.

How To Have a Fine Complexion in Winter. Any woman can have a soft, velvety, peach-like complexion in spite of exposure to the worst winter weather and at the same time get rid of wrinkles, chaps and blackheads by applying to the face with a soft cloth or sponge, just before going out, a lotion which can be prepared by any drug-gist by mixing 2 ounces of Rosewater with 2 ounces Flowers of Oxalic acid and 1-4 dram Tincture of Benzoin. Owing to its soothing and healing properties this lotion gives wonderful relief in cases of eczema, burns and skin irritation. When so used, apply liberally without rubbing, but use a compress or bandage. T. H. P.

New Grocery & Provision Store. Choice groceries, provisions, fruits and vegetables. Your patronage will be appreciated. Harry Thompson, Phone 387, 294 Princess St. WE CALL FOR ORDERS. Young Men Laid Off. Toledo, O., Dec. 17.—To give the older employees an opportunity to make a living during the winter months, several of the railroads entering Toledo have laid off a number of their younger men. Reduced traffic has caused the roads to reduce their train crews to the lowest possible number, and many employees are now on furlough.

Whistle Cords Sam Browne Belts Leggings Crawford & Walsh, Princess & Bagot St.
