The night Way To Strike a Match

Once in a while we have complaints about our matches breaking in two. This is no fault of the match, as EDDY'S MATCHES are made from specially selected straight-grained wood only. For the enefit of those who are still in ignorance of the proper way to hold a match (and there are many) we give the following rule-

Hundred Cars a Day.

The soldiers who are fighting in the many armies of Europe eat 11,250 tons of food each day. These figures are based on the allowances of his mouth three molars in side of his mouth three molars in recognition it received in its own made by each country for each man in war time and averaged by an authority on commissariat.

It is figured that the average for each man is 2 1-4 pounds of food a lowed, and bridges, but no entire day. It has been stated that there

A box car on a Canadian railroad will carry about twenty tons. This means that to transport the food of one day for 10,000,000 men 560 of these cars would be needed. If these 560 cars were divided into trains of forty cars each it would means fourteen trains drawn by the largest engines in the country.

Each nation has its own system of feeding its men, and now it is realized everywhere that to enable the men to fight at their best they must be fed properly. Great Britain sends food trains to follow each division, and these trains, equipped with the different foods, deal out to each the man to fight at their best they must be fed properly. Toronto dentists, if the Government and General Sam Hughes approve, are shortly to establish a dental clinic at the Exhibition Camp, in Toronto, which will make it theresafter impossible for a man to be rejected on the count of bad teeth. Many Torontonians have complained that they were not allowed to go and the count of bad teeth. that they were not allowed to go and the well-known English publisher

As their share of patriotic work a number of local dentists have volunteered their services to remedy the teeth of the rejected, and the officials of the Toronto Dental Society are now in consultation with Dr. Fotheringham, who represents the militia, regarding the establishment of a dental clinic. Here recruits who have been rejected solely on account of defective teeth will be made perfect.
