

FIERCE NIGHT ATTACK AND THE BRITISH WON

Germans Were Forced Back and Gave Ground.

REPEATEDLY STORMED

THE GERMANS GOT TO WITHIN THE WIRE ENTANGLEMENTS.

Then the British Leaped to the Attack and Repulsed the Desperate Attempts of the Germans—Captured Rows of Trenches For More Than Half a Mile.

London, Jan. 22.—Furious night attacks occurred in the region of Vimy, in which the Germans repeatedly stormed the British trenches but were finally beaten back and forced to give ground for 900 yards, as reported in the despatches from Amsterdam to-day.

Creeping out of their trenches the Germans advanced over the ground that had been ordered into a quagmire by rain and snow and succeeded in reaching the wire entanglements before the allied trenches. The British infantrymen leaped to the attack and repulsed three desperate attempts by the Germans. Then an advance was ordered and at daybreak the British by fighting their way through mud, and very frequently resorting to the bayonet, captured rows of German trenches for more than half a mile. The Germans lost 200 in killed and wounded and 117 were taken prisoners. The despatches stated. The British losses are reported to have been comparatively light.

The Pilots Killed.

Amsterdam, Jan. 22.—An Austrian aviator, bearing messages from the besieged fortress of Przemyśl, collided in mid-air with a Russian aviator trying to intercept him, according to despatches received here to-day. Both machines were hurled to the ground from a great height and their pilots killed.

WAR BULLETINS.

The Washington state department has been notified that the crew of the United States cotton steamer Greenbrier and Caroline were arrested at Bremen, and an explanation will be demanded.

The icebreaker Canada, sent from Canada to keep open navigation from the Russian port Archangel, has been disabled, and twenty big steamers have been frozen in the Arctic.

British artillery and infantry were in heavy fighting on the Yser River Thursday afternoon, and gained several trenches, with heavy loss.

An official statement issued Thursday night in London said: "The forces in France and Belgium are progressing slowly over territory presenting great difficulties."

Reports from Holland say British aviators have made a damaging raid on the Krupp Gun Works at Essen.

Germans have renewed fighting in North Flanders and Belgium and British are having fierce work.

London official statement reports hard fighting from the Swiss frontier to the sea.

British troops have met and defeated the famous Mad Mullah's troops, who were stirring up trouble in Somaliland.

The German cruiser *Marie*, which has appeared off San Juan, Porto Rico.

MONTREAL JAIL REPORT

Shows a Great Decrease in Drunk Charges.

Montreal, Jan. 22.—During 1914 there were in all 5,630 persons, men and women, incarcerated in the Montreal jail, of whom 7,975 were liberated in the course of the year, leaving a resident prison population on December 31st of 652 persons. That the government has solved the secret of how to put a kink in the high cost of living, even in war time, is shown by the fact that the daily upkeep of each prisoner cost exactly 13 23-100 of a cent, this being for such culinary requisites as figured in the jail menu, three times each twenty-four hours.

Through the number of incarcerations is high, it shows a diminution over the figures for 1913, when the total was 8,924. The predominant cause of imprisonment was, during both years, drunkenness, but during 1914 there was a marked improvement over 1913 in the latter year those incarcerated solely for drunkenness were 4,032, in 1914 it was 2,379. These figures, however, include only those who have been placed in detention solely on account of over-indulgence in the liquid that cheers; the prison records show, however, that in both years, as in all years, the abuse of liquor is the one great contributing cause of all the offences for which the involuntary guests of the government have been afforded quarters at the expense of the public.

SMALLPOX AMONG INDIANS.

Serious Conditions Found in Brant County Reserve.

Toronto, Jan. 22.—An outbreak of smallpox in the Six Nation Indian Reserve in the county of Brant, is causing considerable worry to both Dominion and provincial health authorities. The disease seems to have secured a grip in the townships of Tuscarora, Oneida and Onandaga and official reports show sixty cases within the last two months.

The Indian department at Ottawa appealed to the health department of Ontario for assistance, and Dr. R. W. Hall, inspector of health, went over the infected districts and has made a report to the Dominion authorities. It is understood that he recommends the elimination of scores of dogs, the cleaning up of the territory and wholesale vaccination. Already many of the schools have been closed and some of the school children vaccinated, but Dr. Hall believes that the disease has been lurking in the reserve for two or three years. There are about 47,000 people on the reserve.

STOP SALE OF LIQUORS

Not To Renew Licenses in New York and Philadelphia.

Philadelphia, Jan. 22.—The Pennsylvania railroad has decided not to seek the renewal of licenses for the sale of liquor now held in its Broad street station and in its New York city terminal. The report to this effect was confirmed by an official of the railroad.

With the non-renewal of the licenses the last vestige of connection between the Pennsylvania railroad and the liquor traffic will end.

The battle of the railroad with the liquor problem began years ago, with the order for employees to stay away from saloons. They were threatened with discharge if they drank while on duty.

FIRST JEWISH CHAPLAIN.

Proportion of Jews at Front Unusually High.

London, Jan. 22.—Great satisfaction is felt in Jewish circles over the coming departure for the front of Rabbi Michael Adler, senior Jewish chaplain to the British forces, the appointment being the first of its kind. The number of Jews in active service exceeds 10,000, a high figure on the basis of percentage of population.

PROBING FREIGHT RATES

British Government Acts Against Shipowners

London, Jan. 21.—The Daily Mail is officially informed that the government is making a special inquiry into the accusations now being made against shipowners. The object is to ascertain whether or not any steps should be taken by the government to regulate freight rates.

The Daily Chronicle says a meeting of the cabinet committee on food supplies was held yesterday in connection with this matter.

Milling, the leading organ of the British millers, in an editorial article says:

"If it be right for the government to issue maximum prices for groceries, it obviously must be equally right for them to fix maximum prices for freights, if that step will produce the result aimed at, they may take over the whole of the mercantile marine until the end of the war, as they contemplated taking over the mills, if necessity arose."

Milling adds that it cannot see that bodies of traders can be allowed exorbitantly to enrich themselves because the supremacy of our navy has given them a virtual monopoly.

Meetings of grocers' associations in various parts of the country have called on the government to fix freight rates. After many weeks of rising prices, wheat fell eighteen cents yesterday on the London exchange.

FOOLS HIS HENS

By Installing Electric Light in The Poultry Yard.

Chicago, Jan. 22.—Fooling his hens into believing the short winter days last as long as the summer days, by using an artificial lighting system, George C. Nowell, an auditor, is increasing the egg production of his poultry yards to a daily average of twenty-six eggs to a daily average of eighty-three eggs. Observing his chickens going to roost as soon as dusk began to fall in winter time, Nowell installed electric lights by which he led his hens up to 8 p.m.

"Food and exercise are essential to egg production," he says. "Shortly before 8 p.m. I gradually reduce the light power to give the appearance of dusk. I light the henry at 5 a.m. Nowell has 150 'egg machines' as he calls his hens. They laid 18,000 eggs last year.

BISHOP THORNELOE STAYS IN ALGOMA

Ontario House of Bishops Refused to Accept His Resignation.

The House of Bishops of the Province of Ontario, in session assembled at Kingston, on January 21st, after full and careful consideration of the whole question, declined to accept the resignation of Bishop Thorneloe of the see of Algoma.

The diocese of Ottawa will, therefore, have to proceed to elect another bishop.

END INDIGESTION OR STOMACH PAIN IN FIVE MINUTES

"Pape's Diapepsin" makes sick, sour, gassy stomachs feel fine.

Time! In five minutes all stomach distress will go. No indigestion, heartburn, sourness or belching of gas, acid, or eruptions of undigested food, no dizziness, bloating, foul breath or headache.

Pape's Diapepsin is noted for its speed in regulating upset stomachs. It is the strongest, quickest and most certain indigestion remedy in the whole world, and besides it is harmless.

Millions of men and women now eat their favorite foods without fear—they know Pape's Diapepsin will save them from any stomach misery.

Please, for your sake, get a large fifty-cent case of Pape's Diapepsin from any drug store and put your stomach right. Don't keep on being miserable—life is too short—you are not here long, so make your stay agreeable. Eat what you like and digest it; enjoy it, without dread of rebellion in the stomach.

HINDENBERG IS FORCED

BY THE RUSSIANS TO MAKE NEW PLANS.

As the Advance of the Czar's Armies Left the Main German Position Exposed To Danger.

London, Jan. 22.—Frederick Bennett, Daily News correspondent at Petrograd, telegraphs:

"With the spread of the Russian advance through North Poland stretching across a line from Miawa to Sarpetz and Dovyjil, General von Hindenberg has had to interrupt and alter his new dispositions for the remainder of the winter campaign. The main purpose of the recent invasion was to reach the middle Vistula and establish the principal German army there for the winter.

"This failed entirely, and the foremost German position, on the Bura and west of the Vistula, is now composed of compact masses of the enemy's best troops, with a wide space to the right and left of them. This exposed position is becoming increasingly dangerous. With the forced abandonment of the project for bringing all the German armies in Poland forward to the Vistula, General von Hindenberg decided on a radical redistribution of his forces. This began last week, concurrently with a series of sharp attacks, mostly by night, on the Russian lines along the banks of the Rawka.

"The most evident of the new dispositions is that around Piotrkow, where the Germans have been assembling a very large army on a strong prepared position, resting on the middle curve of the Pilka River.

"Straggling remnants of Austrian detachments in the Carpathians are constantly being captured and brought into the Russian lines. Many frozen bodies are found.

"The victorious operations around Kars, Urgan are now nearly completed. The Russians have cleared Turkish raiding expeditions from the territory near the Black Sea."

BRITISH SHIP SUNK

London, Jan. 22.—The British steamer *Durward*, built to Rotterdam, was torpedoed and sunk by a German submarine yesterday, off Holland, near the mouth of the Maas River, it was officially announced to-day. The crew was rescued by a Dutch pilot boat.

Some time ago the German minister marine, Von Tirpitz, said that Germany would lose late Britain by destroying her merchant marine by submarines. This may be the first effect of that threat.

HOW TO TELL WHEN A MAN IS SMOKING TOO MUCH

In the February Woman's Home Companion, Rolla Lynde Hart writes an article entitled "Swearing Off," which is the confession of an ex-smoker. He says that there are some clear cases of men who are smoking too much, and then he goes on in part as follows:

"What constitutes a clear case? Authorities differ. So do individuals. What is one smoker's death warrant may be another smoker's guide to a miserable longevity. For my own part, I am reluctant to lay down any hard and fast rule for the detection and conviction of a clear case, and yet those I chiefly suspect are these:

"The man who smokes at his work as well as at home.

"The man who wants a pipe before breakfast.

"The man who must light cigarettes between the courses of a restaurant dinner.

"The man who looks as if he had lost his last friend whenever he is deprived of smoke for two or three hours.

"The man whose hand trembles, who has 'off' days, and who thinks he must smoke in order to work.

"Now when a woman observes that her husband, father, brother, or son has qualified as a clear case according to one or more of the above specifications, it is time she opened up on him with a good conscience. She will not be asking him to exhibit phenomenal will-power in his rebellion against smoke; what he calls his slavery rests far more lightly upon him than he realizes. After his first tussle, he will be able to carry cigars and pipes in his pockets or keep them in his house for his friends, as I do, and not feel the faintest craving for a smoke—absolutely not the faintest!"

Don'ts For Mothers.

Don't forget that children, like plants, suffer seriously from want of sunlight.

Don't forget that children are more seriously affected by impure air than grown people.

Don't forget that little children are easily depressed by gloomy surroundings and this lowers their vitality.

Don't let the nursery be used as a laundry nor a larder. Food should never be kept in it.

Don't forget that lowered vitality makes children more liable to catch any infectious disease.

Don't think that any room in the house will do for the nursery, as "its only for the children." The sunniest, most airy and most cheerful room in the house should be given to the children if you want them to be healthy.

Don't think that money is wasted in buying pretty paper and brightly-colored paint for the decorations of the nursery. Money spent on brightening life at its opening will bear good interest in health and happiness.

PROBS.—Fine and very cold. Saturday, easterly winds, with snow.

Special Announcement!

ONE OF THE MOST IMPORTANT FOR 1915.

Steacy's Sale of White

Which includes Swiss embroideries, under-muslins, underwear cotton, fine linens, nainsooks, organdies, aprons and underwear, etc.

Starts Monday, January 25th

See Papers To-morrow for Details!!

Best's Saturday Special

And in Packages

With each purchase of 25c or over we will give, absolutely free, a package that we think will be most acceptable to every household. As the demand for these packages is very great, we will not be able to guarantee any after six o'clock Saturday evening.

Shop early at Best's Saturday and all times.

At Best's

THE POPULAR DRUG STORE
Open Sunday.

DARKEN GRAY HAIR, LOOK YOUNG, PRETTY

Sage Tea and Sulphur Darkens So Naturally That Nobody Can Tell.

Almost everyone knows that Sage Tea and Sulphur, properly compounded, brings back the natural color and lustre to the hair when faded, streaked or gray; also cures Dandruff, itching scalp and stops falling hair. Years ago the only way to get this mixture was to make it at home, which is messy and troublesome. Nowadays, by asking at any drug store for "Weyth's Sage and Sulphur Compound," you will get a large bottle of this famous old recipe for about 50 cents.

Don't stay gray! Try it! No one can possibly tell that you darkened your hair, as it does it so naturally and evenly. You dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time; by morning the gray hair disappears, and after another application or two, your hair becomes beautifully dark, thick and glossy.

Agent, Geo. W. Mahood.

Do Horses Like War?

A cavalry horse, in most cases, enjoys a battle quite as much as its master does, and while waiting for the order to be given to charge it will stamp and chafe impatiently.

When released, it dashes forward madly, and on coming into contact with the enemy, rears and plunges, striking and biting the opposing horse savagely. Often, after its owner has fallen, a horse will continue the charge riderless.
