Acknowledging the receipt of some flannel shirts for the R.C.H.A., the wife of an officer writes: "The men are now in billets, and are quite comfortable and happy. The Princess Patricia took with them seventeen handmen.

A. S. Palmer, of Ottawa, who is one of the buyers appointed by Sir Adam Beck to purchase horses for military purposes, is expected in the city on Wednesday to purchase horses in this district. The question is often asked what the initials M. P. and G. M. P. stand for when worn by soldiers, or their arms. The former stands for military policeman and the latter garrison military policeman. And Were Afterwards Arrested On Charge Of Drunkenness.

On Sunday night five men were given protection at the police station, as they stated that they were without money and in hard luck. Before noon on Monday two of the number were locked up in the cells on a charge of being drunk. The men did not get any work, and it is likely that they received the money for their drinks, by begging. They will be asked to explain in the police court Tuesday.

It is published in book form and orders left at the box office will be filled at 25c. It is cloth bound and fit for any library. This is the subject we have had so many inquiries about, and in which Lettie Briscoe and Arthur Johnston take the leading roles.

The Newspaper's Gigantic Work.

A newspaper of average circulation visits more people on one day than a single canvasser could in five years. Or again, suppose you had to send letters to the same number of people you reach by one newspaper advertisement, think what it would cost. Newspaper advertising is the least expensive and most productive of all forms of advertising.
