A GOOD RECORD

The year 1914 has been a banner year for the Mutual Life of Canada, having written the largest business in its history. This success is due very largely to the excellent settlements to policyholders in the way of profits and the fact that it is a purely mutual company, being relieved of paying any of its earnings to stockholders.

Toronto Saturday Night, in its financial review, says the Mutual Life is probably the best life insurance company in Canada today. The fact that this year's business secured under conditions of such financial depression speaks volumes for the merits of the company.

Those contemplating insurance will save money by placing their application with this excellent company.
