

AN ABSOLUTELY TRUE STORY

Of How E. L. Marshall of Shreveport, La., Was Cured of a Stomach Trouble That Kept Him Out of Work for Months.

Shreveport, La.—"I had a bad stomach trouble for years and became so weak I could hardly walk or do any work. My appetite was very poor, then my food would not digest, I bloated and was very weak and nervous, and it seemed impossible to get any relief. I was so bad I could not work for months at a time. I tried to get many remedies to name, but without help. I saw Vinol advertised and tried it, and soon noticed an improvement. I continued its use and now my stomach troubles are completely cured. I am a well man enjoying perfect health and have gained in weight."—E. L. MARSHALL, Shreveport, La.

The recovery of Mr. Marshall was due to the combined action of the medicinal tissue building elements of the extract of cod's livers, aided by the blood making and strength creating properties of tonic iron, contained in Vinol, which seldom fails to strengthen and tone up the tired, over-taxed and weakened nerves of the stomach and remove the trouble.

The Objects Sought—Needs And Possibilities of Position To Be Brought Home To Farmers. Toronto, Feb. 3.—The following official announcement has been issued: The great need of increased agricultural production this year, and methods of meeting that need, will be presented to the farmers of Canada in a series of display advertisements in newspapers circulating among farmers. This educational advertising campaign will be conducted by the Dominion department of agriculture, under the direction of the Hon. Martin Burrell, as a complement of the "Patriotism and production" conferences of farmers that are being held throughout Canada under the auspices of the department.

Upwards of 300 newspapers throughout Canada will be used in the advertising campaign, which will commence next week. In the advertisements in newspapers which have a provincial or national circulation, emphasis will be upon the great need of increased production, while the advertisements in the newspapers with a local circulation will in addition direct attention to the local opportunities for increased agricultural production.

The directing of attention through the educational advertisements to the great need of increased agricultural production will be stimulated at the "Patriotism and Production" conferences. The advertisements appearing after the conferences will stimulate the farmers and townspeople to put into practical operation the instructions given at the conferences.

The educational advertising campaign will be extremely valuable, as a means of giving the message the need of increased agricultural production to the many farmers who for various reasons will not attend any of the conferences.

The question of stimulating agricultural production through educational advertising in newspapers reaching farmers has been under the consideration of the department of agriculture for some time. Recently, in view of the pressing need of increased agricultural production on account of the war, there have been several conferences on the subject between the Hon. Martin Burrell, minister of agriculture, the agricultural commissioner, and the manager of the Canadian Press Association. After careful consideration, the minister of agriculture has decided to conduct the special educational advertising campaign outlined above, with particular relation to the conditions created by the war. The work of handling the campaign, selecting mediums etc., has been entrusted to the advertising agency of McConnell and Ferguson. The copy is now in course of preparation under the direction of the agricultural commissioner.

GERMANY ABANDONS HOPE. Of Keeping Roumania and Italy Out of War. New York, Feb. 3.—A special despatch to the World from Berlin, dated January 30th, by courier to London, says: "Although her diplomatic agents are still working day and night to preserve Italian and Roumanian neutrality, the German government has abandoned all hope of keeping those two countries out of the war. Information just received by the World correspondent from a most trustworthy diplomatic source reveals the fact that Germany and Austria-Hungary, by a secret agreement, recently began to prohibit export to Italy of certain classes of oils and other commodities not hitherto barred and of which Italians stand in need. There has been no public announcement of this move, but the Roumanian cabinet is believed to have got wind of it for it has held all up shipments of petroleum to Germany and her ally. "Such action is regarded as another proof of the strong bond between the authorities at Bucharest and Rome, and further confirmation of the story published in the World on January 13th that Roumania and Italy will intervene against the Kaiser before the end of February."

WAR BULLETINS. All Italian reserves enlisted in London have been notified to hold themselves ready to rejoin the colors on call. Paris papers carry long stories of courageous fighting by the Canadians at Labasse. Petrograd official despatches declare: "The Russians are progressing at all points."

It is stated in Rome that the Turk's invasion of Egypt is to be abandoned. One thousand Bavarian soldiers were taken prisoners by the British near Labasse. Petrograd despatches indicate that the German armies are again ferociously assaulting Warsaw defences. A German gunboat was sunk by a Russian submarine near Danzig on Tuesday. Germany has already seized three million tons of grain.

STATMENTS OF WAR WORK. Will Be Placed Before Parliament Early in Session. Ottawa, Feb. 3.—A statement of the work done by the various departments of the government in connection with the war will be placed before parliament early in the approaching session. A return will be brought down dealing with the purchase of saddles, boots and shoes, alights, ammunition, flour and grain, etc.

Medal For Queen's Courage. Havre, via Paris, Feb. 3.—The military medal has been conferred on the Queen of the Belgians by Emperor Nicholas of Russia in recognition of the queen's heroic courage in ministering to wounded soldiers at the risk of her own life. The medal was presented to the queen at the Belgian army headquarters by Major General Prince Felix Youssoupeff, of Emperor Nicholas' staff.
