# WHAT WILL UNITED STATES SAY ABOUT WARNING?

### Britain to Answer the German Challenge--All Eyes Are Turned to the United States For Its View of the German Warning.

London, Feb. 5.—Britain has accepted Germany's challenge to-day. The admiralty defied the kaiser and dared the German sea lords to put to the test their latest threat to starve out England by sinking all the merchantmen of belligerent nations that approach the British ports after February 18th.

The admiralty officials went into conference early yesterday. What they discussed was closely a guarded secret. But it was reported, on good authority, that orders for a part of the British flotilla of destroyers to detach itself from the North Sea fleet and report for duty in waters nearer home will be issued before nightfall.

Part of this destroyer fleet, it is expected, will be assigned to the task of sweeping the seas free of German submarines. Others will be detailed to convoy merchantmen, after February 18th, when the German admiralty decree becomes effective, until such time as the admiralty is positive that the German under-sea terrors no longer menace shipping.

It is possible that a few British cruisers of royal type will be assigned to the convoy duty to allay the fears of timid ship owners.

The British nation turned its eyes toward America to-day. What the United States will say to the German admiralty's announcement, that neutral ships may be endangered by German submarines, was considered only of secondary importance to the German proclamation itself.

"Any attempt by the Germans to ignore the American flag on the strength of a paper blockade," said the naval writer of the Daily Chronicle, "would be a hostile act toward the United States. To torpedo an American liner, with her passengers and crew, would be an atrocity that would almost inevitably mean war."

That the United States will make a formal protest against the German decree, upon its receipt at Washington, is deemed certain here. In some quarters it was suggested that the United States might join with other neutral powers in a formal protest to Germany.

## THE SPORT REVIEW

### FRONTENAC - RIVERSIDE GAME ON SMALL RINK

Masks Suggested For N. H. A. Umpires — Pringle, of Ottawa, Has Joined Third Overseas Contingent.

When the N. H. A. holds its meeting to consider the Shamrocks appeal, Mr. Livingstone is also to bring up the matter of throwing sticks on the ice. It is known that the Shamrocks lost both their games to Toronto by this work, while they also claim that this was the cause of their defeat by Canadians last Saturday.

Hamilton papers claim that Wallace, of Woodstock College, and Summerhayes, of Brantford, are both over the Junior O. H. A. age limit, and if so, it would not be surprising if Hamilton Rowing club entered a protest against both of these places.

President Lichtenheln, of the Wanderers has entered a claim against Shamrocks for \$200, which is, according to the rules of the N. H. A., in case of a default.

Montreal Herald: Why didn't we become an undertaker with a business in Quebec during the hockey season?

Gunboat Smith and Carl Morris will meet in Joplin, Mo., which simply goes to prove that New York doesn't get all high-class comedies.

The question of providing masks for hockey umpires, which has been mooted before, will come up at the next meeting of the National Hockey Association, as particularly in Montreal, umpires have had some narrow escapes of late from the terrific shots of such men as Pitre, Ronan and others.

Decision in the Federal league's suit against organized baseball which, it was alleged, operates in violation of the Sherman anti-trust law, will be handed down not later than next Saturday. United States District Judge Landis, before whom the case was heard, made this announcement yesterday.

The trustees of the Graham Browns Two Hundred Mile Canoe race trophy have decided to hold another race this year. It will probably finish at Ottawa because this cup is held there at present.

Harry T. Smith, manager of the Newark club in the International league, was unconditionally released yesterday. Eddie Zimmerman, third baseman, is expected to succeed him.

"Hobbie" Pringle, the great ice-crosse player who held down one of the defence positions for Capital for a number of years, is training with the army service corps and goes to the front with the third contingent.

## WAR BULLETINS.

The government told the Canadian parliament that a vote of another hundred millions is required for war purposes.

Japanese cruiser Asama is ashore three hundred miles from San Diego, Cal., and may be a total loss. United States ships went to her assistance.

French colonial troops have practically entirely occupied the German Kamerous with considerable loss.

Lieut. William Sharp, Ottawa, commander of the Canadian flying corps with the contingent, was killed, in an accident, at Shoreham, Eng.

The allies will unite all their resources to bring the war to an early conclusion.

Berlin, Ont., Board of Trade demands that a check be placed on the export of nickel to Germany.

One hundred thousand Germans are being hurled against the earthworks of Warsaw.

The British admiralty officials held a conference to decide action on Germany's threat to starve England by slaughtering neutral merchantmen.

## THE NURSES CHAPTER

ADDRESSED, THURSDAY AFTERNOON, BY DEAN STARR.

Who Spoke on His War Experiences — Afterwards a Tea Was Given in the Nurses' Residence.

An interesting session of Kingston Chapter of the Graduate Nurses' Association of Ontario was held in the afternoon of the Empire wing, Kingston General Hospital, on Thursday afternoon. It was the regular monthly meeting, and Dean Starr was invited to be the guest of the afternoon, which invitation he graciously accepted. Besides the dean, Dr. E. MacCallum and Dr. R. J. Gardiner, as well as twenty-six nurses, were present, and enjoyed a humorous and instructive address from the distinguished visitor.

Miss C. Milton, president of the association, presided, and gave a short paper dealing with the embodiment of the chapter and those similar ones throughout the dominion. All graduates of hospitals of not less than twenty beds are eligible for membership. The branches of the association in cities and towns throughout the provinces are known as chapters, and these form the principal association. The provincial associations are associated with the Dominion or National association, which, in turn, is affiliated with the International that unites the nursing profession of the world. The chapter meetings are for the purpose of creating sociability and instruction.

Dean Starr's address followed and dealt with his experiences in France. A review of the causes of the war, and Britain's participation, embodied the main features of his address. The gathering later adjourned and went to the Nurses' Home, where Mrs. George Nicol and Mrs. S. Caronwell served tea. The table was decorated with the hospital colors, red and white. The following graduate nurses helped to serve: Mrs. George Williamson, Mrs. F. Marshall, Misses A. Bailey, S. Hancock and M. Black.

## RECEIVES A PROMOTION

American Consul Johnson Advanced To Fourth Grade.

By a recent act of congress of the United States a week ago, which gave the president power to either raise or lower the ranks of government officials, Felix S. S. Johnson, the American consul at Kingston, has been one of the first to receive consideration. Mr. Johnson received a telegram early on Friday morning stating that he had been raised from the rank of eighth to that of the fourth grade. In the American code there are nine grades and by this promotion Mr. Johnson now stands in a position almost equal to the highest of foreign consulates.

Mr. Johnson has always been a conscientious worker. Great improvements were made by him in the workings of the local consulate. Mr. Johnson is one of the best versed American consuls in the service.

## Shareholders Meet.

The annual meeting of the shareholders of the Rockport Navigation Co., Limited, was held at Poole's Resort, on January 26th. The manager's report was satisfactory. He gave an account of the season's work and the work that is now being done on the steamer Misamis at Kingston, and the probable outlook for the coming season.

The secretary-treasurer's report dealt with the financial part of the work. A sum of \$100 was paid to the shareholders, considered satisfactory when it is taken into consideration the poor year for boats on the St. Lawrence.

The following are officers for coming year: Directors, A. McL. Tennant, A. W. Mallory, E. I. Mallory, C. W. McCullough, Capt. J. A. Carnegie, manager; Robert Carragee, secretary-treasurer, Robert Poole.

Use Your Minutes.

We all have the same sixty minutes, the same twenty-four hours to work with, and the man who achieves the greatest success is the man who knows how to work with this period, and get the most out of it. Time is more important than money, and time is the price of every earthly accomplishment and reward.

To the scientist, time is literally his measure of achievement. His treasury of years has a limit; his work, unfinished, will pass on to another, who will receive the reward. To the business man, time is capital. He cannot borrow, beg, steal or create a minute. Money, art, comfort, invention that save hours for thousands, discoveries that lengthen lives by decades—all depend upon time. Use the minutes.—System.
