## IN STRENGTH as well as size

It is a characteristic of the CANADA LIFE ASSURANCE COMPANY that while its growth in size has been continuous and satisfactory, its increase in strength and earning power has been even more marked. This indicates that the welfare of the permanent policyholder is a primary consideration with the management.

	1910	1912	1914	increase since 1910
Business in force	\$128,274,973.	\$144,877,970.	\$157,407,171.	22.7%
Assets	40,820,857.	48,301,523.	56,103,842.	37.4%
Income	6,945,534.	7,392,280.	8,438,071.	21.5%

While there has been a marked growth in business in force and income, the assets have relatively grown nearly twice as fast.

The earning power of these great assets has enabled the Company to increase the dividend scale materially at each distribution since 1900.

The Canada Life is this year distributing to policyholders—

### Dividends of over \$2,800,000.

HERBERT C. COX,  
President and General Manager.

The full detailed report will shortly be published and will gladly be sent to those desiring it.

**J. O. Hutton, General Agent, Kingston**

### A GOOD RECORD

The year 1914 has been a bumper year for the Mutual Life of Canada, having written the largest business in its history. This success is due very largely to the excellent settlements to Policyholders in the way of profits and the fact that it is a purely mutual company, being relieved of paying any of its earnings to stock holders.

Toronto Saturday Night, in its financial review, says the Mutual Life is probably the best Life Insurance Company in Canada to-day. The fact that this year's business secured under conditions of such financial depression speaks volumes for the merits of the company.

Those contemplating insurance will save money by placing their selection with this excellent company.
