

Peggy Gilroy

As sung by FISKE O'HARA

Words by FISKE O'HARA. In His New Play "IN OLD DUBLIN." Music by DAN J. SULLIVAN.

No too fast.

There's a say-ing as old as the Hills of old Ire-land, 'Twas me fa-ther be-fore me who
T'wont be long, lit-tle girl, till you know the real mean-ing Of the love for a Gos-sonnyall

told it to me, And the div-il a bit of a lie in the say-ing, There's jus-tas good fish to be
meet bye and bye, Oh! 'tis they you'll stop teas-ing and set your cap for him With man-y's the heart-ache and

one who's so young. Sure, I pit-y the boy, Pret-ty Peg-gy Gil-roy, Who for love of you

pleads on his knees. With your sly rough-fish art you'll be break-ing his heart, Truth in

tell-ing you, Peg-gy, you sweet lit-tle Peg-gy, you cute lit-tle Peg-gy Gil-roy.

wear-ing to land him, With the look that is now steal-ing out of your eyes,
try-ing to please him, And you'll not be all the time just pok-ing fun.

CHORUS. Tempo di Valse.

Oh! then, Peg-gy, you tease, let me be, if you please, The blar-ney just

rolls off your tongue. By the same tok-en, miss, the brand of your Kiss is old fash-ioned for

one who's so young. Sure, I pit-y the boy, Pret-ty Peg-gy Gil-roy, Who for love of you

pleads on his knees. With your sly rough-fish art you'll be break-ing his heart, Truth in

tell-ing you, Peg-gy, you sweet lit-tle Peg-gy, you cute lit-tle Peg-gy Gil-roy.

Ministers Recommend

Rev. John Davidson, of Thurso, Que., writes: "I have had considerable trouble with my throat, caused by public speaking in heated buildings and exposure to damp and chilly atmosphere. I find PEPs very effective in soothing the throat."

Rev. Edward G. Heaven, Marksville, Ont., writes: "I have used PEPs and find they give considerable relief to the throat. I have also found them very beneficial for colds."

PEPs is the direct treatment for Coughs, Colds, Bronchitis, Asthma, Hoarseness, Laryngitis, and other ailments of the throat, chest, and lungs. As PEPs dissolve on the tongue, healing vapors are liberated which are breathed down direct to the sore places. Liquid cough mixtures, etc., cannot be inhaled, they go to the stomach not the lungs. PEPs get to the seat of the trouble direct.

PEPs are sold only in tin boxes. All druggists and stores 50c. box, 3 boxes \$1.25.

CAN'T FIND WEAK LINK

WHILE GERMANS SHOW SIGNS OF DETERIORATION.

Believed That Main Battle is Preparing in Carpathians — Inventiveness of the Russians.

Petrograd, Feb. 9.—The Russians are now fighting along all their battle fronts, extending 700 miles. The Germans, taking full advantage of their innumerable strategic railways, rapidly move large bodies of troops from place to place. The Russians, unprovided with such rapid means of communication, must be ready at all points, for the Germans are hammering at every link of the line along this 700 miles.

It is believed here that the main battle is preparing in the Carpathians and that the fighting elsewhere is on the part of the Germans, rather in the nature of a demonstration than in a real attack. The weak link in the Russian defence has still to be found. Over the great part of the front the Russians continue to expect these attacks with equanimity, devoting themselves to the task of killing as large a number of the enemy as possible, this being a necessary condition of successful future operations against an enemy so perfectly prepared for war as are the Germans.

Already the Germans are proving less formidable than hitherto. Their artillery is showing signs of overuse. Their heaviest shells in particular very often fail to explode. The best

Household Economy

How to Have the Best Cough Remedy and Save 50 by Making It at Home

Cough medicines, as a rule, contain a large quantity of plain syrup. Two cups of granulated sugar with one cup of warm water, stirred for 2 minutes gives you as good syrup as money can buy.

Then add from your drugist 2 1/2 ounces Pinex (50 cents worth) pour into a 16-ounce bottle and fill the bottle with sugar syrup. This gives you, at a cost of only 54 cents, 16 ounces worth of cough syrup that you could buy ready made for \$2.50—a clear saving of nearly 80%. Full directions with Pinex. It keeps perfectly and tastes good.

It takes hold of the usual cough or chest cold at once and conquers it in 24 hours. Splendid for whooping cough, bronchitis and winter coughs.

It's truly astonishing how quickly it loosens the dry, hoarse or tight cough and heals and soothes the inflamed membranes in the case of a painful cough. It also stops the formation of phlegm in the throat and bronchial tubes, thus ending the persistent low cough.

Pinex is a highly concentrated compound of genuine Norway pine extract, combined with glycerol, and has been used for generations to heal inflamed membranes of the throat and chest.

To avoid disappointment, ask your druggist for "24 ounces of Pinex," and don't accept anything else. A guarantee of absolute satisfaction or money promptly refunded, goes with this preparation. The Pinex Co., Toronto, Ont.

HAS DISAGREEABLE TASTE.

Daily Express Regrets Resort to Subterfuge.

London, Feb. 9.—Commenting editorially on the use of a neutral flag by British merchantmen, the Daily Express says that while such action may be legally consistent it nevertheless will disturb British public opinion.

"In our case, above all others," says the Daily Express, "such tactics will seem inexpedient and even humiliating to the British mind. Since when has the Union Jack become a color to be hauled down timidly or an inadequate protection on all the seas? The whole affair leaves a very disagreeable taste in the mouth of England."

"We do not presume to question or criticize the admiralty, but our confidence in the admiralty and the navy is such that we are bound to regret profoundly a resort to a subterfuge which, while it in no way excuses German piracy, may give the enemy and neutral nations an opportunity for the sneer which we are least inclined to tolerate."

NORWAY NOT FUNKING.

Christiania, Feb. 9.—The official war insurance committee and the heads of companies for the insurance of cargoes have conferred on the situation resulting from the German declaration of a "war zone."

The companies have resolved not to raise the war premium nor give any new instructions concerning routes.

The prevalent opinion among Norwegian shippers seems to be that the situation is practically unchanged. Existing lines will continue their sailings as before.

THE LICENSING PROBLEM.

Divergence of Opinion in England on Sale of Liqueur.

London, Feb. 9.—Reports from the north of England on drinking habits since the outbreak of war are on the whole favorable, as few cases of increased drinking have been evident, but rather of decreased drinking. Barrow-in-Furness shows a forty per cent. increase of convictions for drunkenness.

Great diversity of opinion among social and licensing authorities is expressed as regards necessity for special licensing restrictions. Full allowance of the sale of liquor to the military for two hours in the evening, but Glasgow, Edinburgh and Warrington do not differentiate between soldiers and civilians.

In Java, when a man marries, he goes to his wife's house, where the women sit in council upon all matters of importance and delegate the affairs of the home.

WHO GOT WHEAT PROFITS?

Spectators Say the Farmers Did, but the Farmers Deny It.

Chicago, Feb. 9.—Considerable speculation is indulged in here as to who has made the big profits on the 800,000,000 bushels of wheat in the United States after the last harvest. Prices have doubled in six months. Board of Trade men say the farmer has reaped the greatest profits, but the farmers insist that the speculators are the real winners. Both agree that several Wall Street men and foreign agents who got in heavily when the going was good have taken the cream of the business.

Many of the big trades here were scared out of the market before wheat reached \$1.50. James A. Patton says he has had no wheat since the price left \$1.45, but he had a great quantity of it before and his profits are estimated between \$250,000 and \$1,000,000. J. Ogden Armour has been a bull on wheat since the war began, and his deals are on an enormous scale. C. W. Partridge is said to have cleared \$250,000 before wheat reached \$1.50. On the Board of Trade are many men who have cleared from \$50,000 to \$250,000.

The Wall Street men got into the market early and on a large scale. They had the advantage of being closer to the export buyers, but private deals have been handled over their wires and no estimate of their profits can be made.

GARIBALDI IN PARIS

Son Of Italian Patriot Recipient Of Great Ovation.

Paris, Feb. 9.—General Ricciotti Garibaldi, son of the Italian patriot, arrived in Paris yesterday, accompanied by his wife. They were greeted at the station by their four sons, and also by General Gough, the commandant of the military division of Paris and other officials.

General Garibaldi, who walked with crutches, was deeply touched by the large crowd that gathered. He thanked them for their sympathy and later went to Elysee Palace to confer with President Poincare.

DROP IN BRITISH TRADE

Exports Decreased \$97,790,000 in January—Imports \$3,020,000

London, Feb. 9.—The effect of the war on British trade again is apparent in the figures given out by the Board of Trade for the month of January.

Imports for the month decreased £404,000 (\$3,020,000) and exports decreased £18,558,900 (\$137,700,000). Food imports increased £7,250,000 (\$55,250,000), but this was offset by the decline in manufactured articles and raw materials, in which cotton showed a decrease of £3,500,000 (\$27,500,000). In exports the decrease of coal amounted to £1,750,000 (\$13,750,000), and in manufactured articles the decrease was £17,000,000 (\$135,000,000). Of this last-mentioned amount £5,000,000 (\$38,000,000) is found in option textiles.

REPLACE VODKA REVENU.

Russian Monopoly On Tea, Tobacco, Oil and Insurance.

Petrograd, via London, Feb. 9.—The Ways and Means Committee of the duma has unanimously recommended that the government declare a monopoly on tea, tobacco, oil, matches and insurance of all kinds. The recommendation virtually assures the passage of the bill by the duma, it is stated.

The bill declares that hereafter the things named shall form the basis of the government revenue which heretofore has been derived from the monopoly on vodka and from an indirect tax on certain necessities.

In Odessa and in Nikolayev, on the Bug River, the government has sequestered all the property of German stock companies, including factories, car lines, hotels and tenements.

CONTRABAND DEPOS.

Home, Feb. 9.—The idea Nationale says the house of Prince von Buelow, the German ambassador, is used as a headquarters for German espionage and contraband. The paper gives the names of alleged German spies and agents and urges the government to expect them lest the security of the state be undermined.

SCIENCE OF KILLING MOVES FASTER THAN CURING.

Paris, Feb. 9.—Dr. Alexis Carrel, of the Rockefeller Institute for Medical Research, visited the American ambulance at Neuilly in company with Sir Almoth Wright, Sir Berkeley Stearns and a deputation of British army surgeons. In an address before the physicians after an inspection of the wards Dr. Carrel said that a comparison of the progress made in the sciences of killing and curing showed that the physicians and engineers were ahead of the surgeons.

SURGEON BEHIND GUNMAKER.

Paris, Feb. 9.—Dr. Alexis Carrel, of the Rockefeller Institute for Medical Research, visited the American ambulance at Neuilly in company with Sir Almoth Wright, Sir Berkeley Stearns and a deputation of British army surgeons. In an address before the physicians after an inspection of the wards Dr. Carrel said that a comparison of the progress made in the sciences of killing and curing showed that the physicians and engineers were ahead of the surgeons.

The visitors said they were deeply impressed with the arrangements for the care of the wounded at the American Hospital.

THE SUPREME TEST

of a Healing Agent

Psooriasis or Chronic Eczema Defied All Treatment Until Dr. Chase's Ointment Was Used.

After suffering with the terrible itching of Psoriasis for five years, and being told by physicians that she could never be cured, Mrs. Massey turned to Dr. Chase's Ointment and was entirely cured.

You will find this letter interesting and will not wonder that the writer is enthusiastic in praising this ointment.

Mrs. Nettie Massey, Cor. Second and Second Sts., Toronto, Ont., writes: "For 5 1/2 years I suffered with what three doctors called psoriasis. They could not help me, and one of them told me if anyone else tried to prescribe a cure for me, I would keep my money, as I could not be cured. The disease spread all over my face and head, and the itching and burning was hard to bear. I used eight boxes of Dr. Chase's Ointment, and I am glad to say I am entirely cured, and a sign of a cure to be seen. I can hardly praise this ointment enough."

Can you imagine how secure that for Dr. Chase's Ointment? This should convince you that as a cure for psoriasis and all forms of itching skin disease Dr. Chase's Ointment stands supreme. Put it to the test. 50c. a box, all dealers, or Edmanston, Bates & Co., Limited, Toronto.
