**CASCARETS CURE HEADACHE, COLDS, CONSTIPATION**

Get a 10-cent box.

Take a Cascaret to-night to cleanse your Liver, Stomach and Bowels, and you will surely feel great by morning. You men and women who have headache, coated tongue, a bad cold, are bilious, nervous, upset, bothered with a sick, gassy, disordered stomach, or have backache and feel all worn out. Are you keeping your bowels clean with Cascarets—or merely forcing a passage every few days with salts, cathartic pills or castor oil?

Cascarets immediately cleanse and regulate the stomach, remove the sour, indigestible and fermenting food and foul gases, take the excess bile from the liver and carry off the constipated waste matter and poison from the bowels.

Remember, a Cascaret to-night will straighten you out by morning. A 10-cent box from your druggist means healthy bowel action, a clear head and cheerfulness for months. Don't forget the children.

**\$6.00 for \$4.75,**  
**\$8.25 for \$5.95,**  
**\$12.60 for \$9.45,**  
**\$18.80 for \$13.25**

10 pieces in all, on sale Friday and Saturday.

**NOT TO EXPEND**

Any Money in Repairing Fair Ground Buildings.

**COUNCIL VOTED DOWN**

**THE PROPOSITION OF THE PROPERTY COMMITTEE.**

Owing To the Need of Husbanding the City's Finances This Year—Fair Will Have To Go On Under the Old Conditions.

The City Council will not expend any money this year on making repairs to the fair grounds and buildings. By a vote of 11 to 9 the recommendation of the Property Committee to expend a sum not exceeding \$1,500 a year for five years, of which one-third is to be paid by the Kingston Industrial Fair Association, was voted down Monday night.

Instead, the fair association will be given the grounds free for a four days fair in September. The majority of the council felt that the city's finances needed to be husbanded this year.

Ald. McCann presented the recommendation of the Property Committee, and urged council to make the expenditure proposed.

"For us to spend any more money on the fair grounds, is a piece of folly," declared Ald. Graham. "We have been giving the grounds free of charge and let us continue to give them to the fair association free of charge, but don't let us sink any more money there."

Ald. Graham pointed out that the city could not afford to spend money on the fair grounds this year, when it had to face a deficit of \$18,500 and also to pay \$1,500 for repairing the breaker.

Ald. Stroud favored spending money in repairing the fair buildings. The expenditure of \$1,500, on the fair grounds is a better business proposition than the expenditure of \$1,500 on the breaker," declared Ald. Stroud.

Sell Them, Said The Mayor.

Mayor Sutherland called Ald. O'Connor to the chair while he made a few remarks on the fair grounds question. He stated that the fair grounds would not be paid for until 1917. The original cost of the grounds was \$17,000, but they had really cost the city \$55,000.

"What's the remedy?" asked Ald. Fair.

"Sell them," replied the mayor, "and buy Catarqui Driving Park in Williamsville for \$8,000. It would be good business to get rid of the present property as a good figure, and invest in the Williamsville property. The present buildings could be removed to the Fralick property and additional ones built."

Ald. Kent said he would willingly support the expenditure of \$1,500 on the fair grounds if this was a normal year, but it was not, and the council had to consider carefully the expenditure of every dollar at its disposal. He could not see his way clear enough to vote for any expenditure on the fair grounds this year.

Ald. Gardiner was opposed to spending any money on the present grounds, which he declared were unsuited for the holding of a fair. The track was poor and the general layout of the grounds was bad.

Ald. Nickle wanted to know with whom the Property Committee proposed to make an agreement.

Ald. McCann replied with the Kingston Industrial Fair Association.

"But that association is not incorporated, and cannot be held personally responsible," said Ald. Nickle.

"The association will put up a guarantee bond satisfactory to the city solicitor," replied Ald. Graham.

"The report means that the city will pay \$5,000 on the fair grounds in five years," said Ald. Nickle. "Has the fair association not enough confidence to raise \$2,500 itself? If the fair is to be a money-maker, let the city run it."

Ald. Wormwith added his voice in opposition to spending money on the grounds.

"I think Ald. Graham is peculiarly economical in raising objection to repairing the fair grounds," declared Ald. Newman, who added that the city would lose nothing but gain by making the fair grounds more serviceable. It would be a pity to discourage the fair association.

**CASCARETS CURE HEADACHE, COLDS, CONSTIPATION**

**DEATH OF J. N. GLIDDEN.**

He Was Largely Interested in Nickel Propositions.

Sudbury Star.

Death came suddenly to J. N. Glidden, Sault Ste. Marie, a well-known former resident of Sudbury, Friday, while on a business visit here.

Mr. Glidden left the office of Smith & Travels, apparently in the best of health, at 11 a.m. Friday, for the residence of J. A. Holmes, Ramsey Road, intending after seeing Mr. Holmes to catch the noon train for the Soo, where he resided. At 10:45 a.m. his lifeless body was found lying in the road opposite Mr. Holmes' residence by Messrs. G. Linton and J. Gibb. Coroner Dr. Torrington and the police were notified and were quickly on the spot, but nothing could be done, as death had evidently been instantaneous, probably from heart failure, following an attack of acute indigestion.

The body was prepared for burial by J. G. Henry and was sent on the 10:45 p.m. train for Kingston for interment. Mrs. Glidden, Mr. and Mrs. J. Dresser, of the Soo, were on the train and accompanied the body to Kingston.

The late John Newton Glidden was born in Kingston, Ont., about fifty years ago. After leaving school at Kingston, he entered business in Cleveland, Ohio, in which firm he spent several years, accepting the position of office manager with the Canadian Copper Co., at Copper Cliff, in 1892. He remained at the Cliff until 1900, rising to the position of business manager, a position in which he was succeeded by A. P. Turner, who afterwards became president of the company. Mr. Glidden then removed to Sudbury and acquired an interest in various nickel properties.

From Sudbury he returned to his old home in Kingston and engaged in mining, also spending some time in British Columbia in the same business. In 1907 he returned to Sudbury, and was instrumental in the formation of the Dominion Nickel-Copper Co., Ltd., in which he became manager, holding this position until the summer of 1911, when he became general manager of the same concern. In January, 1913, the Dominion Nickel Co. sold its holdings to the British American Nickel Corporation, Ltd., and Mr. Glidden retired to the Soo, where he was interested in various concerns, including the Soo Hardware Co., in which he held a controlling interest and which he disposed of a short time ago. He was married about three years ago to a Miss Ellis, of Kingston, and has no family.

The deceased has a host of friends in this district and in the Soo who will sincerely regret to hear of his untimely demise. He had an ever-lasting faith in the future of Sudbury and New Ontario generally.

**Gananoque**

Gananoque, Feb. 16.—The firm of Mitchell and Wilson, contractors and builders, met with a heavy loss yesterday afternoon when a valuable team of heavy draught horses with a sleigh load of building material for use in construction work at "Nokomis Lodge," on St. John's Island, broke through the ice in the North Channel, near Point Pleasant. There is quite a strong current there, and the ice in consequence is much thinner than in the main channel. The team was driven by William Vallier, who escaped, but team, sleigh and load are at the bottom of the river.

The ladies of St. John's Church held another very fine "At Home," in Turner's assembly hall, last evening. Dancing was held from 9 p.m. to 2 a.m. The Citizens band orchestra was in attendance. The efforts of the ladies were crowned with success. The proceeds are in aid of St. John's Church.

Word has been received here that the contemplated trip of the soldiers of the second contingent from Kingston to Gananoque, to-day has been called off on account of the condition of the bridge across the river it not being considered safe.

The two-weeks' series of special services planned by Rev. Melvin Taylor, in Grace Church, which were to start on Sunday next, have had to be postponed until a week later.

The home of Mr. and Mrs. John Kevin, River street, was the scene of a dance last evening.

Frank Wright has been appointed to represent Gananoque Council, No. 284, R.T. of T., and Rev. Melvin Taylor to represent Grace Church at the Dominion Alliance convention in Toronto.

A number of young people of the town went to the home of Mr. and Mrs. Haesler, near Maple Grove, for a dance last evening.

Mrs. C. H. Hurd, King street, left at noon yesterday for Toronto to represent Gananoque Council, No. 284, R.T. of T., at the annual session of the grand lodge of Ontario, which is in session in that city on Tuesday, Wednesday and Thursday. Afterward she will go on to Hamilton for a short visit with her sister, Mrs. H. Saul.

Gordon Latimer, of Berlin, Ont., is in town for a short visit with his father, Orlando Latimer, River street.

A sleigh load of young people from this section attended a dance at the home of Mr. and Mrs. William Matthews, Leeds township, last evening.

**The First Horseshoes.**

Our Dumb Animals.

Readers of Homer and early classic authors who speak so frequently of the horse and the part he played, particularly in war, often wonder how he was shod. It certainly was not with metal. Homer's "bronze-hoofed" horses must have received their special designation because of the color of the hoof so often resembling bronze. The hoofs of horses in ancient times were frequently wrapped with cloth.

The Romans, it is said, used various methods to harden the hoofs of their horses that they might the better stand long marches. So far as we know Nero, the Roman emperor, was the first to have his horse shod. The shoes were of silver and were clamped to the foot. Nails driven into the horn of the foot appear to have been in use in the time of William the Conqueror in the eleventh century.

**JANUARY PRICES.**

Reviewed by the Department of Labor At Ottawa.

The Department of Labor's index number whole sale prices was higher for January, standing at 134.6, as compared with 137.3 in December, and 136.5 in January, 1914.

The chief feature in the price movement was the rapid rise in wheat and other grains and in flour. Higher prices and strong demand in Europe, resulting in heavy export buying on North American markets, demand from millers, unfavorable reports as to shipments from India and Argentina, importation into Australia and New Zealand, the continuance of the closing of the Dardanelles, preventing the export of Russian wheat, speculative buying, and holding of grain by farmers were reported as factors in the rise. Manitoba wheat rose from \$1.52 to nearly \$1.50 by the end of January and was still rising. Flour rose 70c. per barrel and was still rising, while some grades had risen still more. Bread advanced in several localities.

Rolled oats also advanced in sympathy with oats. The other principal advances were in poultry, butter and cheese, stock and lighter, and in raw furs and raw rubber, demand being better. Cattle, beef and hogs were downward, demand being light and supplies plentiful. Eggs were downward, receipts being larger as the season advanced, except during a brief cold period. Sugar was again lower, on account of weak prices for raw sugar and light demand, but was firmer at the close of the month. Downward tendencies also appeared in coffee, potatoes, oranges, quicksilver, tin, gasoline, benzine, B. C. shingles, sash cord, wire cloth, turpentine, and pulp. Some upward movement appeared in hay, straw, shorts, baled straw, raisins, tea, raw cotton, zinc spelter, spruce deals, and limbed oil.

In retail prices there was a general advance in flour, and bread rose in several cities. On the other hand sugar declined in many localities. Meats showed a downward tendency in some localities.

In Great Britain higher prices were also shown in January, the greatest increase being noted in cereals. The index number of the London Economist is up nearly two points, and Sauerbeck's index number, published in the Statist, has risen nearly three points. Bradstreet's index number of prices in United States is 1.2 per cent. higher for January. Dun's index number, including about 200 commodities, stood slightly lower on January 1st, (\$124.16) on account of weakness

**CATARH CAN NOT BE CURED BY LOCAL APPLICATIONS.**

Catarh is a blood or constitutional disease, and can never be cured by local applications. It is a disease of the blood and mucous surfaces. Halle's Catarrh Cure is a quick medicine. It is a regular in this country for years and has been prescribed by the best physicians in the world. It is composed of the best natural ingredients, and with the best blood purifiers, setting the system on a firm basis. The perfect combination of the two ingredients is what produces such wonderful results in curing Catarh. Send for testimonials free.

J. J. CHENEY & CO., Proprietors, Toledo, O. Sold by Druggists Everywhere.

Take Halle's Family Pills for constipation.

**PROBS.—Westerly to northerly winds, fair to-day and Wednesday, becoming cold.**
