

THE RIGHT SUIT!

It's the man inside the clothes that wins, of course, but the clothes are on the outside and they count, and they count just in proportion as the make, the fit and the style are accurate.

Our Men's Clothing has to pass all sorts of hard "Exams," is criticised by experts who know the "ins" of good tailoring, as well as the styles and finish that characterise correct clothing for men and young men.

We place great stress on our \$15.00 and \$18.00 Suits. Come and see them and then just match them if you can.

TO CURB THE TRAFFIC ANNIVERSARY SUNDAY

LLOYD GEORGE DROPS HINT OF "FEARLESS" ATTITUDE.

Country In Need Of Arms—Government Spokesman Declares Workshops Are Not Giving Full Assistance In This Hour of Peril.

Bangor, Wales, March 1.—The government has wide powers to deal with the drink question and it means to use them, declared David Lloyd George, chancellor of the exchequer, in a speech delivered here. He said a small minority of the workmen employed in the armament factories had refused to work a full week because of the lure of drink.

The government would use its powers discreetly, and in a spirit of moderation, Mr. Lloyd George asserted, but "fearlessly." He was sure the public would support whatever action was taken and allow no indulgence for this kind of interference with the country's prospects in the war.

"The war," he said, "is to be won or lost by the engineers. We need men, but we need arms more than men, and every day of delay is full of peril to the country. For one reason or another we do not get the assistance we have a right to expect from our workshops. Industrial differences are inevitable but we cannot afford them now."

"It is intolerable that the lives of Britons should be imperilled for the sake of a farthing an hour. During war governments should have the power of settling differences so that work shall go on. If men are entitled to more money the government should give it. I do not believe the parties involved will refuse to comply with the urgent command of the government that there should be no delay."

Expressing confidence in the outcome of the war, the chancellor said the people of the country hardly realized yet the importance of the struggle in which they were engaged, and warned them that victory could not be won without a long struggle. He declared that while England had enrolled the largest volunteer army ever gathered in any country or in any century it ought to be larger still.

IN THE PRINCESS STREET METHODIST CHURCH.

Prof. Scott and Dall, Queen's, Preached—Rev. Dr. Sparling, Ottawa, a Former Pastor, Spoke In the Evening.

The anniversary services of the Princess Street Methodist Church were held on Sunday and were pleasing and profitable. The weather was ideal, the audiences filled the church, the offerings were liberal and the forceful and inspiring sermons preached by Professors E. P. Scott and J. Dall, Queen's University, were a real spiritual uplift to all present.

A pleasing feature of the evening service was the presence and greetings of Rev. Dr. Sparling, Ottawa president of the Montreal conference who in the early days of his ministry had been pastor of the church. After Prof. Dall had preached, the pastor invited Dr. Sparling to the pulpit to take charge of the closing exercises of the service, and address the audience. His words of greeting were much appreciated.

The committees are all working hard to make the real old time tea meeting and the musical and literary entertainment in the church a most enjoyable affair.

ROUMANIA ALARMED.

Berlin, via wireless, March 1.—Roumania is alarmed over the possibility that Russia may gain Constantinople and dominate the Dardanelles in the event of a victory for the allies, according to despatches received here to-day. She has called all her reserves to the colors.

Remained A Tie.

Although twenty minutes of overtime was played the result was a tie for the game between the Sorobens and the Awkward Squad, both Regiopolis College teams. The return game will be played this week.

LATEST MOVES INDICATE BEGINNING OF THE END

Washington, March 1.—It is recalled that the United States has not recognized the German death zone around England as an actual blockade. This lent to the belief that there may be no official recognition of Britain's reprisals plans, although the authorities admit that the allies are in a position to make the blockade air-tight, as required under international regulations.

There is some talk that the latest

moves in the international situation are the beginning of the end of the war. The British reprisals and the prospective forcing of the Dardanelles are considered in some circles as foreshadowing the early closing of hostilities. This gave rise to the consideration of American prospects as mediator. There were predictions that America will be on shaky ground in this respect because of recent difficulties with both sides.

A New Club Organized.

The Kingston Canoe and Motor Boat Club has been organized and at a meeting, on Saturday, the following officers were elected: W. Ferguson, president; F. Baker, vice president; C. Rogers, secretary; F. McGill, treasurer. The board of directors is composed of H. Cooke, F. McGill, V. Abernethy and B. Rothwell. This club is a successor to the old Kingston Canoe Club and should be a very successful organization.

To Break Curling Tie.

To break the tie in the senior C. O. C. L. tankard series, Napanee will play here this afternoon, and the winners will play Brockville Eastern hospital here this evening.

In the Rockwood tankard played here on Saturday, Kingston defeated Rockwood by 37 to 18. The skips were: Kingston, A. H. Turcott and Prof. Wallace; Rockwood, J. Davidson and Dr. E. H. Young.

Accepts Offer Of Hospital From Queen's

An Ottawa despatch says: "The British war office has cabled acceptance of hospital units from Queen's, McGill and Toronto Universities."

Dean Connell, when seen by the Whig on Monday, said that he had no official word of the acceptance of the offer, recently made by the medical faculty. "When it arrived, steps would be taken to organize the hospital, which will be under the direction of Dr. F. Etherington."

Remembered By Friends.

Marty Walsh, who is seriously ill in the Muskoka sanitarium, has been remembered by his many Kingston friends in athletic circles. Through J. T. Sutherland, Kingstonians had an opportunity of subscribing to a fund which is being used to add to the comforts of the young Kingstonian during his illness.

Enough Food In England For a Year

Liverpool, Eng., March 1.—Never in the history of this port has the congestion of shipping been so great nor have Liverpool warehouses ever been so crammed with food-stuffs as at present. It is the consensus of opinion of the importers here that even should the German submarine blockade prove effective, there is enough food now stored here to feed the country for a year.

McGILL WAS THE WINNER

In the Intercollegiate Assault-at-Arms Tournament.

The intercollegiate assault-at-arms finals were finished in Toronto by 12 o'clock Saturday night, with the score of the meet standing: McGill, 5 points; U. of T., 4 points, and Queen's, 3.

The events in which Queen's took part were:
