Let Your Feet Breathe The pores in your feet are the largest and most active in your body—But if you wear improper shoes they become covered with dead skin and callous places and cannot breathe as nature intended. This condition is impossible if you wear a Dr. A. Reed Cushion Shoe. The built-in cushion sole absolutely prevents drawing and hugging of the uppers—and the friction that forms callouses and eventually corns is entirely eliminated. Try on a pair and prove these facts to your own satisfaction. Allan M. Reid, 111 Princess St. Kingston.
