\$1.50 a Yard

WALDRON'S

OVERSEAS UNITS BUSY

DOING PRACTICAL WORK AT RANGES AND IN FIELD.

Officers Taking R. S. A. Course Had a Busy Time Wednesday Afternoon—St. Patrick's Night Was Celebrated.

The sixty officers taking the R.S.A. course were on Wednesday given a day of practical work, of the kind that they will meet with at the front. The programme took from noon until after six o'clock. Capt. T. D. J. Ringwood, Serjt.-Major Inst. Jordan and Serjt.-Inst. Temple were instructors. Major E. C. Barrett acted as brigadier and controlled the fire of the guns from a point over a thousand yards away by use of field telephones. Major Barrett transmitted the orders to the commander of the battery, which formed part of the advance guard trying to take a position between the wireless and the Gananoque road and engage the supposed enemy near the smelter works across the Rideau river on the city side.

Q.M.S. Smith had cordite puffs and quick match to represent flashes from the enemy's guns, and powder puffs to represent the bursting of the shells. The battery commander obtained a line of fire by means of a director. By reason of his position, he had to use the magnetic north as an aiming point. The work was very instructive, as the conditions were very similar to those which would be met with on active service. The metrometer was used for range-finding and a portable "D" telephone was used for transmitting the orders.

Serjt. Rodgers has been appointed caterer of the sergeants mess at Tete de Pont barracks.

The officers celebrated St. Patrick's night in a patriotic manner. The R.C.H.A. band furnished Irish music for the occasion.

Two Kingstonians, L. C. Ennis and R. Watson, of Division street, left at noon on Thursday for Quebec where they will take instruction in the Training Depot and go overseas with the transport section of the Army Service Corps. They will likely be used as chauffeurs.

Major J. Hamilton, A.D. of S. and T., was quickly able to secure all the artificers he needed for overseas work. The eight accepted were examined by him before being given transportation to Ottawa. One man was rejected as medically unfit.

Col. L. Lessard and Col. T. D. R. Hemming are in Ottawa making an inspection of the Engineers.

Owing to a misunderstanding by the officers of the Governor-General's Foot-Guards, Ottawa, the report has been circulated without any foundation that a fourth contingent battalion would be mobilized in this division. No such order has yet been issued, and the recruits being taken on now stand a great chance of going overseas with the third contingent. Both the 38th and 39th battalions are over strength, but recruits are still being accepted. These extra men may be formed into a battalion, but it is thought more likely they will be attached only until such time as they are needed at the front.

Lieut.-Col. G. S. Maunseff, R.C.E.E., D.G.E.S., on Wednesday inspected the cadets at the Royal Military College and the quarters occupied by the 21st Battalion, as well as other government works.

An order has been issued that the cap-badges must be polished.

The 21st Battalion left at 8.30 o'clock on Thursday morning for a day's work on the ranges and in the field. On Wednesday, field movements were gone through in the vicinity of Glenburnie. Dinner was taken on the R. H. Fair property.

The following men have been taken on the strength of the 21st Battalion: E. Baker, W. Cole, O. A. Giroux, O. Henderson, F. Maunders, T. B. Poffley, R. J. Tuck, J. Wilkinson, J. G. Wiggins, A. Brownlee, A. Carman, J. Hay, F. Maxam, W. J. Paver, F. Stinson, R. H. Willis and R. J. Wallace. Pte. Gault has transferred from the Mounted Rifles to the 21st Battalion.

The 26th Battery is now in fine shape for taking in recruits to bring the battery up to strength. In the rooms in the Richardson building are now over 150 bunks of the latest steel frame type. The office of

the battery is in the front room at the north end of the building, and recruits are attested here by the battery commander.

The twenty-nine recruits have all been issued with uniform and are being drilled every day on the cricket field. Other recruits are expected, and in the near future the full number will be obtained. The R. C. H. A. guns will be used for instruction purposes.

Rev. John J. Dunlop addressed the soldiers in the militia Y. M. C. A. Hall on Wednesday evening on "Japan," of which country he is a president missionary. The talk was very instructive.

Lance-Corpl. D. C. Chad, A.M.C., left on Thursday for a visit with friends in Lakeside.

The many friends of F. C. Roberts are congratulating him on his appointment to lance corporal in the A.M.C.

Lance-Corpl. T. E. Prestige, 21st Battalion, left on Thursday for Lindsay to visit friends.

THE KAISER ALARMED.

(Special to the Whig.)
Copenhagen, March 18.—Alarmed at the British advance in Flanders, Kaiser Wilhelm has gone to Lille with his chief of staff and will meet the Crown Prince and the King of Wurtemberg there for a council of war.

PROF. LANOS' SISTER

Writes From France That "We Simply Fight."
Prof. J. M. Lanos has received a letter from his sister, Mme. Bodin, who is a French army nurse. The letter was dated February 14th, but was held up for three weeks. Mme. Bodin says that her brother was at Havre at the time of the landing of British troops in August. He was detailed to meet them as he knew English. He is now fighting near Arras.

The writer further says that 1,400,000 new men were to leave for the front in the first or second week of March, and that fresh levies had already been made including youths of eighteen and older men who had been excused before. This means another army of over 1,000,000 who will fill the gaps in August or September. Sixty men from the borough of 2,500 souls where Mme. Bodin lives at present have been killed in the war. There is hardly any male population—postmen, railway men, bankers, teachers, priests, all have moved to the Belgian frontier. Women do the work, where and best they can.

"We are neither disheartened nor hopeful; we simply fight; we seem to be no longer able to care," concludes the letter.

MUST INTERN OR SAIL.

(Special to the Whig.)
Washington, March 18.—Commander Thieschens, of the German converted cruiser Prince Eitel Friedrich, will have to "fish or cut bait" soon, it was learned on high authority today. The Treasury Department, which has charge of neutrality enforcement, will send him a note shortly giving him twenty-four hours to state how much more time he wants at Newport News to put to sea, or to intern immediately.

CARED FOR BY POLICE.

Youngster Lost on Down-Town Street on Thursday Afternoon.
Crying as if his little heart would break, a "kiddie" about four years of age, was found by a lady near the corner of Wellington and Brock streets, early Thursday afternoon, and taken to the police station. The youngster had evidently been tramping the streets for some time. At the police station everything was strange to the little fellow and he cried all the harder. Sergeant Snodden and Constable Leslie Clark tried to comfort him, and finally with a few cakes and an apple the officers succeeded in quieting him. After partaking of his lunch he fell asleep on a couch and at two o'clock was in dreamland. Up till this time no inquiries had been made about the stray-away.

"Buy spring tonics," at Gibson's.

GERMANS WILL BURN GOVERNMENT BUILDINGS

In Russian Provincial Capitals in Retaliation, Says the German War Office.

(Special to the Whig.)
Berlin (via wireless), March 18.—The Russian Government buildings in Suwalki, Poland, and other Provincial capitals in the hands of the Germans will be burned to the ground, the German war office announced this afternoon, in retaliation for ruthless acts of destruction by the Russians in East Prussia.

SAPPER BRISTOLIN STRUCK

By Shell and Has Tetanus—May Not Recover.

Sapper Franklin Thomas Bristolin was admitted to No. 1 Eastern Hospital, Cambridge, suffering from tetanus. His next of kin, Mrs. Jennie Bristolin (wife), 44 Main street, Kingston. Sapper Bristolin is with Queen's University Engineers, under Major Macphail. Sappers Bristolin and Percy Bould, the latter another Kingstonian, slept together, and it seems a shell struck the apartments in which both were lying. Sapper Bould was reported a few days ago to have been wounded in the forearm, but it is thought Sapper Bristolin must have been struck by a fragment of the shell in a more vital portion. Tetanus set in, and from the telegram received by Mrs. Bristolin on Wednesday afternoon the doctors think there are small chances of recovery. Sapper Bristolin left Kingston on August 18th with No. 5 Company, Canadian Field Engineers.

SIX HUSBANDS KILLED.

Woman So Overcome At Latest Loss She May Die.

Shamokin, Pa., March 18.—When an ambulance arrived at the home of Mrs. Joseph Sobel, bearing the body of her husband, who had been burned to death in an explosion of gas at the Reading Coal & Iron company's Henry Clay colliery, the widow was so overcome that she is in a critical condition. Sobel was her sixth husband, all having been killed by mine accidents. She is of middle age.

REDUCTION BY-LAW VOID

Because Petition Lacked One-Tenth Of One Signature.

(Special to the Whig.)
Toronto, March 18.—Recently London, Ont., carried a by-law reduction by law, but it will not go into effect. Justice Middleton decided today that because the petition on which the by-law was submitted to the people lacked one-tenth of one signature, the by-law was, therefore null and void.

Fell From His Ladder

While at work cleaning one of the white-way lights, opposite the Salvation Army Citadel, on Thursday morning, Frederick Nancarrow had the misfortune to have his ladder slip, causing him to fall heavily to the pavement. Mr. Nancarrow was later removed to his home on Elm street. It was stated that nothing serious would result from the fall.

To Cure A Cold In One Day.

Take LAXATIVE BROMO QUININE Tablets. Druggists refund money if it fails to cure. E. W. Grove's signature is on each box, 25c.

Two women in the police cells made things lively with their singing on Thursday. After rendering several hymns, they wound up their concert with the famous "Tipperary." Frances Patterson, charged with vagrancy, was given a pass to Campbell, and was escorted to the train on Thursday afternoon by Constable Jenkins.

More than 10,000 inhabitants in the Balearic Islands are on the verge of starvation. Famine conditions prevail throughout the islands.

Mrs. Funnell, wife of Ex-Mayor Jesse Funnell of Trenton died on Wednesday after a week's illness.

Two Germans were arrested at Seattle in connection with the Canadian submarine deal.

The women of Great Britain are to be called out for paid employment.

New war risks will not be received by the A.O.U.W., but claims by soldier members will be honored.
