**CURIOS MINE TRAGEDY.**  
Three Go To Death In Private Saskatchewan Colliery.  
Moose Jaw, April 7.—Word has just reached the city from Willow Bunch which reveals a tragedy involving the loss of three lives in a private coal mine, two and a half miles from the town. Frank Garrett, farmer, his wife and his wife's father, are the victims of a peculiar accident. Garrett since last fall has been operating a small coal mine on his farm. It had reached a depth of 27 feet and they have used coal from it all winter. On Friday his father-in-law went down the mine to get coal. As he did not come up, Garrett went down and found him unconscious. He came up and sent his wife for help. Mrs. Garrett, on returning, not seeing her husband around, went down into the mine and found Garrett all unconscious beside the body of her father. She had taken a rope with her, and while in the act of putting it around her husband, fell insensible. When help arrived and the men went down into the small mine, it was to find Garrett, his wife and father-in-law all dead.

and in every Knap-sack rests a box of Dr. Chase's Gift to the Soldier Boys

**Dr. Chase's Gift to the Soldier Boys**  
A Large Box of Dr. Chase's Ointment is Presented to Every Soldier Before He Leaves for the Front.

You will see by the attached clipping that ointment is one of the prime necessities of the military man in camp. Note the amount used each week. The heavy clothing chafes and irritates the skin. Forced marches and heavy footwear make the feet sore. Exposure to dampness brings on piles or hemorrhoids. It therefore happens that nothing is so greatly in demand as an ointment such as Dr. Chase's.

This was proven in the Spanish-American and Boer wars, when we made a similar distribution to the boys going from Buffalo and Toronto. The volume of grateful reports then received convinced us that no soldier's knapsack is complete without a box of Dr. Chase's Ointment.

To the soldiers in training at the Toronto Exhibition grounds we delivered over 4,000 full-size boxes of Dr. Chase's Ointment. Contributions have also been sent to branches of the Red Cross Society in all parts of the country. If you are a soldier and do not receive your box kindly advise us, so we can send it to you. Edmondson, Bates & Co., Limited, Toronto. Be sure to mention this paper.

**FIVE TONS OF OINTMENT**  
Weekly Supply for Use of British Soldiers Upon Their Feet.  
London, Feb. 16.—An "eye-witness" at the British general army headquarters in France pays a tribute in an article given out yesterday by the Official Press Bureau to the work of the army supply departments. He calls the Ordnance Department a "military universal provider." He says in part:—  
The vastness of the work of maintaining a modern army may be gauged by the fact that during the past month the supplies furnished included 450 miles of telephone wire, 530,000 sand bags, and 10,000 pounds of shoe blacking, while in ten days the Ordnance Department supplied 130,000 for waistcoats and 300,000 flannel belts. The average weekly supply of ointment for feet is 100 tons. The complexity of the work is illustrated by the fact that the index of the stores include 50,000 separate kinds of articles. Most of these still are obtained from England, but some are being manufactured by the Ordnance Department in its own workshops in France.
