PEOPLE BEING MISLED

AND COUNT OKUMA EXPLAINS THE CHINESE SITUATION.

Seeks to Allay Suspicion—Purposes in China Accord With Treaties, Asserts Statesman—Mischief Makers Scored.

New York, April 8.—The Independent has received from Count Okuma, the Japanese Premier, the following "message to the American people."

"Tokyo, April 3.—The uneasiness and suspicion in the United States in connection with Japan's negotiations at Peking are due to misunderstanding and misinformation scattered broadcast by interested mischief makers.

"When the negotiations are disclosed it will be found: "That Japan has not infringed the rights of other nations.

"That Japan is not attempting to secure a monopoly over China.

"That Japan has adhered strictly to the principle of equal opportunity.

"That Japan is not attempting to create a protectorate over China.

"That Japan is not seeking to secure in China any advantage which does not accord with the Anglo-Japanese alliance or with any treaties or undertakings with the United States.

"We have fully informed the United States and other interested Powers as to Japan's purposes.

"We believe that they are satisfied.

"The negotiations between Japan and China are nearing a satisfactory conclusion.

"I am now willing to state publicly through The Independent that Japan is quite confident of the rectitude and good faith of her position.

"Japan is merely seeking to settle outstanding troublesome questions in a way looking toward permanent peace and good understanding."

GERMAN TOYS IN BRITAIN.

Shipped From U. S. And Sold As American Goods.

London, April 8.—The Times says: "The importation of German toys into England appears still to be carried on. According to statements of British factors, toys made in Germany are entering Britain under the guise of American-made articles.

"For a long time past German-made dolls classed as American are said to have been shipped from Italian ports to America and then re-shipped by American-German houses to England. These articles are sold in this country at a comparatively low price.

"It is suggested that naturalized Germans have come to Italy, fenced German goods there, and sent them to agents in America for trans-shipment. China tea sets described as American made are in other masses believed to be of German origin.

"The United States seems to have been used in this way owing to the increasing difficulty of getting goods through Holland, although supplies are said still to be coming through the latter country."

CANADIANS WORK HARD

In Preparation For Big Effort At Front.

London, April 8.—News of the Canadian contingent up to March 31st reached London to-day shows the men are working harder than ever, sixteen hours daily, being taught the fine points of the game of mining, grenade throwing, wire cutting, erecting wire entanglements. A Montreal infantry officer writes: "The men still look smart. I really believe my men are away ahead in this respect. Our brigadier has everyone at work clearing up ammunition, etc. Things will go better next time than at Neuve Chapelle. The ground is drying. Thousands of troops are waiting for a chance to move."

"The Bishop of London's addresses to our men are splendid. He first addresses the officers, then the men. General Allerson also spoke. He said he was surprised and greatly pleased at the way we had done our part. He said soon there would be hot work for us; hard work, too. Our regiment is now in splendid shape."

UNION ORDERS STRIKE

On All Beebe Lines From Syracuse To Buffalo.

Syracuse, N. Y., April 8.—A general strike order affecting the Empire United Railways and Associate Lines between Syracuse and Buffalo was issued in this city last night by international officers of the Amalgamated Association of Street and Electric Railway Employees of America. The order is expected to become effective within twenty-four hours. It was issued to committee chairmen on the various roads with instructions that every effort be made to effect a complete tie-up of traffic.

Late last night officials of the Empire United Railways said that not a single road had been tied up, although some of the Amalgamated men had joined the strike in obedience to the general order.

Despite this statement union officials who are engineering the movement insisted that there would be a complete tie-up within twenty-four hours.

CHASED A MILITARY TRAIN.

Two French Aviators — Damaged Railway and Stations Along Line.

Geneva, Switzerland, April 8.—Two French aviators pursued a German military train yesterday from Marbach to Villigen, in the Black Forest. They damaged the railway and stations along the line. On their return they dropped bombs on Muelheim and Neubourg.

A French biplane, which was being pursued by German aviators, lost its way in the mist last night, and crossing the Swiss frontier landed near Porrentruy. The pilot said and his companions had come from Belmont, but had not been able to return. The aviators were taken to Belmont, where they appeared before Col. Audeoud. Neither of the men were injured. They will be interned.

USED RED-HOT POKER.

Watchman Tries To Press It Into His Breast.

Wilmington, Del., April 8.—Sitting in the watchman's box at the Concord crossing along the Baltimore & Ohio railroad, Garman Manning, aged thirty-nine, attempted to kill himself by pressing a red-hot poker into his breast at a point above the heart. After the hot iron had gone to the depth of more than an inch the agonies the man suffered were so great that he fainted. His clothing was ignited by the hot poker, and he was badly burned about the upper part of the body.

NO LIMIT TO APPRENTICES.

Bill Forbidding Restriction Passes California Senate.

Sacramento, Cal., April 8.—A bill forbidding any restraint upon the number of apprentices in any trade was passed yesterday by the State Senate, in which it originated. In debating the measure, the opponents called it a device "to destroy labor unions and establish the open shop." Its advocates said it was a bill "to give the American boy a chance in life."

Margaret Anglin In a New Role.

Baltimore, Md., April 8.—Margaret Anglin presented at the Academy of Music for the first time last night, "The Desert Island," a new comedy by Paul Kester, in which she played the leading role, with a supporting company including Ruth Holt Boncourt, William Boyd, Harry Barfoot, Mrs. Charles G. Craig, and Pedro de Cordoba. The play is in three acts, with scenes laid in New York, and introduces Miss Anglin in a role widely different from any in which she has been recently seen.

The character is that of a young Virginian, a church choir singer, who has been reared in the more cultured environment and who is suddenly thrown in to the turmoil and excitement of New York life.

Fedlon Making Dyes.

West Orange, N.J., April 8.—Thomas A. Edison predicts that the United States will soon be manufacturing its own dyes, and that the so-called famine in dyes, due to the war, was about to end. At his plant at Silver Lake, N.J., he said, he had already made large quantities of the best aniline dyes, and he asserted that it was only necessary for textile manufacturers to follow his example to break the monopoly which Germany has hitherto had in the dye industry.

Revolution Reported At Nicaragua.

Panama, April 8.—The United States cruiser Chattanooga sailed under rush orders yesterday for Corinto, Nicaragua. The cruiser's departure is believed here to have been due to the reported outbreak of a revolution on the west coast of Nicaragua.

CANNOT SPEAK ENGLISH.

Paris Exchange Keeps An Ear On All Telephone Messages.

Paris, April 8.—Prohibition of speaking English on the telephone is enforced in Paris more strictly than ever. Even talking to the American embassy in English is carried out with the greatest difficulty.

An American, who is unable to speak French, was talking over the phone with the American embassy when he was interrupted and told that he must not use English.

The official at the embassy protested, saying, "But this is the United States embassy."

The operator replied, "That you may speak English, but the other gentlemen must speak French."

The conversation was interrupted until an appeal was made to the superintendent of the telephone company, who allowed the conversation to be carried on.

PARLIAMENT'S CONSENT.

To Be Obtained Before Buying G.T.P. Branch.

Ottawa, April 8.—Parliament was sparsely attended yesterday. Most of the members and all the spectators were in attendance at the sittings of the two investigating committees. Nevertheless considerable work was done in the Chamber.

After a long extended discussion of the Government bill to authorize the taking over of the Lake Superior branch of the G.T.P. and the operation of the National Transcontinental, Hon. Frank Cochrane, Minister of Railways, submitted an amendment under which it is provided that before the line is purchased or leased for more than five years the approval of Parliament must be secured. This amendment was put through the committee by general consent, and the bill now stands for a third reading.

Canadian Flax Association.

London, Ont., April 7.—In order to bring the flax industry to the notice of the Provincial Government, and for the purpose of co-operating generally, upwards of twenty flax growers and manufacturers from different parts of Ontario met here yesterday at the instance of Mr. G. H. Campbell, president of the Canadian Flax Mills. The result was that the Canadian Flax Association made organized and arrangements made for the frequent executive meetings so that the members and the Government might be kept in touch with conditions.

Died Of Meningitis.

Bellefleur, April 8.—The second death from meningitis in the ranks of the 39th Battalion, Belleville, occurred Tuesday afternoon in Belleville Hospital, when Pte. Harry Driver, who came from Belleville with the 45th detachment, succumbed to the disease. He had been ill since Wednesday last. The unfortunate soldier was aged thirty-six years and five months. He had no relatives in Canada.

\$100 REWARD, \$100.

The readers of this paper will be pleased to learn that there is at least one dramatic disease that science has been able to cure in all its stages, and that is Catarra. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarra being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of disease, and giving the patient strength by curing the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

FARM HAND SHOTS

Wife of Employer When She Resisted Attack.

Utica, N.Y., April 8.—When Mrs. DeWitt N. Helmer, of Cass Bridge, near Herkimer, wife of a well-to-do farmer, resisted an attack by her farm hand, William Brayton, yesterday, it is alleged he shot her in the left side with a thirty-eight-caliber revolver. She is in the Herkimer Hospital, where it is said she will probably die.

The sheriff and a deputy overtook Brayton two miles from the place and when he was ordered to stop Brayton shot himself over the heart. He, too, is in the hospital and has a chance to live.

Brayton had been discharged and was packing his things in preparation to leave the Helmer farm when the alleged attempted assault is said to have occurred.
