## THE SPORT REVIEW

President McCaffery of the Toronto Baseball Club sold Catcher Paul Krichelt to the Richmond International League club.

The teams in the N. L. U. will be Cornwall, Montreal, Shamrocks and either Sherbrooke or the other Montreal French team.

Fred Clarke is reported as giving his Pittsburgh Pirate batters special drilling in the art of hitting south-paws.

A syndicate of St. Thomas business men are negotiating for the purchase of the St. Thomas club, in the Canadian League, from the present owners, Messrs. Killingsworth, Stanton, Wray and Chantler. The price asked is \$5,000.

The New York Americans has released James Ring, pitcher, and Angelo Aragon, infielder, to the Richmond Club of the International League. Both players may be recalled at the end of the season.

John K. Tener, president of the National League, held a meeting with his official staff of umpires yesterday at the league headquarters, New York. President Tener went over the rules with his staff, explaining ambiguous points and laying down a code for the strict enforcement of the rules this year.

The Excelsior Lacrosse Club of Brampton has forwarded, through "Joe" Lally a challenge for a series of games with Calgary Chinooks for possession of the Mann Cup.

"Bill" Clymer, new manager of the Toronto Leafs, is building up a strong International League team at Toronto. He has secured a young first baseman from Roanoke of the Virginia League who will fight it out with the veteran "Tim" Jordan for the position. Rochester also wanted the same fellow.

Manager Lee Magee of the Brooklyn Federals was notified yesterday by President Gilmore that he had been fined \$50 and suspended for two days on charges of rowdiness in the opening game at Brooklyn Saturday.

"Sam" Langford, who is to meet "Dan" Flinn before the members of the Montreal Sporting Club next Monday night will go to Montreal to finish up his training for the bout. Langford is a Canadian by birth, being born at Weymouth, N.S., in 1888. He is one of the best colored fighters now in the ring, and form his recent bouts has shown that he can still pack a punch.

Manager Schlafly of the Buffalo Federal team wired a protest against the Brooklyn victory on the ground that Catcher Land, after surrendering his place on the base lines to another runner, resumed his part in the game illegally. Gilmore will await a letter from Schlafly before taking action on the protest, he said.

Definite arrangements have been made to send two of Hamilton's athletes to the Boston Marathon on April 19th. One is Arthur Jamieson, the noted Indian runner, who will represent the Hamblers' Athletic Club, while the second is Cecil Phillips, of the Hamilton Y.M.C.A. The ability of Jamieson is well known, and it is believed that he will make an excellent showing in the grind. Phillips is making a name for himself as a plunger, although he has not shown any great speed in his long distance races.

"Jack" Johnson's famous golden smile was literally knocked off by Jess Willard at Havana. It has just been learned Willard knocked out both of Johnson's gold teeth which adorn the front of his mouth and rather than let the crowd know the white man had accomplished any damage, Johnson swallowed them.

Although the prospect of sculling race for the championship of America between Eddie Duran and Frank Hagney is fading on account of inability of the latter to make good a stake, there is sight a much more interesting affair for followers of rowing. That is the possibility of a visit to Toronto by Harry Barry, holder of the championship of England and of the world. While nothing definite has been learned, it is reported that Barry may come to Canada next month.

It is announced semi-officially that Freddie Welch has agreed to come to Montreal and box Frankie Fleming ten rounds on Victoria Day. The terms for this exhibition have not been divulged but it will probably be on the percentage plan, which is said netted Welch something like seventeen hundred dollars when he met Lustig.

Every time John Ganzel, manager of the Rochester Hustlers, opens his mouth for more pitchers, "More pitchers, more pitchers," he says. Without them, he points out, his practice isn't much of a success, for the greater part of it, in the early stages, consists of batting against some real curves. That is

what the players need most in the spring, aside from conditioning.

Hughey Jennings' chief worry at the moment is in regard to a first baseman. With Burns still laid up in a New Orleans hospital, with no prospect of being able to get back into the game before May 1st, Kavanaugh is being used at first for Detroit, but he is doing only fairly well. Unless he improves the veteran George Moriarity will probably be shifted-over.

The rule in the American Association regarding players this year will be 20 men for the first month and only 16 thereafter. Last year the limit during the greater portion of the training season was 20. By the end of this week the baseball season of 1915 will be well under way.

Wednesday will mark the opening of the National and American League seasons. Manager Stallings is said to be more than hopeful that the Boston Braves will repeat their victory of last year, in the National League pennant race, and subsequent world's series.

The American League pennant winners of last season have been widely scattered and the roster of the Philadelphia Athletics to-day looks like a skeleton of the wonderful playing machine which "Connie" Mack had so carefully assembled a year ago when at the outset of the season the pennant was practically conceded to the Mackmen.

An Eastern group will likely be added next season to the senior series of the Ontario Amateur Hockey Association. Vice-President Jim Sutherland of the O.H.A., who was in the capital yesterday on business, conferred with some of the amateur hockey men, and made a suggestion that will be acted upon in the near future. He proposes to take the Kingston Frontenacs, Brockville, Smith's Falls and an Ottawa team in a series group, the winners to saw off with the Toronto survivors, Reg. Sims, of the Aberdeens, favors the scheme, while Brockville and Smith's Falls have already signified their intention to join. Mr. Sutherland's suggestion is, of course, subject to the approval of the Ontario Hockey Association governors, but he believes that it would be sanctioned, providing the teams adhered strictly to the amateur definition as recognized by the Canadian Amateur Hockey Association.

**IN MARINE CIRCLES.**

**M. T. Co's Fleet To Start At End Of The Week.**

It is expected that some of the vessels of the Montreal Transportation Company will clear for the upper lakes on Friday night or Saturday morning. Every body is very busy around the company's yards in preparation for the season's work. This week a large number of mariners have arrived in port to take charge of their boats.

Capt. J. Wood of the steamer Kinmount has arrived from St. Catharines.

Capt. J. W. Sutherland of the steamer Northmount is here from St. Catharines.

Capt. Robert Graham of the steamer Rosemont has arrived from Collingwood.

Capt. H. Peters of the steamer Glenmont is here from Halifax.

Capt. Frank Howell of the steamer Westmount has arrived in port from Thorold.

Capt. William Liddell of the steamer Fairmount has taken over command of the vessel.

Capt. James Reech of the steamer Stomont of Nettawa has joined his boat at Midland.

Capt. Israel Daoust has arrived from Montreal to fit out the barge Dunmore.

Good progress has been made on the wharf being constructed at Portland by the Government. The structure is 230 feet long strongly built on substantial cribwork. The estimated cost of the wharf is \$5,000.

There is still a great deal of ice at Midland according to latest reports. The steamer Taylor has been out breaking it up.

The schooner Katie Eccles cleared for Oswego, to load coal for Kingston.

**FORMER KINGSTONIAN DEAD.**

**Albert E. Woolard Was Born in Kingston in 1862.**

Edward Crumley, Los Angeles, California, writes that he attended the funeral on April 5th of Albert E. Woolard, 370 East Washington street, Pasadena, California. Deceased was born in 1862 in Kingston, was a civil engineer, but removed to the State of Washington years ago and was active in building up towns in that State. Later on he removed to Pasadena where he lived retired on a fruit farm. He was a member of the Methodist Church, a lover of Kingston and a firm friend of any one who came from his native city. His illness was of short duration. He and his brother visited Kingston two years ago. His family lived near the Sibbet's, in Pittsburgh Township.

**STORY FROM SHORNCLIFFE**

**Of How British Destroyers Sank German Submarines.**

In letters received in Kingston a good story is being told of the work of the British navy. It seems, so the rumour around Shorncliffe camp goes, that several British torpedo destroyers found out the location of a supply ship to the German submarines. After sinking the supply ship the destroyers remained in that place for some time, and as the submarines returned for supplies they also were sunk. This story has appeared several times in letters from Shorncliffe camp where Lieut.-Col. Rathburn's Artillery Brigade is now stationed.

## WILL USE A BIG STICK

**RAILROADS TURN ON SHIPPERS WHO ORDER VIA PANAMA.**

**Boost Inland Centres—Special Rates Will Be Given From East To Mountain Cities.**

Washington, April 14.—That trans-continental railways propose to meet competition via the Panama Canal by making rates that will divert freight to points just east of Pacific Coast terminals for distribution was made clear in hearings before Interstate Commerce Commissioner Clark on the adjustment of rates in so-called back-haul territory.

Charles Donnelly, representing the Great Northern and other trans-continental roads, with terminals at North Pacific coast points, served notice on the claim of the carriers.

"If the construction of the Panama Canal," he said, emphatically, "has lowered rates to coast points to a degree that will make our Pacific coast terminals useless machinery so far as transcontinental traffic is concerned, we have the right to make rates that will send the freight to an intermediate point for distribution. If rates to Seattle prevent us from competing in the transcontinental trade we have a right to make a rate that will send that freight to Spokane for distribution in that competitive territory. And we propose to support that right before any court or commission."

Mr. Donnelly supported the railroads' proposal to cut the rates in back-haul territory by reducing the terminal rate which forms a part of the back-haul charge. Representatives of San Francisco, Tacoma, Portland, Seattle, and other seaport terminals opposed the plan, declaring it was a discrimination against them because it would operate to deprive them of the benefits of water competition—by lowering the rail rates from the east to nearby interior points. Representatives of Spokane and Sacramento supported the plan. Jos. N. Teal, representing Portland, Seattle and other Oregon and Washington seaports, and Attorney Mann, for San Francisco, declared that the proposal would give to interior points approximately the same rates enjoyed by the seaport terminals and would overcome the natural advantage of water competition.

**How You May Change Your Face Completely**  
Any woman not satisfied with her complexion can easily remove it and have a new one. The thin veil of stifling half-dead cuticle is an encumbrance and should be removed to give the fresh, vigorous, young skin underneath a chance to show itself and to breathe.  
There is a simple, old-fashioned remedy which will always do the work. Get an ounce of pure mercuric iodine, mix with a half pint of witch hazel and apply it to the face. It will gently absorb all the lifeless skin and leave a healthy and beautiful complexion as fresh as a child's. Naturally it takes with it all such facial blemishes as freckles, tan, moth patches, and Howards' River spots, pimples. It is pleasant to use, and economical. The face so treated soon looks years younger.  
To keep the skin free from wrinkles there's nothing quite so good as the mercuric iodine solution. It is only necessary to dissolve an ounce of powdered salicylic in a half pint of witch hazel and bathe the face in this as required.
