CHILD BORN WITH HARD GOLD

Remarkable Statement of Girl's Mother. How She Suffered Until Six Years Old. How Finally Cured.

Pittsford, Mass.—"My little girl now six years old was born with a hard cold and very delicate. Every winter she would suffer from croup and poor digestion. Dr. Carrier recommended Vinol and within a week she had improved considerably, and her appetite increased so she wanted things to eat that had disgusted her before. "On the first bottle she gained one and one-half pounds, and now at the age of six Vinol has made her a solid, healthy, good-natured child, and while sick she was so cross and fretful I grew discouraged, and was worn out taking care of her."—Mrs. GEORGE WAGNER, Pittsford, Mass. Vinol, our delicious cod liver and iron tonic, is a wonderful appetizer, and you can see that a delicate, ailing child improves day by day under its use. It enriches the blood, builds up the body, making pale, delicate children rugged and rosy. We ask all parents of weak, sickly, delicate children in this vicinity to try Vinol, with the understanding that if it fails to benefit your little ones, we return your money. Geo. W.
