WALDRON'S

IN MILITARY CIRCLES

21ST BATTALION HAD A GOOD ROUTE MARCH.

Dinner Served in Fair Grounds at Odessa—More Overseas Volunteers From the 14th Regiment.

On Thursday, the 21st Battalion went on a route-march to Odessa, leaving the city at 8 a.m. and returning at 5 p.m. Some of the men who could not stand the grind rode a part of the distance with the transports.

Considering that fifteen miles is a good day's march for the most seasoned troops, and that this can only be done with a full day's rest once a week, the record of the battalion on Thursday was highly creditable. It was a forced march all the way. No horses were used by any of the officers. Dinner was served in the fair grounds at Odessa from the battalion transports.

Col. T. D. R. Hemming is expected to return from Ottawa on Saturday where he has been inspecting the 38th Battalion in company with Major-General G. L. Lessard.

Eight more men have been secured for the 14th Regiment overseas volunteers since the Third Contingent detachment left a short while ago for Belleville. Twenty-nine men remained here and the thirty-seven are being drilled regularly.

Rifle practice in the Armouries was engaged in by the 21st Battalion on Friday.

The Signallers of the 21st Battalion as a unit have reached a very high standard of efficiency under the very capable instruction of Capt. A. M. Stroud. Signalling is recognized as one of the most important branches of the work and the choosing of capable men was quite a piece of work but the results have been worth it. There were no end of volunteers for the work as a great many applications were on file of men wishing to transfer from the different companies to this section but it is now up to strength and unless changes are made there will be no additions. The last two days were spent by the Signallers on Wolfe and Garden Islands and much good work was accomplished.

On Friday morning "C" Battery had its first full mounted parade on Barrifield commons. The plan followed was one that might very probably happen on active service and was very instructive. The battery was supposed to be bivouaced in Kingston, and at nine o'clock received orders to take up a position across the bridge on Barrifield Flats. At 9:40 a.m. the order was issued that the advance party was being held up by the enemy in the vicinity of Pugh's farm and the battery were ordered to engage the enemy, with the guns located on the rifle ranges. A short time afterwards the order was given to change the location of their fire to a clump of trees to the north of the Gananoque road, directly opposite the entrance to Cartwright's farm.

Forty-four officers and nine N.C.O.'s have made applications and been accepted for the fourth Royal School of Artillery course which opens on April 26th. Five battery commands have been accepted for the "brush up" course which is being held next week. The five who have so far applied are from Toronto.

The 26th Battery and "C" Battery will play indoor baseball Saturday afternoon. The 14th Regiment and "C" Battery will have a game of soccer the same afternoon.

STOLE MONEY AND REVOLVER.

Burglars Broke Into Montreal Street Meat Store. Burglars secured an entrance to the butcher shop of A. Rawson, 41 Montreal street, some time during Wednesday night, and made off with \$10 from the till and a revolver which was in the shop. Entrance was secured by breaking through one of the windows at the rear.

Married At Phillipsville.

On Wednesday, April 14th, at the Church of the Holy Martyrs, Phillipsville, the marriage took place of Miss Cecelia Kennedy, daughter of Mrs. Elizabeth Kennedy, Phillipsville, to Capt. J. D. Mahoney, son of D. Mahoney, Kingston. Rev. P. J. McKiernan officiated. The bride was attended by Miss Maudie Murphy, Kingston, Richard Mahoney, a brother of the groom, was groomsmen. The wedding march was played by Miss Loretta Murphy, Brewers' Mills. Capt. and Mrs. Mahoney left on a trip to Ottawa and other eastern points. They will reside in Kingston.

Small Craft Will Be Busy.

Navigation is opening up fairly with the smaller craft about Kingston. Some weeks ago the owners of these schooners were complaining about the larger boats taking away some of the trade in the coal transportation line, but since it has been ascertained that many of the latter are going on the coast trade it is thought likely there will be plenty of business for all. The Davis Drydock Company has received many orders for boats to enter its dock and since its opening a week ago business has been brisk. It is thought likely that for the next month the drydock will be greatly in demand and painting these smaller craft.

A Painter Injured.

John Hayes, who had the misfortune to fall from a chimney at the Kingston Steam Laundry, on Thursday afternoon, while painting, is doing nicely at the General Hospital, where he was received. The man in question fell sixty feet and outside of a few bruises no bones were broken. Dr. A. R. B. Williamson attended to the injured man and reported he would be around again in a day or two.

"Moth proof bags." Gibson's.

REPORTS PRESENTED

The Closing Meeting Of The Poor Relief Committee.

The City Poor Relief Committee held its last weekly meeting for the season just closed, on Saturday last, when reports for the past winter were presented. The needs of the past winter have been considerably greater than usual, though, perhaps not quite so great as had been feared; and the Poor Relief Committee, acting in co-operation with the St. Vincent de Paul Society met all cases of real need promptly on their being duly reported and verified. The Poor Relief Committee supplied 115 families with fuel and food, in cases of emergency, when neither of these necessities of life were otherwise procurable by them. Many Jews being found quite destitute of either—some of these containing a number of young children. It is believed that all cases of actual destitution were met, and much suffering prevented, though it was beyond the resources of the Committee to do away with all the privations which such circumstances naturally entail, when scarcity of employment and employment and high prices of food are combined, as they have been during the past season.

"SIX YEARS IN HELL."

To-morrow the Whig will publish a special article by William Huckle, entitled "Six Years In Hell," being an account of his experiences in the Kingston Penitentiary. At this particular time, when the Minister of Justice is being bombarded in the House right and left for his inactivity in making improvements in the penitentiary management and in not carrying out any of the suggestions recommended by the Commission, this article will prove rather timely and interesting. In it he revealed the workings of the institution as seen from the unfortunate who is obliged to become a cog in the wheel of a great machine. There are always two sides to a story, and in this article Mr. Huckle, who when they hear of a Detective Agency in Toronto, presents the case of the convict. He shows how harshly he is treated and how futile are his attempts to be heard in his own defense. Mr. Huckle speaks very plainly as to the conditions he found existing in the institution. The article will doubtless be very widely read, as it well deserves to be.

MARRIED IN CHICAGO.

Miss Livingston Weds Hubert O. Dempster. A very interesting event occurred in the Eighth Presbyterian Church, Chicago, on Saturday afternoon last, when Miss Livingston, daughter of J. Livingston, and Mrs. Livingston, Princess street, Kingston, and Hubert O. Dempster, B. Sc., C. E., of Vancouver, formerly of Gananoque. The marriage occurred in the presence of Mrs. W. J. Livingston and relatives living in Chicago. The bride was married in a travelling suit of blue gaberdine, trimmed with putty colored braid, a nixon blouse, and a putty shade hat trimmed with Belgian blue satin ribbon and pale pink roses. After the ceremony, the couple left for San Francisco, Seattle, thence to Vancouver to reside. Mr. Dempster is a graduate of Queen's University, and is also a licensed surveyor for Ontario and British Columbia.

CORRESPONDENTS NOTICE.

News matter mailed to the Whig in unsealed envelopes does not come under postal classification of letters and will not require the special war stamp.

St. Lawrence Lawn Bowlers.

W. H. Wormwith was the representative of the Kingston Bowling Club at the annual meeting of the St. Lawrence Bowling Association in Brockville. This year's tournament is to be held in Prescott on July 12th and next year, if possible, in Kingston. The officers are: President—W. R. Sills, Kingston. Vice-President—H. B. White, Brockville. Secretary-Treasurer—F. S. Evanson, Prescott. Executive Committee—D. W. Downey, Brockville; H. Hughes, Prescott; W. H. Wormwith, Kingston; Dr. McLean, Eastern Hospital; J. J. Gallagher, Westport; Dr. Preston, Newboro; R. W. Morley, J. L. Urquhart, Ottawa.

May Be Theft Case.

George Muller, bicycle dealer, rented a bicycle to a man on Thursday, but it was not returned. Word was received from Gananoque that a fellow was there endeavoring to dispose of a wheel valued at \$25 for the sum of \$8. Mr. Muller thought that perhaps it was his missing wheel which was being offered for sale, and as a result he is investigating the case.

New Stamp System.

The new stamp system was working well at the local post office on Friday. There was very little trouble with the city mail, but it is stated that quite a batch of letters were sent in from the rural district without the necessary war stamp. These will go to the dead letter office.

Crest For The Rileys.

If the Tom Rileys—the Missouri Tom Rileys—ever go in for a family crest, we suggest a grouping of horseshoes and a rabbit's foot or two as the main design.

The United States Ambassador at Berlin, on request of the British Government, has asked for information as to what Germany is doing in matter of punishment of thirty-nine British officers.

ENGINEERS OF QUEEN'S

WILL OPEN BARRIFIELD CAMP ON APRIL 29TH.

Officers Training Corps Will Not Go Into Camp—Queen's Stationary Hospital To Accompany The 21st Battalion Overseas.

Barriefield camp will open on April 29th, with No. 5 Company, Canadian Engineers, going into camp. This was announced at Queen's University on Friday morning.

Owing to so many men of the Officers' Training Corps going overseas, this corps will not go into camp this season. The results of the recent examinations are expected in a few days.

There are still one or two vacancies in the Universities' Company of the 38th Battalion and the names of any students who wish to volunteer have been asked for. There is a movement on foot to organize a second university company of the same battalion, and if enough Queen's students volunteer, Queen's will have several of the officers. Capt. P. G. C. Campbell is taking the names of all volunteers.

Orders have been received by No. 5 Company, Canadian Engineers, to take on recruits for both home and overseas service. The recruiting is quite brisk for this work.

The Engineers' qualifying class for subalterns and N.C.O.'s finishes on April 22nd.

It has been announced that No. 5 Stationary Hospital will sail for England at the same time as the 21st Battalion. It is understood that the Canadian Engineers now in camp at Ottawa will also sail at this time.

HELLO GIRLS HEROINES

Stayed At Posts When Russians Entered Memel.

London, April 16.—The London Times says the German press is now celebrating the heroism of a telephone girl at Memel. It appears that at 9 o'clock on the evening of the Russian incursion into Memel, Field-Marshal von Hindenburg rang up the Memel post office. In the course of his conversation with the girl who answered his call he expressed "his astonishment and joy that she and her colleagues had remained at their posts. Subsequently, when the Emperor's son, Prince Joachim, arrived at Memel, he visited the post office. He presented the heroine with a silver watch and also with words of lively recognition.

It is added that the telephone girls remained at work all night and left the building unmolested.

DECLINE INVITATION

Society of German Engineers Will Not Attend Congress.

Berlin, via London, April 16.—The Society of German Engineers has declined an invitation to participate in the Congress of Engineers at San Francisco by preparing papers to be read there. In taking this action, the society explains that German engineers at present are too busy with the war. It adds that because of American shipments of munitions to German's enemies it would be difficult to get German engineers to contribute papers for the congress.

Open New Business.

Fred. Simpson, a former Kingstonian, has returned to the city after an absence of fourteen years and will open a hat shaping and cleaning and feather renovating business at 281 Princess street. Mr. Simpson is thoroughly competent to carry on the business, having been employed for a number of years in some of the large hat factories in New York and Chicago.

New Beet Greens And Beet Root.

Asparagus, cauliflowers, carrots, spinach, cucumbers, rhubarb, tomatoes, mint, head lettuce, etc., at Carnovsky's.

"Bucher Kidney Pills." Gibson's.

Mrs. George Walker, Deseronto, and John Lyman, Badaxe, Mich., were married in Toronto on April 6th. They may move to Deseronto to reside.

Perth Golf Club has reorganized for the coming season.

P. J. C. MacDonell is President and A. C. Gourlay, Secretary-Treasurer. Judge and Mrs. Deroche and children, spending a month in the Bermudas, expect to return to Belleville this week.
