

PLACED KINGSTON COLORS IN WESTMINSTER ABBEY

Banner Presented by Kingston Veterans and Citizens to 22nd Battery Received by Dean Ryle on Monday to Keep Till War Is Over.

London, April 20.—A little ceremony not without its moving element and of historic interest in Canada took place at Westminster Abbey yesterday. At mid-day as the organ was playing "O God Our Help in Ages Past," and as the little company of the faithful who assemble daily to intercede for those fighting their countries battles were about to disperse a small party of Canadian soldiers marched through the grey cloisters, particularly cool and pleasant even in the noontide sun, at this early period of spring. They were officers and men of the Twenty-second Battery, Canadian Field Artillery from Kingston, Ontario, who had come to Westminster Abbey to deposit with the dean and chapter for safe keeping until the war is over the colors presented to them by "Veterans and Citizens of Kingston."

The officers present were Major W. R. Riordan, Capt. C. P. Fee, Lieut. G. T. Cassels and Lieut. N. H. MacAulay. The colors were under the charge of Sergt. Dixon. Twelve men representative of the battery comprised the rest of the party. On arrival in the nave of the Abbey the colors were unfurled and the procession reformed. The Dean of Westminster, Dr. Ryle, preceded by his mace-bearer, was the head, followed by the officers and men and less than half a dozen others, all Canadians, including Major Ingraham, Twenty-fourth Battery, Captain L. W. Cameron, Sixth Bri-

gade, and Mrs. MacLeod. The ceremony certainly lost nothing in significance by being conducted almost privately. The company made its way to the famous Henry VII. Chapel, rich in mediaeval associations, and holding many banners of famous knights. Dean Ryle, standing at the holy table, offered prayers. Officers and men and bystanders united with him in the great prayer for Christendom. Kneeling on one knee an officer then handed the colors to the dean who laid them reverently upon the holy table. A few moments later the short but intensely impressive ceremony was over. Dean Ryle upon leaving the chapel, assured the officers and men that the colors would remain safe in their dignified keeping, until they returned to claim them. A photograph of the participants was afterwards taken on the steps of the Cloister entrance. The dean then conducted the party through parts of the Abbey. It was particularly appropriate that he should point out in the Jerusalem chamber how Henry IV died there as he was setting forth for the crusades. The ceremony on the instructions of the dean will be duly related in the Abbey records now extending over tens of centuries.

The colors placed in the Abbey were presented to the 22nd Battery the day it left Kingston for overseas service.

SUBSCRIPTIONS RECEIVED

For Queen's Stationary Hospital Go in To The Front.

Previously acknowledged.—\$3, 285.55.—James Richardson & Sons, \$75.—Kingston Curling Club; \$25.—Prof. James W. Robertson, Macdonald College Ottawa; Harrowsmith Red Cross; Dr. J. W. Campbell.

HAIR COMING OUT?

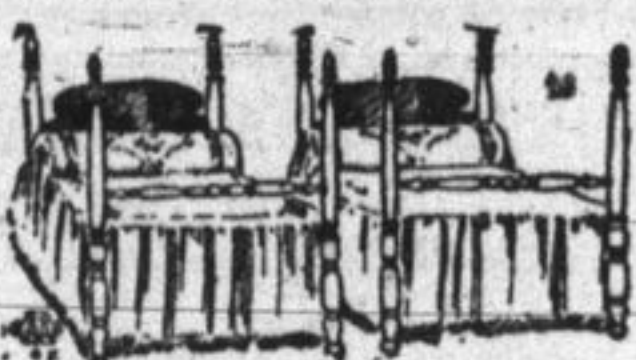

Dandruff causes a feverish irritation of the scalp, the hair roots shrink, loosen and then the hair comes out fast. To stop falling hair at once and rid the scalp of every particle of dandruff, get a 25-cent bottle of Danderrin at any drug store, pour a little in your hand and rub it into the scalp. After a few applications the hair stops coming out and you can't find any dandruff.

SPEED BOAT FOR MILLIONAIRE

To Enter Kingston Races On The 3rd Of June.

A Lapsland despatch says: The largest speed boat ever built in Lindsay, in fact one of the largest (if not the largest) speed boats ever built in Ontario, is on the skids at the Jesse Perrin boat works, Ridout street, here. It is being built for a millionaire who summers on the St. Lawrence in the vicinity of Kingston, and when fully completed and equipped will be worth \$4,000. The boat is being built in the Perrin Works by the Canadian Beaver Co., Toronto, and is of solid mahogany. Her lines are graceful and beautiful in every respect and when decorated she will be a very handsome craft. The boat is thirty feet long over all and has three inch beam. She will be equipped with a 220 horse-power engine, capable of propelling the boat at a guaranteed speed of forty miles an hour. When travelling at this rate five feet of her long nose will be out of the water. The contract calls for the boat to be ready at Kingston by May 1st and it is expected she will be in the trim for the annual regatta at Kingston on June 3rd.

"LANTIC" SUGARS.

Splendid New Plant Just Completed At St. John N. B.

St. John, N.B., has the distinction of securing the largest and most important industry which has located in Canada for some months. The Atlantic Sugar Refineries, which commenced operations a few days ago, has been two years under construction. The plant is located on the water front, being so situated as to receive its raw material from ocean-going vessels and trans-ship the finished product either by rail or water to all parts of the country. These factors, combined with improved machinery and labor saving devices, will enable the company to manufacture a higher grade sugar without increasing the cost to the consumer. The plant, which is the very latest in sugar manufacturing concerns, has a capacity of one million pounds per day, while the output will go out to the consumer known as "Lantic" Sugar. The directors have made a special study of requirements of the trade and of the consuming public and believe that they will be better able to satisfy the demands of the public than any brand now in the market.

CITY BASEBALL LEAGUE.

The Teams Are Practising On The Cricket Field.

Every team in the City League is out practising on the Cricket Field daily getting into shape for the season's games. The question of granting admittance to the 26th Battery into the League is still in abeyance, but it is expected to be settled soon. The team that the Battery intend to play is composed of the "Varsity" men who played in Toronto Senior City League last year. The question of professionals was brought up at Saturday's meeting. There are too many well-known amateur sports in the Battery to consider this for a minute. They would not endanger their amateur standing by playing professionals with so little at stake. The only bad feature of the fourth team's entrance is the necessary double-heading of games that would have to be arranged. The first game would have to start sharp at 2 o'clock, and a number of the players on one team at least say it would be impossible for them to be there on time.

WILL BANISH LIQUOR

"TOM" RILEY SAYS HE WILL NEVER DRINK AGAIN.

His Declaration Should Serve As a Great Temperance Sermon—Liquor Was Cause of His Downfall.

"I swear that I will never take another drink of liquor as long as I live."

This is what "Tom" Riley, the man from Missouri, had to say when he was liberated from the Portsmouth penitentiary and the declaration of the railroad who was sentenced to fifteen years on a charge of murder, should serve as a great temperance sermon, as it was the use of strong drink that placed him behind prison bars. He was not a heavy drinker. He was just a moderate tippler, but like a great many more, just happened to get "a drop too much," and then lost possession of himself, and because a bartender refused to give him a drink he pulled out a revolver and shot the man who stood behind the bar. He did not know that he had committed murder, and was stunned when he was told the story after he came to his senses. His case was an example of what a man is liable to do when in liquor.

"Tom" Riley was one of the best known and most respected railroad men in his home town. It was while on a spree he made his way to London, where he committed the crime. Those who know him best state that the eleven months he spent in the penitentiary has made him a changed man, and that he will make good his promise never to touch liquor again.

Furthermore, his friends say that in his case the punishment he has already undergone has been sufficient, and that should he be re-arrested and placed in the penitentiary again, the long sentence would not tend to make him a better man. Now that he has been set free, his friends intend to put up the fight of their lives to keep him a free man.

Foolish To Stay Away.

A despatch from London says:

"Tom Riley is a fugitive from justice, who can be extradited for his original offence; and, in addition, he is a very foolish boy, for they will put him in penitentiary again, and this time he will stay there. He had the chance to put himself right with the authorities by coming back. This would have brought him a speedy parole, and perhaps an immediate pardon, but when he tries to hide, he is making a mistake, for they will get him, just as the chief and "Tommy" Nickle got "Peg-Leg" Brown."

This was the statement of a police official in regard to the attitude of "Tom" Riley, who killed George Blackburn and got out of prison, where he was serving a 15-year term because of a "duke," whereby he was released in place of another man.

A story was in circulation that Riley had decided to give himself up because of the urgings of a friend in this city, but there was no confirmation of this. It was stated that Rev. H. H. Bingham, who was his spiritual adviser, and to whom Riley wrote his professions of conversion, had written to Riley, asking him to return and give himself up.

As the result of a communication received from Thomas Riley, Edmund Meredith, K. C., who appeared for the former when he was on trial here for the killing of Blackburn, has sent instructions, that will not be made public, to the man who was deported from Kingston to the United States.

VAUDEVILLE AT THE GRAND.

Another High-Class Bill To Be Seen On Wednesday.

The bill presented last evening at the vaudeville entertainment at the Grand Opera House was high-class and much appreciated by the large audience. Miss Annette Link, who possesses a rich soprano, sang "High Time in Dixie" and "You Are Always Welcome at Our House." In the dancing and singing act, a buck dance she displayed agility and artistic accomplishment.

"Jack" Morrissey, Australia's stock whip, lasso and sharp shooting expert, gave a fine exhibition of the work of an Australian bush-man. His expertness with the whip in brushing sticks from the hair of his assistants and his shooting in different positions won for him applause. The photo-play feature showed Mme. Bertha Kalich in "Martha of the Lowlands." The Mutual two-reel photo play, "Was Not of This Flock," and the comedy one, "Shotguns That Kick," were good.

The bill will be presented on Wednesday afternoon and evening. There will be no vaudeville to-night as "Mutt and Jeff in Mexico" will occupy the stage.

Examination Of Your Eyes.

Demands patience, time and skill. Haste never made good glasses. Our eyesight specialist, H. C. Brown, Oph. D., believes in a thorough examination for every patient, and glasses ground true to test. Glasses from Rodger's mean eye comfort to you. Rodger Optical Parlors, 347 King street.

Beer Pumps On Strike.

Two beer pumps in hotels went on strike Monday night and refused to work. On Tuesday morning they were still out of commission and many thirsty people were anxiously waiting around the bar for the stream to begin to flow. Of late the beer pumps have been overtaxed and even the best will break down under a constant strain.

Chased By Submarine.

J. Oppen and wife living near London, Eng., have arrived in the city to take up their residence here. They made the trip over on the steamer Missanabia which had such a thrilling time when chased by submarine. Women are changeable—except that they always have the last word.

CAMPBELL BROS.

The Big Hat Dealers

AT THE GRAND.

To-night "Mutt and Jeff" in Mexico. "A little nonsense now and then is relished by the best of men" and women too. The old adage is proven over and over again by the continued and most extraordinary success of Gus Hill's productions of "Mutt and Jeff." New York's best citizens, butchers, bakers and undertakers all turn to the "funny papers" in the morning newspapers to see what those two funny fellows "Mutt and Jeff" are up to, nor is the habit confined to any class, creed or status of life's success. The banker, the lawyer and the judge, enjoy the daily cartoons as well as his less fortunate brothers and applaud Bud Fisher's satirical humor. Millions of the best people in America have laughed at Gus Hill's company presenting "Mutt and Jeff" in their various plays and will continue to laugh at them as long as Bud Fisher and Gus Hill can keep up the pace. At the Grand to-night.

Washing Won't Rid Head of Dandruff

The only sure way to get rid of dandruff is to dissolve it, then you destroy it entirely. To do this, get about four ounces of ordinary liquid arvon; apply it at night when retiring; use enough to moisten the scalp and rub it gently with the finger tips. Do this to-night, and by morning most if not all, of your dandruff will be gone, and three or four more applications will completely dissolve and entirely destroy every single sign and trace of it, no matter how much dandruff you may have. You will find, too, that all itching and digging of the scalp will stop at once, and your hair will be fluffy, lustrous, glossy, silky and soft, and look and feel a hundred times better. You can get liquid arvon at any drug store. It is inexpensive and never fails to do the work.
