A SWAGGER COAT.

A new coat model that attracts attention by its shapeliness, varying widely from the close, clinging effect.

The close clinging topcoat is a thing of the past. No longer are its lines flat and inconspicuous. There is an air of almost boastful smartness about its folds and rippling lines. Rough tweed is used for this model, made with raglan sleeves and jaunty cape. In addition to the cape the back has also a broad pleat running from neck to hem and a half-belt secured at either end.

To make the coat requires 2 1/2 yards 54-inch material. The front has to be cut from an open fold of the tweed, and from this same breadth of goods may be obtained the cape, cuffs, collar and sleeves.

Now, folding the material, lay the back on the lengthwise fold and on the opposite edge place the underfacing of the front.

The back is the most difficult part of the construction, the front being easy to manage after the underfacing is stitched in place, pockets added and

Let's Improve Our Neighborhood Like This

"This street has improved a hundred per cent. It is a fine example of neighborhood improvement."

"A few neighbors started the movement. Each painted his home and planted grass and flowers. Then the spirit of 'Neighborhood Improvement' spread down the whole street with the result that you plainly see. It is a far pleasanter neighborhood to live in, while property values have increased amazingly. Let's each of us get busy and begin improving our neighborhood like this."

You will render wonderful service to yourself and neighborhood if you improve your home and surroundings. The first essential is good paint, and the paint you can depend upon to be good is

It will be a disappointment to your friends to enter your freshly painted home only to find the interiors dull and dingy. There is need to protect and beautify them too. What "High Standard" is to the exterior

"High Standard" is scientifically made to withstand the weather. Exposure tests and service on thousands of buildings prove that it wears longer than ordinary paints. "High Standard" will keep your house looking fresh, bright and perfectly protected against decay for years.

Totally Discouraged by Nervous Prostration

After Many Weeks of Doctoring a Friend Recommended Dr. Chase's Nerve Food, and She Was Cured.

There is nothing more discouraging than Nervous Prostration. Because of the exhausted condition of the nervous system, weakness and helplessness take possession of the body. The faculties of the mind as well as those of the body are affected and hope and courage disappear.

The patient, often appearing well, gets little sympathy, and few doctors understand diseases of the nerves well enough to treat nervous prostration intelligently. Dr. Chase's Nerve Food is founded on the prescription of a great nerve specialist, and hence its wonderful success in curing ailments of this nature.

Mrs. Edith May Williams, Tillsonberg, Ont., R. R. 2, writes: "I cannot speak too highly of Dr. Chase's Nerve Food. I suffered for years with my nerves, and at one time I was confined to my bed with nervous prostration for several weeks. I cannot just explain my feelings, but

I was weak and helpless and so discouraged and despondent that I thought I would lose my mind. I doctored with several doctors and received but little benefit. At last I became very much discouraged and thought I would never get better. A friend advised me to try Dr. Chase's Nerve Food, and before I had finished the first box I knew that it was helping me. It took several boxes of the Nerve Food to make me well and I can truly say that it is a wonderful builder-up of the nervous system."

It is only wise to prevent such dreaded diseases as Nervous Prostration, Paralysis and Locomotor Ataxia by keeping the nervous system in good condition at all times. When you cannot sleep well, have headaches and indigestion, be warned of approaching dangers and restore the nervous system by using Dr. Chase's Nerve Food. 50 cents a box, all dealers or Edmondson, Bates & Company, Limited, Toronto.

WRIGLEYS'

is the one confection that can be used by everybody with perfect assurance that it is not harmful in any way.

If it did nothing else except to prevent acid mouth and bad breath, it would be a boon to mankind. But it's helpful in many ways.

It quickens appetite, aids digestion, brightens and preserves teeth.

There's joy in its full, long-lasting flavors: cooling, soothing Peppermint or the delicious tang of fresh Mint Leaves.

It keeps thirst away—helps to steady stomach and nerves!

It's fine when you are feeling out-of-sorts, but don't wait for that! Keep in trim! Chew it after every meal!
