IN MILITARY CIRCLES

LONG MARCHES OF 21ST BATTALION ARE POSTPONED

As the Shoes of Many of the Men Were Worn Out By Their Marches Over the Country Roads.

As a compliment to the visitors of the Assault-at-Arms the Royal Military College, the 21st Battalion took their usual morning march through the city streets. The battalion was out in full strength and presented a fine appearance. In speaking of the Assault-at-Arms Lieut.-Col. W. S. Hughes said: "I have seen a great number of them at the Royal Military College, but I must say that the programme on Wednesday was better than any I have ever seen and there have been some excellent ones over there."

The 21st Battalion has had to temporarily postpone its long route marches, as so many of the shoes of the men were worn out by long marches over the country roads that repairing was necessary. A number of men are busy with the work and as soon as they are completed the regular work will be resumed.

Russell Revelle has been taken on the strength of the 14th Regiment for overseas service with the Third Contingent.

"Sj'd" Munro, the Toronto West End basketball player, and an employee of the Hydro-Electric, has secured a place with the 26th Battery and will report Thursday. He is well known in Toronto sporting circles.

Major Burritt, C.R.C.E., is drawing a plan of Barriefield and is making the selection of the areas that will be used by the different units to be in camp there.

The annual camp for students of the School of Mining opened at Barriefield on Thursday morning, with about sixty students enrolled. Capt. W. P. Wilgar is in charge of the camp, which is located in the same position as last year. The camp will last for ten days.

FIRE TWO BRIDGES.

(Special to the Whig.) Vancouver, April 29.—German sympathizers are alleged to have fired the Granville and Connaught bridges, the main arteries of the railroad traffic southward near here to-day. The great Connaught bridge will be a total loss. The wind is unfavorable for the destruction of the Granville structure, and it probably will be saved. Together the bridges cost over a million dollars. These fires followed immediately after the Government this week started rounding up all Germans and Austrians to detention camps. Following the announcement of heavy casualties among the Canadians at Langemarck, the Germans hoped to make a demonstration at Point Grey.

McCONNELL-TISDALE

Wedding Solemnized in St. Paul's Church Wednesday Evening.

A pretty wedding was celebrated in St. Paul's Church on Wednesday evening, when Miss Pearl Evelyn Tisdale, youngest daughter of Mr. and Mrs. Louis Tisdale, 91 Bagot street, was united in marriage to Alexander McConnell, elder son of Mrs. J. McConnell, of the Colliery Hotel.

The bride was attired in a sand-colored suit of broadcloth, with hat to match, and carried a shower bouquet of green roses and also a white prayer-book, the gift of Mrs. W. E. Fitzgerald. The bride was given away by her father. The bridesmaid was her sister, Miss Lulu Tisdale, who also was attired in a sand-colored suit of broadcloth, with hat to match, and carried a bouquet of pink roses. The best man was the bride's brother, Harry Tisdale.

The bridal party entered the church to music furnished by the 21st Battalion brass band, which played the Mendelssohn wedding march. The surpliced choir sang during the service.

After the ceremony the bridal party proceeded to the home of the bride's parents, where a wedding supper was served. The toast to the bride, proposed by Canon Fitzgerald, was responded to by the groom. Harry Tisdale sang "Oh Perfect Love."

The groom's gift to the bride was a sunburst of pearls; to the bridesmaid, a pearl brooch, and to the best man a tie-pin. The couple were recipients of a great number of beautiful and valuable gifts, among them being one from the choir of St. Paul's Church, of which the bride is a member.

LIEUT. JARVIS KILLED.

Well-Known Toronto Athlete Among The Canadians Slain.

Toronto, April 29.—Lieut. W. D. P. Jarvis, whose name is in the list of those killed, was a son of Aemilius Jarvis, and prior to leaving for active service was a lieutenant in the Governor-General's Body Guard, with the quota from which he went abroad. Lieut. Jarvis, who was only twenty-two years of age, had the reputation of being a particularly fine young athlete. He played as quarter-back on the Argonaut rugby team, was a splendid horseman, a well-known sailor, and a keen soldier. He was also a member of the Toronto Stock Exchange. His father is at present in London, having just returned there from Russia, and has recently been joined by Mrs. Jarvis and a daughter. Two other sisters and a younger brother of Lieut. Jarvis are at home in Toronto, his elder brother, Aemilius, Jun., having also gone abroad on active service.

The Non-Jury Supreme Court sittings will open on May 25th and will be presided over by Justice Southey.

P. Smith, Oshawa, was in the city on Thursday.

NOT DESIRABLE SITE.

Kingston needs an incinerator for the destruction of garbage but it does not need to have it located in the most beautiful part of the city. When Kingston's town planning becomes a purposeful scheme the water front from Gore street westerly promises to become a much-desired resort. The Water Works property can be made most attractive, with such a garden about it as can be seen in many American cities. If an incinerator were located there it would be a serious detraction.

The new plant will cost money, and its location is for all time to come, hence our conviction that the Water Works property is not suitable for this purpose. It is in the midst of the best residential sites; it is too close to the water; it is too near public resorts, the Park, the Yacht Club, and what is hoped some day a new hotel on the Carruthers site. For these and other reasons the incinerator should be elsewhere. Garbage waggons passing around this desirable city section would not be a pleasurable sight.

Let the incinerator be built in a less conspicuous place, equally easy of access, but less prominent. The Utilities' Commission does not care for the incinerator on the Water Works grounds, but it puts the onus for its location on the Council.

The garbage committee thinks it can get revenue, up to \$2,000, from the plant, but the Commission, while willing to buy the steam power, does not believe it can produce anything like the quantity estimated. Rather than put the new equipment at the Water Works the Council might forego any pecuniary advantage from the sale of steam, especially as evidence accumulates to prove that it is a negligible thing.

By all means have an incinerator but not at the site proposed. It would mitigate against the future development of the best breathing places the city now possesses.

INCINERATION OF GARBAGE

To Be Considered By City Council This Evening.

A special meeting of the City Council has been called for this evening to take action upon the report of the Garbage Committee with regard to the erection of an incinerator at the Water Works plant.

Objection to the proposed scheme is raised that the incinerator should not be erected at such a prominent place.

A special meeting of the Civic Finance Committee was held on Wednesday afternoon, and the garbage collection contract with Smith Elliott was renewed for two months, the contractor to receive a bonus of \$50 a month in addition to the contract price of \$90 a week.

OBITUARY

Death Of Sunbury Lady.

At Sunbury on Thursday the death occurred of Mrs. Sarah Jane Robinson, aged eighty-nine years. The deceased for many years had been a resident of the above place and was known for miles around by many, who held this old lady in the highest esteem.

The Late E. O'Brien.

Word was received in the city on Wednesday that Edward J. O'Brien, formerly of this city, had died at Tacoma, Wash., after a brief illness. The remains will be brought here and buried from his sister's residence, 267 Union street. Deceased was a son of the late Lawrence O'Brien.

The Late Lieut. C. W. Day, M.A.

Particularly sad was the news that Lieut. C. W. Day, Kingstonside, had died almost at the same time as Major Bennett fell leading the charge of the Second Battalion at Langemarck, near Ypres. Lieut. Day was a classmate of the writer at Queen's University, and was one of the most brilliant students that have gone to that University. In 1912 he graduated in Arts with the degree of M. A., and was for a time lecturer in the Science Faculty. He won, among other prizes, a valuable scholarship at Harvard University, and since his graduation, has been doing post-graduate work at the great American University, where he would likely have received his doctor's degree, the highest degree in a university, this year. He was very young, being about twenty-five years of age, and had the prospect of a most useful and brilliant career. Now, he lies dead in France, having given up everything, degrees, medals, career, life, for his country. Lieut. Day was a member of the famous year 'Twelve in Arts, other members of which are on active service. We are safe in saying his Alma Mater will not let his heroic sacrifice pass without a suitable memorial in the halls where he first won distinction.

The Famous Estey Organ.

We are sole representatives for the World's famous Estey Organ. Church committees who are interested in the purchase of a chapel organ would do well to have their representatives inspect the Estey Organ with transposing key-board. On exhibition at our warehouse, 121 Princess St., C. W. Lindsay, Ltd.

W. H. Brady, Toronto, passed through the city on Wednesday night in his new automobile, on his way to Lansdowne.

MOTOR CYCLIST FINED

FOR SPEEDING ON PRINCESS STREET SATURDAY NIGHT.

Police Constable Arnel Used a Stop Watch To Catch Him—Man Fined For Making Himself Offensive.

The police are getting after all motor-cycle "joy-riders" if they persist in speeding. James Duffy was charged in Police Court on Thursday morning with speeding on Princess street on Saturday night and fined five dollars. Police Constable Arnel said that he had been supplied with a stop-watch by the Chief of Police. On Saturday night he with W. H. Wylie, Children's Aid Society Inspector, was standing at Sargent's corner when the accused came down Princess street on his motor-cycle. The stop-watch showed that it took only five seconds for the machine to go from the corner to a light in front of Laidlaw's store and this distance when measured later by himself, the City Engineer and Police Constable Mullinger was 167 feet. The machine must therefore, have been travelling about twenty-two miles an hour.

Mr. Duffy explained that he had looked at his speedometer a short time before, but on the hill a little speed might have been gained. This is the third charge that has been made for speeding on a motor-cycle this spring.

James Nould made a nuisance of himself to two ladies with baby carriages on Princess street on Wednesday, and was arrested by Sergt. Snodden and Police Constable Cotter. He was touched a dollar and cost on each occasion. He remarked, "I'll settle," as he was ushered out of the Court Room.

HAVE REACHED ENGLAND.

Mrs. Lindsay Malcolm on Thursday received a cable from her husband, Major Malcolm, who commands the Queen's Engineering Corps which left Ottawa recently to proceed Overseas, stating that they had arrived in England without mishap.

REFUSED 17 1-8 CENTS.

For Cheese Offered On Frontenac Board Thursday.

At the Frontenac Cheese Board meeting on Thursday afternoon, 17 1-8c was offered for white cheese, but the offer was refused. This is a record price. The market opened at 15c bid by L. W. Murphy and in quick order the bid was raised to 17 1-8c for the white offered, and 16 9-16c by G. A. Smith for all the colored. The latter bid was only accepted by Forest Factory, L. W. Murphy, J. Gibson, city; G. A. Smith, Parham; George Thompson and George Cleall, Napanee, were the buyers present. Mr. Cleall represented Alfred Alexander, Napanee who is ill.

The following factories boarded cheese: Elm Grove, 25; Forest, 40; Glenvale, 35; Bay View, 40; Collins Bay, 30, all colored, and Glenburnie, 50 white. In the absence of the president, George Potter presided.

Actor Took Wrong Horse.

A member of the "Fygallion" Company came very near getting into trouble at Parham while coming to the city on Wednesday. In the wait of an hour between trains at Parham Junction, the actor went to Parham village three miles away. He had telegraphed for an outfit to be at the station and when the train pulled in he immediately took possession of the only vehicle waiting, thinking it the one he had arranged for. The six miles of the drive were made in record time and the actor was congratulating himself when he was met at the station by George Killins who asked for an explanation for the stealing of his horse from the station. Profuse apologies followed.

Vandeville At The Grand.

The new programme to be presented on Thursday afternoon and evening promises to be very attractive. It includes Sadie Fondlier, slack wire and musical act; Warren and Graham; singing and dancing; and the Paramount Company's photo-play with Theodore Roberts in "The Circus Man," a story of life beneath the great white canopy; a two-reel Mutual photo-play and a Keystone comedy.

At the residence of the bride's mother, Belleville, a pleasing event took place on Wednesday when Miss Annie Miller, daughter of the late John Miller, was united in marriage to John Brintnell.

Cool WASH GOODS

If you are planning a pretty Summer Dress you will find here a great collection of new materials for summer wear, and this is the time to make a choice when color ranges are complete. We mention a few of the many we have:

COTTON CREPES
