

New Ways to Curl Hair Without Heated Irons

Hair dressed with the curling iron is bound to become dry, harsh and brittle, as so many know from sad experience. It is far more sensible to use plain liquid silmerine, which can do no harm and which produces the loveliest wavy effect imaginable. It takes so little time to apply the silmerine and the hair can be made to curl in any form to any extent to conform with any style of hair-dressing. A few ounces from the druggist will last a long time, as it is not at all expensive. Liquid silmerine is not greasy or sticky and it doesn't stain or break the hair or scalp.

Comfort and Cure for Baby's Skin Troubles

Dr. Chase's Ointment Cured When Baby's Body Was Covered With Distressing Eczema.

If every mother could try Dr. Chase's Ointment for the chafing, skin irritation and resulting eczema which tortures so many babies, what a blessing it would be for the little ones.

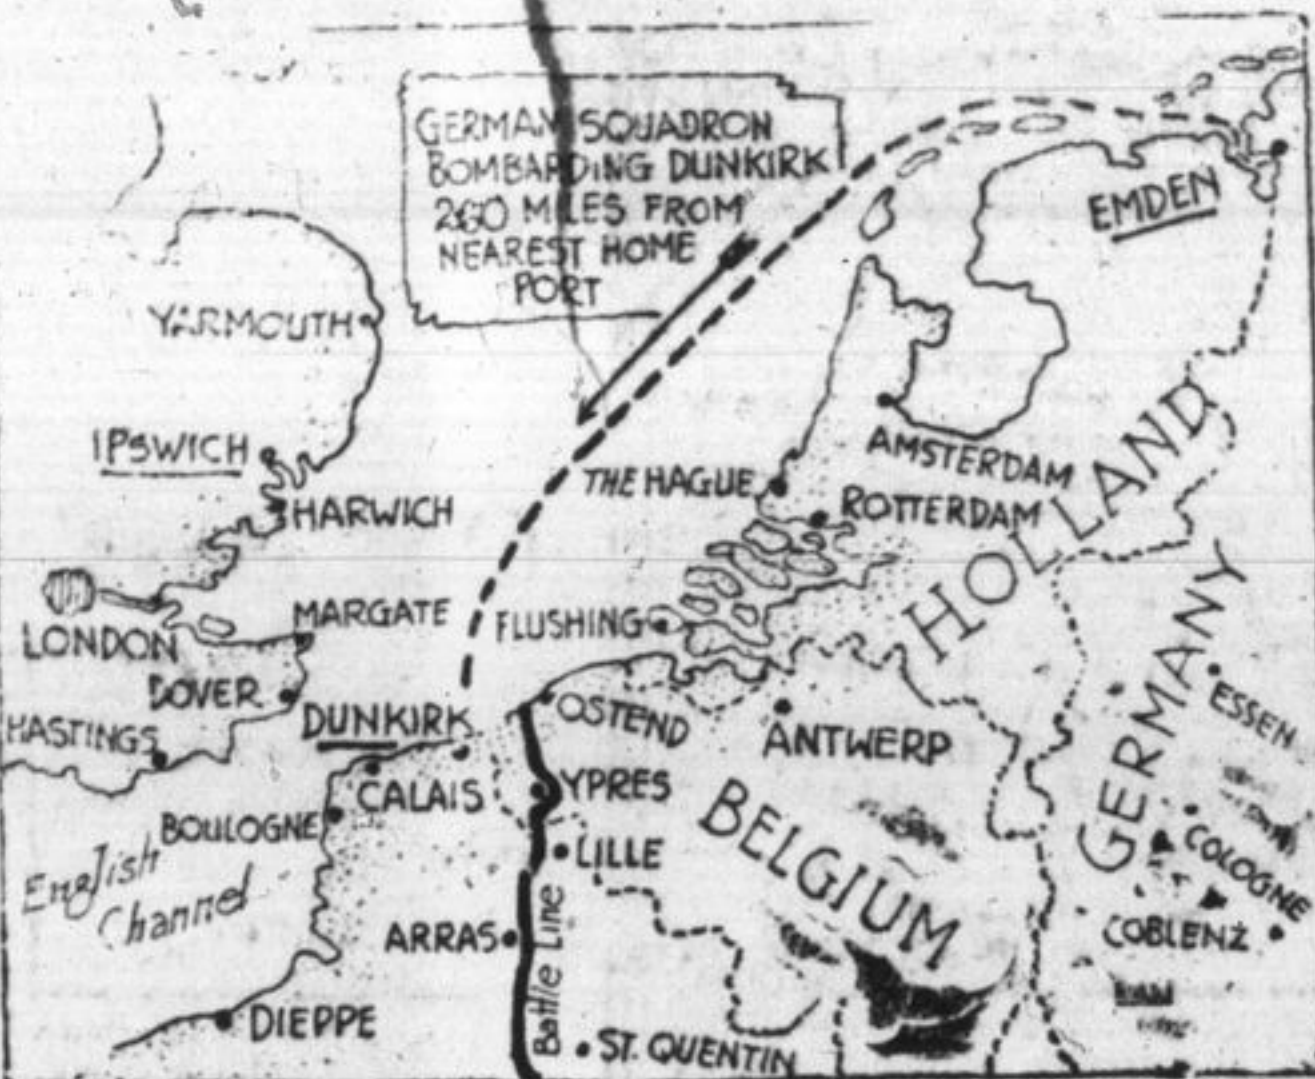

This letter will give you an idea of what a wonderful work this Ointment is doing in the way of bringing comfort to children who are so unfortunate as to contract eczema. It is so easy for this trouble to develop from chafing or irritation caused by the clothing, and so difficult to get cured, that Dr. Chase's Ointment is appreciated when once its healing qualities are known.

Mr. M. L. Duclos, Postmaster, Dugnyville, N.B., writes: "I believe it is my duty to recommend Dr. Chase's Ointment as a cure for eczema. My baby was seized with eczema and his face and arms were covered with this terrible disease. After trying all sorts of ointments the disease continued to spread until

it covered the entire body. When the itching became bad he would scratch himself and was sometimes found in his cradle covered with blood. Hearing about Dr. Chase's Ointment I bought two boxes and before this was all used the child was cured. That was a year ago, and there has been no trace of eczema since. I recommend Dr. Chase's Ointment to all who suffer from eczema as being the best treatment in the world for itching skin diseases.

Dr. Chase's Ointment is for sale by all dealers at 50 cents a box. It is a good idea to keep it at hand along with the bath soap to be used for roughness of the skin, chafing or irritation. Prevention is so much better than cure. Powders clog the pores, but Dr. Chase's Ointment cleanses the pores and thereby keeps the skin soft and smooth. Sample box free if you mention this paper. A LACK OF DISCIPLINE

CAUSED THE GERMAN MUTINY AT FORT HENRY.

The Guard Allowed the Prisoners Too Many Liberties—The "Lights Out" Order Was Not Carried Out.

After the mutiny at Fort Henry on Thursday afternoon the discipline of the war prisoners has been ordered to be much more strict than formerly. The principle that the more liberty a man gets the more he wants, was the direct cause of all the trouble at the fort. Some time ago, on the demand of the prisoners, the soldier in charge of the canteen was replaced by a German. The next demand was the removal of the assistant cook who was formerly chief in a local hotel, and a recognized splendid cook. This demand was acceded to and the demand for a complete German staff in the kitchen was granted. The agitators are more educated than the rest and have been creating trouble all the time. The guards had orders to use force only as a last resource. The guards were not as strict as they should have been in maintaining discipline. One example of this was the German's defiance of the "lights out" order. Night after night the prisoners would burn their lights until ready to go to bed.

The spirit that prompted the revolt of Thursday was a most natural one. After having been granted all the demands that they made, the prisoners were confident that they would secure control of the kitchen. It is the opinion of officers here that a portion of the guard should have been chosen from the permanent force. Men who were used to the strictest discipline would discipline others if they did not obey orders.

A Superior Service. The Grand Trunk has a superior service between Montreal and Toronto, and which is demonstrated by the popularity of their fast trains between these two cities. In addition to the splendid equipment on the International Limited, on which train is carried a Pullman Observation Library car, Parlor Library Car and Dining Car, leaving Kingston every day in the year at 12.30 arriving at Toronto at 4.30 p.m., the magnificent roadbed, laid with one-hundred-pound steel rails, has become so well known to the travelling public that the result is obvious.

Vandeville at the Grand. An excellent bill has been secured for the first three days of a next week at the Grand Opera House. The programme includes Paramount Pictures, produced by the Famous Players Film Company, in which Charles Frohman presented Mari Doré, in her greatest stage triumph, "The Halls of Marsyas," in five acts, a one-act Keystone comedy and a two-reel Mutual photo-play.

The vaudeville consists of Miss Lama Howe in a singing act, and the two Zyls, sensational zythophonists, a novelty musical act entirely new to the theatre-goers of Kingston.

Miss Devlin, Perth, died in Toronto on April 27th. Her remains were interred at Perth. She had two brothers, William of Drummond township and Charles, Perth.

Robert Lawson, Middleville had had his outbuildings struck by lightning on Wednesday which were burned to the ground. He had \$450 insurance.
