SOME OTTAWA GLIMPSES Special Correspondence by H. F. Gadsby. The Psychology of Elections

Ottawa, May 6.—The idea of a general election this year has not been abandoned. The date has probably been shifted from June to September. The Government believes, that September is its lucky month. Outside the hunch that the month they came in on is the month they ought to try it again, the party has several other good reasons for favoring September. By that time the war will be over or the end of it will be in sight and hearts will be caught on the rebound. The sense of relief will be so great that Canada will return the Conservative Government to power in spite of its shortcomings. This theory, which leans heavily on the reflex action of public opinion, is being loudly proclaimed by the psychologists in the Cabinet and the party at large. The Honorable Bob Rogers, who is not a psychologist but a plain everyday politician who wants an election when he wants it and not three months afterwards, says that this is all piffle. He hasn't much use for a course of psychologists who can't recognize the psychological moment when they see it. All sorts of arguments have been employed to persuade the Minister of Public Works that September is the month of destiny but to all such arguments he has substantially replied. "Why did you make me Minister of Public Works if you didn't trust me to know when to work the public?" Which is a riddle that takes a lot of reading. The Minister of Public Works, so the Honorable Bob argues, is generally put there to keep his ear to the ground, to know when it's time to back up and when it's time to get out and holler. He may be short on psychology but he is long on human nature. He can always tell when the boys are hungry and when it's hard to hold them in line any longer. By virtue of his position as the clearing house of party politics, the Minister of Public Works faces the facts and faces them first. When Sir Richard McBride visited Ottawa not long ago, he bled him straight as a homing pigeon to Bob Rogers' office. Although he had business with the other Bob who heads the Government, he saw Bob Rogers first. Then the two Bobs got together, thus making a pair of Bobs, and they told Sir Richard that it was going to be hard sledding and that he had better put off his election for another year because British Columbia, as it stood, could not do better for the Conservatives and would inevitably do worse if it started something. This explains why British Columbia is hung up by the seat of the pants until the Ottawa Government is ready to take it off the hook. Similarly, it has been the fate of

Convicted Of Murder. Calgary, Alta., May 6.—Richard Lyons, alias Payne, former Manitoba militiaman, was this afternoon found guilty of the murder of Roy Blair at Calgary, brakesman, whom he shot when discovered beating his way on a freight car of Bobs, and they sentenced to be hanged at Leith-bridge jail on July 20. The jury added a rider recommending mercy on the ground that the shooting was done without the intention to kill. Gets Five Years. Montreal, May 6.—Adolphe Desroches, who, while a member of the Montreal police force, a few months ago was implicated in robbery and was dismissed from the force for the same reason, was sentenced to St. Vincent de Paul Penitentiary for five years for assaulting and robbing a woman recently. G. T. R. Traffic Increasing. Edmonton, Alberta, May 6.—To handle increasing passenger traffic between Edmonton and the Pacific coast another train will be put on after June, giving a tri-weekly service between Edmonton and Prince Rupert, via Grand Trunk Pacific. Belleville's Assessment. Belleville, May 6.—A statement issued by City Assessor Kerr shows the total assessment from the city to be \$7,122,390.50, an increase of \$325,913. The population of the city is 12,620, being an increase of 752 over last year.

BANK AT CAPE VINCENT Syracuse Man to Look After Bank Closed By State. Watertown, N.Y., May 6.—H. J. Young, Syracuse, state bank examiner, is now in charge of the Bank of Cape Vincent, which was closed on Wednesday by the state superintendent of insurance. The condition of the cash account was attributed by the State Department as the cause for closing the bank. The bank was organized in 1885. It was capitalized at \$25,000 and the surplus profits, according to local "hardy" statistics, are \$16,000. J. W. Cornaire, Cape Vincent, was president of the bank. Sidney W. Block, who had been cashier for a number of years and held the controlling interest in the bank, died at his home in that village on Sunday. Plans Not Satisfactory. Brockville, May 6.—Dr. McCullough, chief officer of the Provincial Board of Health, has written the council stating that the new intake pipe proposed to be laid by the Board of Water Commissioners will be of no value in protecting the public against polluted water, and adds that the provincial board will not approve of the proposal unless a filtration plant is proceeded with at the same time, and measures taken to divert the sewage from above the pumping station.

Blood Thin and Weak Too Nervous to Sleep Here is Another Case in Which Dr. Chase's Nerve Food Proved Its Great Reconstructive Influence. This blood and exhausted nerves usually go together. A considerable portion of the blood is constantly consumed in keeping up the vitality of the nervous system. Once the blood is deficient, either in quantity or quality, the nerves suffer and bodily pains result. Headache, neuralgic or sciatic pains are the indications in some cases, while in others weakness, nervousness, irritability and sleeplessness are the most marked symptoms. Mrs. R. F. Catlin, Elm Springs, Saak., writes: "For years I was troubled with nervousness, and could not sleep nights. Also had lack of color as a result of the blood being thin and weak. My husband saw Dr. Chase's Nerve Food advertised, and got some for me, and wanted me to try it. I did so, and it has proven a wonderful help to me. By enriching the blood, it has restored color to my face and has built up the nervous system so that I rest and sleep well. It is a pleasure to recommend so excellent a medicine." Dr. Chase's Nerve Food goes direct to the formation of pure, rich blood, and for this reason is the most certain means of increasing the quality as well as the quantity of blood in the human system. The feeble, wasted nerves are restored, and through the nervous system new vigor and energy is imparted to every organ and member of the body. You will be surprised at the way this food cure puts new strength and vitality into the weakened body. And the best of it is that the benefits are both thorough and lasting. In this the Nerve Food differs from mere stimulating medicines which give rise to false hope and when discontinued leave you as weak as before. Put this test and prove its merits in your own case. 50 cents a box, 6 for \$2.50. All dealers or Edmondson, Bates & Co., Limited, Toronto.

Southwesterly winds; fine and warmer to-day and Friday

NO STORE CAN HAVE HIGHER IDEALS OF QUALITY—NO STORE CAN COMBINE THEM SO DESIRABLY WITH MODERATE PRICES—THAN THE STEACY STORE.

MAY ADOPT NEW HELMET. French Army May Abandon Anti-Quated Military Headgear. North France, May 6.—It has been noticed for sometime that the French soldier's kepi did not protect him from small splinters of shrapnel. A conservative spirit has so far prevented those in authority changing anything in the historic headpiece. In this war, however, sentiment must give way to unity and an effort has been made to find a suitable helmet. One just proposed to the military authorities is all in one piece, so as to protect the head back of the neck, and temples. The whole thing weighs about 28 ounces which seems at first sight much too heavy.
