How Zam-Buk Cures Skin Diseases

Assoon as applied, Zam-Buk penetrates right to the very root of the disease and kills the cause thereof. The rich herbal essences then so stimulate the cells below the surface that new healthy tissue is formed, which, as it grows, forces out the diseased tissue. Zam-Buk cures from the bottom up. This is the reason that sores and skin diseases cured by Zam-Buk, do not return.

Zam-Buk is entirely different from all other ointments. It does not contain harsh minerals, or prisonous coloring matter. New does it contain coarse anime! fats, which, in a short time, go rancid. Zam-Buk will keep indefinitely.

Many people have been cured by Zam-Buk after having suffered years and spent hundreds of dollars trying various remedies in vain. If you suffer from any skin disease or injury, benefit by the experiences of others. Try Zam-Buk first. Don't trouble with useless remedies.

Zam-Buk is unequalled for eczema, piles, pimples, cuts, burns, bruises, cold sores, frost bites, chapped hands, and all skin diseases and injuries.

We are so convinced that a trial of Zam-Buk will prove to you its superiority, that we will send you a FREE TRIAL box on receipt of this article, name of paper, and 1c. stamp to pay return postage. Address Zam-Buk Co., Toronto.

HOW I DARKENED M GRAY HAIR

For years, I tried to restore my gray found guilty and sentenced to eigh hair to its natural color with the pred teen months. pared dyes and stains, but none, of them gave satisfaction and they were all expensive. I finally ran onto a simple recipe which I mixed at home that gives Are Among the Latest Announced conderful results. I gave the recipe, which is as follows, to a number of my friends, and they are all delighted with it. To 7 ozs. of water add a small the intelligence from the Militia Debox of Orlex Compound 1 oz. of bay ingredients can be bought at any drug store at little cost. Use every other day until the hair becomes the required shade, then every two weeks. It will not only darken the gray hair, but removes dandruff and scalp humors, and acts as a tonic to the hair. It is not sticky or greasy, does not rub off and does not color the scalp.

lane between two walls that may fairly be taken to represent a trench. When the gases had been released a company of infantry were ordered to advance up the lane. When the first ranks came within the zone of fumes they stopped suddenly and beat a hasty retreat, fighting their way through the men behind them absolutely blinded by the tears runduces such a violent smarting of the eyes and nose that it would be hope-"The Canadian who reads this may less to try and use a weapon while

An Effect Of the War.

This war is doing an enormous becoming a national beverage. Once attract a taste for tea and it will come to stay. The Russians have of course always been large tea drinkers and with the Government's action in closing down the State-run vodka cabarets an even larger consumption is bound to follow. France, hitherto a very small consumer and essentially a coffee country, has been adopting tea to fight upon, and evof high prices. Consumption has in the last year or two increased in a far greater ratio than has production, and fresh planting owing to various causes, chiefly the labour difficulty, has been handicapped. New land takes some years to come Manchester, England, May 6 .- Pre- into full bearing, and young gardens require to be treated tenderly at first. Of course the examination on the subjects of Group I is held on Saturday May 22nd, and only lasts one day, but it will not be finished till it is too late for the pupils to get train back north. This will mean that they must stay at the Entrance centres till the next Monday. If, as I said before, we cannot trust our public school teachers to examine their own pupils on the subjects of Group I why not at least allow the pupils to try all the subjects at the some time in June?

Just a word concerning History. This I think is one of the most difficult subjects on the curriculum and it is not an easy matter under any conditions, for a child to pass an examination on this subject. Just consider for a moment what it will mean for a nervous, excitable child, to write on this examination paper, in a strange place, and surrounded by strange faces. Surely any one can see that it is next to an impossibility for the child to do himself justice at all. Whereas if he were allowed to try in his own school this nervousness and excitement could be avoided Let us hope that next year a better arrangement will be made-THE PUPIL'S FRIEND
