

THE LATEST TIDINGS

PRESENTED IN THE BRIEFEST POSSIBLE FORM.

The Whig's Daily Condensation Of The News Of The World From Telegraph Service and Newspaper Exchanges.

Additional Germans were interned in Toronto detention camp.

Vice-President Knox of the Woolworth Company, died in Buffalo, N. Y.

The Allan-Hamer Granpian outward bound, has been obliged to put back to Liverpool owing to a collision.

The new Young Women's Christian Association building at Berlin, Ont., costing \$20,000, was dedicated.

The body of Miss Gwynn Allan, aged sixteen, daughter of Lady Allan, Montreal, reached Queenstown on Sunday.

Several young business men are forming a unit, to number probably fifty, which they will offer to the Government for service together in any branch of the Army.

The ten submarines which the Fore River Shipbuilding Corporation is constructing at Quincy for the British Government will be launched early next month.

David Lawrence, treasurer for many years of East Nissouri, and prominent in Oxford County public affairs, died suddenly at his home in Thamesford, in his 67th year.

Fire did considerable damage to the Metropolitan bank, situated on the corner of Front and Campbell streets Belleville. The fire originated in Prof. Johnston's dancing academy on the third floor.

Lieut.-Col. H. M. Elliott, who has been on the headquarters staff of No. 2 Divisional Area, Toronto, for over four years, has been promoted to the rank of Colonel and given command of Sewell Camp near Brandon, Man.

In connection with the Canadian Eucharistic Congress to be held in Montreal on July 13th, 14th, 15th next, the Eastern Canadian Passengers Association has agreed upon reduced rates, single fares where certificate is valid.

Spanish warships have been despatched to rescue the crews of the British tank ship York, and three Italian steamers, which were driven ashore, on the Moroccan coast, in Saturday's gale in the Strait of Gibraltar.

Private William Smith of the 7th Regiment, London, Ont., has purchased his discharge, to leave for London, Eng., where he has been left a fortune of \$10,000 by an uncle, a colonel in an Indian Regiment, recently killed in action.

New York bankers conversant with the credit arrangement existing between the British and French Government confirmed the report that the Bank of France has transferred a large amount of gold to London, pursuant to the agreement entered into some months ago between treasury officials of the two countries.

EMDEN'S MEN IN TURKEY. Sailors Who Escaped Capture When Cruiser Was Sunk.

Damascus, Syria (via London), May 18.—Lieutenant von Muecke and a landing party from the German cruiser Emden, which escaped when their ship was sunk in the Indian Ocean on November 10th, have arrived here after six months of adventurous wandering. There are fifty men in the party.

"Have I won the Iron Cross?" was the first question asked by Lieutenant von Muecke.

He and the sailors in his command were delighted when told they were regarded in Germany as heroes, and that all were to receive his coveted cross. The Lieutenant declared all he wanted now was to get a command in the North Sea.

Von Muecke and the remnant of the Emden's crew were reported to have escaped from Allied patrol ships and piloted the schooner Alypa, on which they escaped from Cocos Island, safely into the Arabia, on February 5th, or of Lidd on March 27th. They reached Hodeida, Arabia, on February 5th. They probably travelled by rail most of the distance from Lidd (Hidda) to Damascus.

Big Wheat Fields Get Rain. Winnipeg, May 18.—With few exceptions, one being Central Manitoba, where rain was not needed, precipitation has been general during the past twenty-four hours over the winter and spring wheat belts of Western Canada, and generally speaking most has been awarded those districts most requiring it. All the "dry belt" south-west of Moose Jaw, right through to Swift Current and Medicine Hat districts to Lethbridge, and beyond to the foothills, has been visited by generous rains of from one to nearly two inches.

War Costing \$30 a Second. London, May 18.—F. D. Acland, financial secretary to the treasury, speaking to a meeting, estimated that the cost of the war to England was thirty pounds per second. This means \$2,500,000 a day, which somewhat exceeds David Lloyd-George's recent average of £2,100,000.

"Buy Grape Juice" at Gibson's.

Mr. Retailer, Do Your Share

When the manufacturer advertises his goods in this newspaper he is creating business for you. It is up to you to reciprocate by giving service.

Showing the newspaper advertised goods. Talking about them. Giving the public what they ask for.

This sort of service will mean the kind of co-operation that will bring better business to you and better satisfaction to your customers.

DERNBURG TO LEAVE

Announcement Is Made By Count Von Bernstorff.

Washington, D.C., May 18.—"Dr. Dernburg is going to leave the United States," Count von Bernstorff, the German Ambassador, said yesterday. "I do not know where he is going. He is leaving of his own free will, and volition."

Ambassador Bernstorff's statement confirmed rumors which have been in circulation to leave the United States. Dr. Dernburg is a commissioner of the German Red Cross. His decision to leave the United States was voluntary and without suggestion from the Embassy or the German Government. Dr. Dernburg is a private citizen.

"Do you contemplate asking the United States Government to obtain safe conduct to a Holland port, so that he would be immune from detention at sea by the British or French, as has been suggested?" Count von Bernstorff was asked.

"I have not been requested to do so," the Ambassador replied. "All I know about Dr. Dernburg's intentions is that he told me that he will leave the United States."

ALFRED G. VANDERBILT, JR. His father's "millions" and orphaned by the loss of the Lusitania.

ALFRED G. VANDERBILT, JR. His father's "millions" and orphaned by the loss of the Lusitania.

300,000 More Recruits Asked By Kitchener

(Special to the Whig.) London, May 18.—Lord Kitchener this afternoon issued a call for three hundred thousand more recruits for the British Army. This was announced in the course of a speech by Lord Kitchener in the House of Lords. He also said that the British and the French had found it necessary to retaliate in the use of gases. The Allied armies' engineers had prepared an effective gas weapon in reply to that used by the Germans.

S. N. S. CALLS IT IMPERTINENT.

Semi-Official Cologne Gazette on American Note.

London, May 18.—The semi-official Cologne Gazette of May 10, in a first page leading article entitled "To Neutrals," says:

"The Lusitania was for us a hostile ship. To destroy it was our right and duty.

"We are the objects of bitter rage, and are called Huns, barbarians, and murderers simply because German engineers and bravery have accomplished a brilliant stroke, but now neutrals are warned. They have seen the bloody seriousness of our submarine warfare. Let them abstain from further foolhardiness, for the fate of the Lusitania will be shared by other English overseas steamships, and every neutral who trusts himself to the courts the fate which overtook the passengers on the Lusitania.

"The abuse in the neutral press up to now can be dismissed as an expression of malice which is not conscious of the gravity of the affair. If the abuse continues it will no longer be naive, but impertinent."

Looping The Loop, Saved Life.

London, May 18.—The British eyewitness says: "One of our air-men had a thrilling experience. He was alone, in a single seated aeroplane, in pursuit of a German machine. While trying to reload his machine gun, he lost control of the steering gear, and the aeroplane turned upside down. The belt round his waist happened to be loose, and the jerk of the turn almost threw him out of the machine, but he saved himself by catching hold of the rear centre strut. The belt slipped down his legs while he hung thus head downward, making desperate efforts to disentangle his legs, and the aeroplane fell from a height of 8,000 feet to about 2,500, spinning round and round like falling lead.

"At last he managed to free his legs and reach the control lever with his feet. He then succeeded in righting the machine, which had turned slowly over, completely looping the loop, whereupon he slid into his seat."

This is the season of the year when a man looks in his back yard and decides the one thing needed is a goat that will consume the tin cans.

Prof. Elmer Luck is to lecture in Kingston on May 27th.

SAYS GERMAN FOOD SUPPLY IS AMPLE

Delbruck Tells Of The Big Reserves Of Wheat, Potatoes And Meat.

London, May 18.—The Berlin correspondent of Reuters' Telegram Company says that Delbruck, German Minister of the Interior and Vice Chancellor, in addressing the Budget Committee in the Reichstag Friday, said:

"Wheat for bread for the current year is not only sufficient, but there is a greater reserve than was anticipated. Even unforeseen eventualities, such as fire or a delay in the harvest, would not embarrass us. Concerning potatoes, all statistics are encouraging. The stores are so great that there is no question of a potato famine.

"Fig breeding should not be further restricted. The manufacture of smoked meat products should not be further continued."

A THRIVING LITTLE VILLAGE. Battersea Has Improved Greatly—A Popular Summer Resort.

Battersea, May 17.—We read quite a lot in the Kingston papers urging the people to beautify their property so that the city will have a better appearance, which is perfectly right. It may be in line here to mention a few suggestions for the surrounding villages and country. A thorough cleaning up in the spring time and a little paint on buildings and fences used each year makes a vast improvement to a person's property.

I have in my mind at present a village which strikes me very forcibly, as I have occasion to pass through quite frequently. This little place is 16 miles from the city, and is called "Battersea." It is situated on the shores of Lohorough Lake which is famous for good fishing. For the last ten years wonderful improvements have taken place.

At the entrance of the village one knows up-to-date steel bridges in the county span the river, which runs gently through the village and gives ample water power for milling. Two very fine and up-to-date hotels with the best of accommodation for travellers and tourists, have a rooming capacity of 75 to 100. The best of all is there is no bar to sell intoxicating drinks in which to destroy the fine young men growing up in the village and surrounding country. The village has fine houses and good general stores, with the new gas lighting system which makes the stores very attractive.

While spending part of a day last week in the village, and taking note of the improvements going on, I was urged to write this short article. People that show such patriotism towards their village needs publication. I noticed while taking observation, Harmon Keeler's fine residence, which he was beautifying with a lawn and fancy fences with a cement foundation. W. S. Anglin's building up a lawn, putting out a hedge and painting his fence. The improvement and appearance is wonderful. At F. W. Ball's similar for a city. All have modern improvements.

The Methodist parsonage and church are in fine condition and seemingly very prosperous. I understand they pay their minister \$1,000 a year salary. They don't promise it, but pay it to him.

George Mathews' fine residence and buildings, William Keeler's, Leonard VanLaven, George Mathews, William Jamieson, J. E. Anglin, George McFarlane, Robert Dixon, William Sutherland, Joseph Duett, Thomas Clark, James Clark, William Hanley, Reuben Clark, John Slesch, Charles and George Holter, Robert Miller, W. J. Anglin, Thomas Abbott, Ferguson, Gardie, Anderson Knapp, Hugh Ritchie, Kirkpatrick Bros., Wesley Hartley, W. H. Ormsbee. All are large patrons of Battersea Cheese Factory, operated by the farmers themselves, and which has been working very satisfactorily for the past fifty years.

This village and community have prospered and done exceedingly well without the harbour and where Local Option has been in force for over twenty years—COUNTY RESIDENT.

Affected by Gas.

London, May 18.—Lieut.-Col. J. J. Creelman, of the 2nd Field Artillery, Montreal, has arrived in England on sick leave after spending ten days at a base hospital at Rouen. He informed the Mail and Empire that he was a mile and a half from a spot at which the Germans were throwing gas bombs, the Canadian artillery replying to the German fire at the time, but even at that distance he felt the effects of the deadly gas, his eyes being first affected, and then he was attacked by a violent nausea, followed by fever. He has now gone to North Wales to recuperate.

A man is always saying something he shouldn't, and a woman is always saying something she shouldn't.

As a matter of fact there is very little common sense in the world most of it is uncommon.

There are times when even the person imagines that there is no earthly hope for the choir.

HORSE CUT IN TWO.

It Persisted in Being Ahead of Freight Train.

On Monday afternoon two valuable horses owned by Nelson Amey and Thomas Wood respectively, were chased by a freight train from Wilbur to Sydenham. The horses were running loose at the former place, and had wandered on to the track. After being chased for five miles, and both horses crossing the bridge over Sydenham Lake without mishap, the train came to a stop at Sydenham station. Both horses, it seems, were bent on racing, and after the freight train started upon its course, the animals got out in front of it again. This time the horse owned by Mr. Amey was overtaken and cut in two. The other received some scratches.

The strange thing about the incident was how the horses crossed this bridge over Sydenham Lake, and during the bridge is constructed of ties, upon which the track is laid, and it would be impossible to lead a horse over it at ordinary times without breaking its legs. However, the trick was done.

TWO KINGSTON BUTCHERS To Answer Charge Laid By a Government Inspector.

As a result of a visit paid to the city by Government Inspector Cook, two Kingston butchers were summoned to answer to a charge of having violated a law regarding the shipment of meat. They shipped meat to Montreal which had not been inspected, while the law requires that the meat being shipped into another province in this way by a butcher, shall undergo an inspection.

The case was heard on Tuesday afternoon before Magistrate Farrell and both butchers pleaded guilty. Each was fined \$15.00 and costs, amounting to \$18.50.

NOT THE BUSINESS Of the Utilities Commission to Supply Incinerator Site.

R. H. Toye says it is not the business of the Utilities Commission to go into the garbage incinerator business, and it is not in any way bound to give the City Council a site. It simply offered to help the Council in procuring the necessary land, for which the city must pay.

Splendid Asparagus. T. K. Morton, proprietor of the St. Lawrence Fruit Farm, Wolfe Island, brought to the city last week the regular samples of this season's asparagus. They were full grown and of the quality delicious. Those who had the pleasure of sampling some of this first shipment state that rarely have they found asparagus so tender and tasty.

Mr. Morton is now making regular shipments to Montreal and other points. Kingstonians are awaiting with pleasant anticipations the placing on the market of those large, luscious strawberries which come annually from the St. Lawrence Fruit Farm.

A Dangerous Locality. The Chief of Police should station a constable at the junction of Brook, Clarence and Bagot streets at times to catch some of the automobilists who dash up and down the streets at that point. Many persons have been almost run down by speeding machines. A police constable in plain clothes would catch some of the speeders if he was placed at this "circus."

The harbor master should stop the whistling of steamers. They screech fearfully during the night calling for pilots.

Sheriff Thomas Dawson, St. Catharines, who died on Saturday, was a distant relative of Sheriff Thomas Dawson, Kingston.

OBITUARY

The Late Miss M. A. Kirkpatrick.

At the home of her sister, Mrs. C. H. Hubbard, Toronto, there passed away Miss Mary A. Kirkpatrick, sister of M. Kirkpatrick, art store proprietor, Princess street, this city.

A few weeks ago the deceased was stricken with a paralytic stroke. Sixty-seven years ago the deceased was born at Wolfe Island, and during the past twenty years she had been a resident of Toronto. She was the daughter of the late James Kirkpatrick, formerly of Wolfe Island. In-hered to the late Miss Kirkpatrick was an Anglican, and at one time a member of Trinity Church on the above named island.

To mourn her loss there are three brothers and two sisters, James Kirkpatrick, residing in the United States; John Kirkpatrick, Toronto; Michael Kirkpatrick, Kingston; Mrs. C. H. Hubbard, Toronto; Mrs. Franklin Wilbee, Toronto.

The remains will arrive in Kingston on the noon train Wednesday, and the funeral will be conducted from the parlors at Caturqui Cemetery, Rev. T. W. Savary will officiate.

Child Found Dead in Bed. A sad discovery was made by Mrs. William Babcock, 150 Raglan Road, on Tuesday morning when she went to the bedroom of her infant child Walter, and found him dead in bed. The child was apparently in the best of health when the mother placed him in his cot on Monday evening. It is thought that an acute attack of heart failure was the cause of death. The child was four months old, and very bright.

On Wednesday afternoon the remains will be taken to Caturqui Cemetery.

Public School Baseball. The second game in the Public School Baseball League was played at the Crickie Field on Monday afternoon between Central and Louise schools. The former team, which won the trophy last season, was victorious, defeating Louise by the score of 5 to 1.

Every player in this league is deeply interested in carrying out the schedule. Therefore in spite of the rain that threatened, both teams stuck to it and played the first innings in a light shower. In this inning Central ran up a score of six runs, Louise would possibly have won out had it not been for the rain falling. However it finished 4 to 1 stronger. Next time the tables may possibly be turned. Thomas McKay was umpire.

Central—Clark, p; Richardson, c; Fenning, 1b; Rottley, 2b; Baacr, 3b; Taylor, 3b; Jackson, lf; Fox, rf; Hamilton, rf.

Louise—Saunders, p; Sharnan, c; Black, 1b; Fisher, 2b; Hunter, 2b; Elmer, 3b; McKay, lf; Martin, cf; Pratt, rf.

Score by innings: Central . . . . . 6 1 1 0 0—5 Louise . . . . . 1 3 0 1 0—5

On Wednesday Victoria and Frontenac schools will play at the Crickie Field.

"Buy Grape Juice" at Gibson's. With the exception of an occasional car, London is without a street car service, virtually all the drivers and conductors of the London County Municipal Railway street car system, now out on strike, having taken a pledge not to return to work until a permanent increase in pay, and not merely a war bonus, is granted.

"Lavender Camphor" at Gibson's. Miss Mary Agnes FitzGibbon, the authoress, is dead.

SCOFFS AT WILSON.

German Writer Twits America With Its Impotency.

London, May 18.—The London Daily Mail quotes from Der Tag the following article by Herr von Rath, who is described as a favorite spokesman of the Wilhelmstrasse:

"President Wilson is very much troubled by the drowning of so many American citizens, and we Germans sincerely share his feeling. But we see by the Lusitania affair one of the many cruel necessities which, the struggle for existence brings with it.

"If, as English reports try to make us believe, Mr. Wilson is now meditating revenge, we will not disturb him in his occupation, but would only hope that his demands will be addressed to the right and not to the wrong quarters.

"The right address is England. On the German side everything was done to warn American travellers from the impending peril, while British irresponsibility nullified the effect of the German admonition.

"Mr. Wilson is certainly in a precarious position. After showing himself so weak in the face of the long and ruthless British provocations, he has to play the strong man with Germany. Otherwise he will lose what prestige he has left, and he knows that in the background the pretender to the throne, Mr. Roosevelt, is lurking.

"But what are the gallant shouters in the United States thinking about? Should the United States send troops to take part in the fighting in Flanders? The gigantic losses of their Canadian neighbors should not exactly encourage them, from a military standpoint, moreover, the United States is so weak that it has never been able to impose its will on Mexico, or do anything to the still more unpleasant Japanese than to clench its fists in its pockets."

Cheese Markets. Utica, N. Y., May 17.—A half-cent advance in cheese prices marked today's session of the Utica Dairy Board of Trade. Sales, 750 boxes colored, and 526 boxes large white, at 16 1/2c; 750 boxes small colored and 375 boxes small white at 16 1/4c.

"Red Cross Bandages" at Gibson's. Some thousands of miners in the Black Country went on strike to-day in consequence of a dispute over the question of a war bonus, according to the London Evening News.

"Buy Grape Juice" at Gibson's. Unlike the Lusitania, the Cunard liner Transylvania, was conveyed through the submarine war zone by ships of the British Navy.

Combing Won't Rid Hair Of Dandruff

The only sure way to get rid of dandruff is to dissolve it, then you destroy it entirely. To do this, get about four ounces of ordinary liquid arvon; apply it at night when retiring; use enough to moisten the scalp and rub it in gently with the finger tips.

Do this to-night, and by morning, most if not all of your dandruff will be gone, and three or four more applications will completely dissolve and entirely destroy every single sign and trace of it, no matter how much dandruff you may have.

You will find, too, that all itching and digging of the scalp will stop at once, and your hair will be fluffy, lustrous, glossy, silky and soft, and look and feel a hundred times better.

You can get liquid arvon at any drug store. It is inexpensive and never fails to do the work.

Ladies' Hairdressing in London and Paris.

(By Constance.)

When I was in Europe this year I found both cities so thickly dotted with hairdressing parlors and hair goods stores that I wondered if the women ever had time for anything but care of the hair. Personally I was chiefly interested in finding a really good shampoo and I found that they never use makeshifts but always some item made for shampooing only, and I was happily surprised when several inquiries each brought the suggestion that our own American made canthrox shampoo is best. They like it because in addition to being perfectly safe and making the hair free from all dandruff, excess oil and dust, it is so simple to get canthrox from any druggist and just dissolve a teaspoonful in a cup of hot water, knowing you will then have a preparation that makes the hair not only entirely clean but so fluffy that it appears very heavy. Canthrox stimulates the scalp to healthy action, making the head feel good, and the hair look good.

Easy & Practical Home Dress Making Lessons

Prepared Especially For This Newspaper by Pictorial Review

OVERBOUSE FROCK IN LINEN

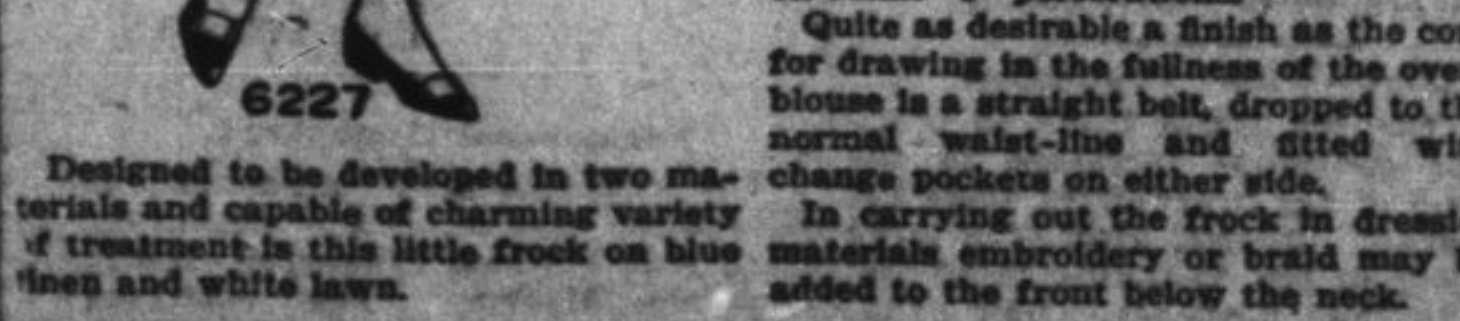

At this season most of the dresses that are shown for children are of tub variety, and they are practical as well as smart. A novelty indeed is this overbouse frock in blue and white linen, the foundation being in white and the overbouse in Wedgwood blue. A guimpe of sheer lawn is also worn with the dress, which is pretty carried out entirely in lawn and in one color. For a girl of average size the design calls for 1 1/2 yards of 44-inch material, with 1 1/2 yard of 36-inch lawn for the guimpe.

The skirt and the outer blouse are cut from a fold of the wider material, the overbouse back and overbouses front being arranged on a lengthwise fold. The shirtband, belt and pocket sections are laid on a lengthwise thread. If narrow material is employed in the development of the frock it will be necessary to cut the skirt and overbouse sections from an open fold of the goods and use pleatings.

Now fold the lawn and along the fold place the front, collar and cuff. To the extreme left of the lawn a few inches from the edge put into position the sleeve, and to the right of the sleeve place the back. For the open neck cut out the guimpe on small "o" perforations. For the square collar cut off front and lower edges of round collar on small "o" perforations.

Quite as desirable a finish on the cord for drawing in the fullness of the overbouse is a straight belt, dropped to the normal waist-line and fitted with check pockets on either side.

In carrying out the frock in dressier material embroidery or braid may be added to the front below the neck.

Designed to be developed in two materials and capable of charming variety of treatment is this little frock on blue linen and white lawn.
