GERMAN ALLIES CIRCLED BY A RING OF STEEL

They Are Completely Isolated From the World.

EMINENT MEN REVIEW

SITUATION CAUSED BY ITALY'S ENTRANCE INTO WAR.

With One More Door Closed For Supplies, Rome Expects New Realization of Situation By the German Masses.

New York, May 24.—"What influence on the course of the general European war will Italy's intervention have?"

This question was answered for the International News Service by eminent Italians and others.

BY GIULIEMO FERRERO. (Italian historian.)

Rome, May 24.—Italy's intervention will have a threefold effect—moral, economic and military.

It will bring home to the German masses the isolation of Germany and will rest on Roumania. That is its moral importance. The German people do not yet understand the impression the war has produced on the world at large.

They do not fully realize that Europe is firmly resolved to put an end to their dreams of German hegemony. Now that today they see her former ally has entered the struggle against Germany, one may hope that they will begin to open their eyes, especially if Roumania follows Italy's example.

The economic importance of our intervention consists in this, that we (Italy) complete the encircling of the two Germanic Empires. Heretofore

ARE YOU STRONG ENOUGH TO WORK?

Mrs. Hubbard Tells How Vinol the Famous Cod Liver and Iron Tonic Built Her up and Made Her Strong.

Covington, Ky.—"I was in a general run-down condition and suffered from a bad cough. I have a family of four, and after working for a while around the house I would get so tired I would have to sit down and rest, and sometimes it seemed as though my back would break."

"I tried cod liver oil emulsions and other remedies but did not seem to get any help. Finally one day I saw Vinol advertised and tried it. I soon noticed a decided improvement, and now it has built up my health and strength."

"Mrs. ALEX. HUBBARD, Covington, Ky. Vinol is a constitutional remedy for all weak, nervous and run-down conditions of men, women and children.

In a natural manner this delicious cod liver and iron tonic creates a hearty appetite, aids digestion, makes pure, healthy blood and thus creates strength for the run-down and debilitated. We have never sold in our store a more dependable remedy for coughs, colds and bronchitis than Vinol.

Try a bottle, and if it doesn't help you we will return your money. Geo. W. Mahood, Druggist, Kingston, Ont.

and Plume. This enterprise will necessitate the co-operation of the army and navy for the disembarkation of troops at various points and simultaneously a great strategic march from Friuli and Venetia toward the Tyrol and the hereditary Austrian states.

From Venetia the armies may follow two directions, eastward toward Vienna or northward to cover the left flank of the principal movement.

Occupation of the Trentino is necessary for the security of the principal operation.

KILLS TWO YOUNG GIRLS. And Then Suicided—Albany Florist's Terrible Deed.

Catskill, May 25.—Henry Lang, 26 years old, an Albany florist, whose attentions toward children always has been marked, yesterday shot and killed Ruth Hammer and Ida Besch of Catskill, 13 and 14 years old, respectively, and later killed himself.

The cause for the double murder is a mystery. Lang had been working here for two years, and the two girls lived near him. No one witnessed the shooting.

A note on Lang's table asked that Mrs. William Branigan of Albany, a distant relative, be notified. A despatch from that city to-night quoted her as saying that Lang was accented. A year ago, she declared he made elaborate preparations for his funeral and paid for it in advance.

Mexican Famine Worse. Washington, May 25.—The Mexico City famine is growing worse rapidly.

Eight thousand persons, far more than could be supplied, gathered when the authorities began distributing corn yesterday, it was stated, and in the struggle which ensued, 250 fainted.

Several riotous demonstrations were reported, one mob invading the Chamber of Deputies, where a convention was in progress, crying: "We are hungry."

Nurse Killed in Montreal. Montreal, May 25.—Miss Edith Robertson, a nurse of the Victorian Order, whose home was at Peterboro, Ont., while walking on the west side of Hutchinson street was struck and immediately killed by a stone from a blast 300 yards away at the Hutchinson street sewer, which is under construction.

BY YVES GUOYOT (Former Minister of Commerce.) Paris, May 24.—To-day finds every important power in Europe firmly united in the resolve to break up the sinister evil of German hegemony.

The economic ruin of our foes is henceforth only a matter of time and a brief time at that. Europe's parish is doomed to a lingering death by economic starvation.

BY MAURICE BARRAS. (Academician, president of the French League of Patriots.) Paris, May 24.—The world expects three things from Italian intervention: First, that the blockade of Germany become more rigorous; second, that German public opinion shall be deeply stirred and become enlightened and discouraged; third, that this war is largely an industrial problem, wherein the winners are they who can be most prodigal in the use of arms and ammunition.

Germany has already been forced to reduce her fire against France, England and Russia. Now she is compelled to feed the Italian front also. The Allies' advantage will grow enormously.

BY COLONEL FEYLER. (Swiss Military Critic.) Geneva, May 24.—The Italian army's task is undoubtedly hard. The Dalmatian coast must be seized and simultaneously, the key to the North Adriatic, with the military port of Trieste and the commercial ports of Pola

AN ORATOR WANTED

For the Position Of Ontario Fire Marshal.

Toronto, May 25.—After a year and a half delay the Ontario Government has suddenly decided that it might have a fire marshal for the Province. It was at the session of 1914 that the Government brought in a Bill which provided for the appointment of such an official for Ontario, and many interested towns and cities watched anxiously for the selection of an official who would clean up some of the Provincial fire-traps.

Time dragged, and the appointment has not yet been made. It was stated to-day, however, by one of the Cabinet Ministers, that the Government has suddenly come to life upon this point and has decided at a meeting of the Cabinet to choose its man. Still there are obstacles in the way, the greatest of which is to find a suitable man.

"We would pick a man in a day, if we could hear of the right one," declared the Minister. There have been applications in plenty for the position, but none seem to quite measure up to the standard set down by the Hearst Government for such an officer. The type of man required is one who could visit all parts of the Province, who is somewhat gifted oratorically, and who possesses the tact to interest citizens and Boards of Trade into the advantages of doing away with rickety buildings and fire traps.

PART OF ITALIAN ARMY. Likely To Be Sent To Dardanelles, Says Marconi.

New York, May 24.—William Marconi, inventor of the wireless, called Saturday on the steamer St. Paul in response to a summons from the King of Italy to serve his term of military service in the Italian army.

Mr. Marconi, who is a member of the Italian Senate, and an adviser of King Victor Emmanuel, is a reserve officer in the Engineering Corps. He said he expected to complete his term of service and return to America by next September, but would not venture a prophecy as to whether the war would end by that time.

"I suppose that I shall be called on for service," the inventor said. "It is fair to surmise that at least some portion of the Italian army will be despatched to the assistance of the Allied forces operating against the Dardanelles, but I am speaking without any authority when I say this. Both the Italian army and navy are well equipped and I have no doubt they will give a good account of themselves."

WANT TO FIGHT FOR ITALY. Grand Nephews of Napoleon I. Ask to Join Army.

Paris, May 25.—A news agency despatch from Rome says that Prince Victor, head of the House of Bonaparte; Prince Louis Napoleon, his brother, and Prince Alfonso of Portugal brother of the late King Carlos, have applied to the Italian War Ministry for permission to join the army.

Prince Victor and Prince Louis Napoleon are grand-nephews of Napoleon I. Their mother was Marie-Clotilde, a princess of Savoy, the reigning house of Italy.

Sorrow Turned To Joy. Perth, May 25.—There was universal rejoicing in Perth on Sunday when the cablegram came at noon saying that Lieut. Clyde Scott of Perth, was alive in Germany, well-treated and recovering. Lieut. Clyde Scott, son of Rev. A. H. Scott, was reported as killed in action at Langemarck, and a memorial service was to be held in St. Andrew's church. The cable came from his aunt in London, Eng., who had received a letter from Lieut. Scott.

ITALY AT LAST AT WAR WITH AUSTRIA-HUNGARY

The Declaration Was Made on Sunday Afternoon.

ROME WILD WITH JOY

OVER THE KING'S ORDER FOR MOBILIZATION.

About 800,000 Bavarians and Hungarians Have Been Concentrated Against Italy — The Austrian Defences Are Particularly Strong.

Rome, May 24.—(via Paris).—Italy is at war with Austria-Hungary. With the issuance of the general mobilization order, the Italian Government issued a proclamation declaring war on Austria, which officially began to-day.

Prior to this, and after a lengthy consultation, the ministers of war and marine proclaimed all the provinces bordering on Austria and the islands and coasts towns of the Adriatic in a state of war, which was equivalent to the establishment of martial law, the step usually preceding the formal declaration.

Although drastic action has been looked for momentarily, Italians of all classes have been electrified by the swiftly moving events. Early Sunday morning great crowds gathered around the Quirinal to await the ministers, who called on the King for the purpose of discussing the situation and signing decrees.

People Wildly Enthusiastic. When Premier Salandra and Signor Sonnino, the foreign minister, left the palace the people cheered them enthusiastically. The troops changing guards at the royal place were the object of a stirring manifestation amid "Vivas" for the army and for war.

General Zuppell, minister of war and Vice-Admiral Viale, minister of marine, remained with the King for

a considerable time after the others left, and later they had a conference with Lieutenant-General Cadorna, chief of staff, and Vice-Admiral Phaedon-di Rivel, chief of the naval staff.

When the first blow will be struck cannot be foretold, but after many months of preparation, the army, which has been greatly strengthened, and the navy, is ready for whatever task may be set them. It is exceedingly strong in force all along the Austro-Italian frontier, on the Austrian side of which feverish preparations have been going on the last few days to make the fortifications as impregnable as possible and to clear the way for effective artillery action.

Ambassadors Wait To Last. The German Ambassador, Prince von Buelow, and the Austrian Ambassador, Baron von Macchio, are still in Rome, so far as is known. They have waited to the last, doubtless in the hope that some way might be found to prevent a clash of arms. They will be given safe conduct when they do leave and, so far as Germans and Austrians resident in Italy are concerned, every effort has been made to see them safely out of the country.

On the other hand, most alarming reports have been received from the Italian border towns that Italian residents in the Austrian Tyrol are experiencing great difficulty in returning to Italy, and in many cases have been placed under arrest.

Envoys To The Vatican. According to the Giornale d'Italia, the problem concerning the diplomatic accredited to the Vatican has been solved satisfactorily. The Austrian and German diplomats, ignoring the situation in Italy, will depart as though they were merely taking their summer vacations before the regular time. It had been urged by some that the Italian Government move energetically with respect to these diplomatic representatives, and by others that the Vatican resist any effort to force them to withdraw. But these extreme measures

The Austrian fleet is centered at Pola, with only a few torpedo boats and destroyers at Cattaro and Spalato. Other Austrian warships are in the Dalmatian archipelago on the northwest coast of the Adriatic sea. Naval men here do not consider it likely that the Austrian fleet will leave Pola unless forced by an Italian attack.

158 KILLED OR MISSING. In the Triple English Railroad Wreck On Saturday.

London, May 25.—An official announcement is made that 158 persons were killed or are missing as a result of the triple collision which occurred Saturday morning on the Caledonia Railway, north of Carlisle. All except six or the killed were soldiers belonging to the Royal Scots Regiment, 500 of whom were travelling in a troop train. At least 200 persons, mostly soldiers, were injured.

The figures establish a new record for railway accidents in the British Isles.

Gasoline Flat-Iron Explodes. Brockville, May 25.—Through an explosion of a gasoline flat-iron, Miss Vera FitzPatrick, daughter of Joseph FitzPatrick, was terribly burned about the head and body. She will recover.

Graduate Of R. M. C. Wounded. London, May 25.—Lieut. H. P. Holt, Essex Yeomanry, wounded, is a graduate of the Royal Military College.

Thomas A. Edison at 63 announces the completion and perfection of his latest invention, the telegraph, a combination of telephone and phonograph, by which telephone conversations may be perfectly recorded on a wax record, though the persons conversing are 2,000 miles apart.
