WALDRON'S

GREAT TEUTON ARMIES PUSH ON TO LEMBERG

Artillery Onslaught of Unprecedented Fury Forces Russians to Capitulate--Shells From Thousand Guns.

The Austrians Will Now Seek to Advance and Put the Russians in Such a Position That They Will Not be Able to Resume Offensive Movements for Some Time.

London, June 4.—With the capture of Przemyśl the Austro-German armies have achieved the main object of the great thrust they commenced against the Russian lines in Western Galicia just a month ago.

They have yet to drive the Russians further back and to establish themselves in easily defended positions which will enable them to detach forces for operations against Italy and the Allies in the west.

Whether or not they accomplish this, the Teutonic allies have won a victory, and with a suddenness which overshadows all past operations of the war.

It was only ten weeks ago that Przemyśl fell to the Russians after a six months' investment, which was interrupted for a short time in November by an Austrian advance. With the surrender of the fortress there fell into the Russian hands, according to official reports, 120,000 Austrians and 600 guns and an immense amount of war material.

Most of the forts, however, had been completely destroyed by the Austrians before they surrendered, and this is considered in military circles here to account for the fact that the fortress succumbed so quickly to the Austro-German attack.

Of what booty the Austro-Germans

have captured, with the fortress there is no estimate, but it is fairly certain that the Russians, having lots of time, got away as many men and as much material as possible and destroyed the guns and ammunition that remained.

It is not expected here that the victors will be satisfied with their gain of Przemyśl, but that they doubtless will endeavor to push on to Lemberg, and even farther, and put the Russians in such a position that they will not be able to resume the offensive for many months.

The re-taking of the Przemyśl fortress has been characterized by British observers as one of the most remarkable feats of the war.

Another feature of the fighting on the eastern front is the new attack on Warsaw. Neither the Russian nor the British newspapers are able to say whether the renewed battering there fell into the Russian hands, the Poles and the Austrians are striving to break through to the Polish capital or a move timed to prevent the Russians from rushing reinforcements to their hard-pressed troops in Galicia. But whatever the motive, the assault has been violent along a front of about 25 miles, the hardest pressure being brought to bear on the Russians along the Bzura and the Rawka rivers.

"LEO" A BIG SUCCESS

PRESENTED AT GRAND OPERA HOUSE ON THURSDAY

The Company of Kingston Talent Is a Good One—Those Who Take Part in the Big Production.

Twenty-five years ago, "Leo, the Royal Cadet" was presented for the first time in Kingston and proved one of the most pleasing comic operas that was ever written. On Thursday afternoon and evening it was again on the boards at the Grand and proved a splendid attraction. The military spirit brought a sympathetic response from large audiences and encore after encore was demanded and responded to.

This opera was written by Messrs. Cameron and Teigmann, both of Kingston, and the production on Thursday was under the capable management of Mr. and Mrs. Teigmann. There was not a hitch anywhere in either production and the management deserve great credit for the splendid way the various parts were taken.

The maidens, the lady cadets and drum corps; the civilians, the soldiers, the dudes, and the Zulus, were all excellently costumed and well drilled. No finer ensemble effect has been produced here than the grouping in the second act with the brightly uniformed drum corps filling the centre of the stage. The climax of the third act, the battle of Isandula, was realistically worked up and cleverly sustained.

The cast is as follows:
Leo, the Royal Cadet, Sergt. J. E. Harte; Captain Wellington Blood-wigger, James Saunders; Wind, a Military Aesthetic Poet, E. Boaprey; Gaspard, a Man of the World, H. OBITUARY

The Late Mrs. Godfrey Shore.

At the Kingston General Hospital on Thursday afternoon there passed away a highly respected citizen of Kingston in the person of Mrs. Godfrey Shore, whose husband preceded her some years. Seventy years ago the late Mrs. Shore was born in England, and came to Canada about 1835. Residence was first at place both Mr. and Mrs. Shore were quite popular. At this place a church was erected through their instrumentality. Both were active church workers, Mr. Shore being a Presbyterian clergyman. For twelve years Mrs. Shore was president of Cooke's Church Women's Foreign Missionary Society. It was only two years ago that, in recognition of her faithful service, the deceased was presented with a life membership certificate of this organization.

On Saturday afternoon at 2.30 o'clock the funeral of the deceased will be conducted from the residence of Mrs. J. Wright, 159 Sydenham street, to Cataract cemetery. Rev. J. W. Macintosh will officiate.

Beware of Ointments For Cataract That Contain Mercury.

Mercury will surely destroy the sense of sight and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescriptions from reputable physicians, as the damage they do is ten fold to the good they can possibly derive from them. Hall's Cataract Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, contains no mercury and is taken internally, acting directly upon the blood and mucous surfaces of the system. In buying Hall's Cataract Cure be sure you get the genuine. It is taken internally and made in Toledo, Ohio, by F. J. Cheney & Co. Testimonials free. Sold by Druggists. Price 75c per bottle. Take Hall's Family Pills for constipation.

REV. FR. SPRATT DEAD

OVER FORTY YEARS PARISH PRIEST AT WOLFE ISLAND.

Had Been in Ill Health for Two Years—Was Ordained in Kingston by the Late Bishop Horan in 1871.

After an illness extending over two years, the death occurred in the Hotel Dieu Thursday noon of Rev. Father Thomas J. Spratt, parish priest at Wolfe Island for forty-one years, aged sixty-eight years.

Deceased was born at Lindsay, Ont., and received his early education there. He took his classical course in the old Regopolis College in Kingston, and his theological course at Lewis College, Quebec. He was ordained by Bishop Horan, of Kingston, in this city in 1871. His first appointment was as assistant priest in Glengarry county. After serving there two years, he was appointed first pastor at Chrysler, Ont. In 1874 he was appointed to Wolfe Island.

Father Spratt took a leading part in the work of the clergy of this diocese, and was always one of the leaders. On the occasion of the arrival of the late Archbishop Clary from Ireland, Father Spratt was delegated to meet the archbishop at New York and accompany him to Kingston. He was a kind man, ever giving his time and thought to the many duties resting upon him, and he was beloved by all. It was with sincere regret that the news of his death was received. Archbishop Spratt, of Kingston, is a brother of the deceased, and Richard Spratt, of Lindsay, is another brother. One sister also survives, Mrs. O'Keefe, of Detroit. The remains were taken over to Wolfe Island Friday afternoon at 3 o'clock, under the care of John McAuley, who has the funeral arrangements in charge. The funeral will take place on Tuesday morning at 9.30 o'clock.

Cure for Gunfire Deafness.

London, June 4.—Gunfire deafness, which afflicts many soldiers at the front, has been successfully treated by a new apparatus belonging to the National Association for the Amelioration of Deafness.

It is asserted that complete cures can be effected in ten days, provided the treatment is not delayed. In cases where there has been a lapse of time before treatment, the cure takes from three to five weeks.

The treatment is undergone for five minutes daily. Patients unable to visit the specialist regularly are lent a special apparatus for home use. Between fifty and sixty cases have already been successfully treated.
