IN VIEW OF CHANGED SITUATION BY THE WAR.

The Union Committee Recommends That the Results of the Voting Re Submitted To the General Assembly In June 1916.

The question of union with the Methodist and Congregational churches was dealt with by the Presbyterian General Assembly at its Saturday morning session, when the Church Union Committee presented its report, and recommended that the Basis of Union be submitted to presbyteries and congregations for their judgment, and that the result of the vote be reported to the Assembly at its meeting in Jure, 1916.

After rehearsing what had been previously done by the Assembly in the interests of Church Union, the report continued: Whereas, further, by the outbreak

of war, a new situation has been created, among the elements of which are the following: (a) A changed judgment of val ues, so that matters which formerly

distracted and divided men are now accounted trivial in the presence of the vast issues involved. (b) A weakening of class distinctions, which renders possible a degree of united action hitherto im-

practicable (c) A new spirit of self-sacrifice which is impressively illustrated by our soldiers and by our King, and which the Church, in the name of her erucified Lord is called upon to exhibit by the subordination of every other consideration to the supreme purpose of bringing men to recognize Jesus Christ as the Hope of the World. (d) An expected increase in the

volume of immigration into Canada after the close of the war, demanding the greatest concentration moral and religious forces. (e) The world's financial exhaustion, requiring the utmost possible

The Assembly also directs: 1. That the question of Union be submitted to Sessions and also to communicants and adherents of the Church in the following form: "Are you in favor of Union with the Methodist and Congregatonal Churches of Canada on the Basis of Union approved by the General Assembly of 1915? Yes. No." The people are reminded that the decision on this juestion must be reached on the ba-

President Falconer said that the Church Union situation must be regarded in a new light, owing to the greatly changed conditions in the world during the past ten months. Yet we can say, as far as we can see that the cause of this great war has been Providential, for God has been leading us in a way we knew not, and we believe that He will bless us. Our people have learned the way of death and of sacrifice. This General Assembly is an Assembly of a new was an Assembly of an old Canada. It is to be committed to the youth of the land.

Before long, said Dr. Falconer, this country will enter upon a period of great prosperity. What is the many provides the answer. Germany's material prosperity was not directed by spiritual aims.
