

Russians Again Win A Glorious Victory

LIKELY TO ENCIRCLE TURKS AT GALLIPOLI

Allies Are Fighting in The Region of That Town--Occupy Two Hills Near Mardos.

A Thick Fog Causes Cessation of Military Operations North of Arras--The French Make Progress North Of Lorette And In The Labyrinth District.

(Special to the Whig.)

Athens, June 12.—The Allies are now fighting in the region of the town of Gallipoli, having arrived within four hours' march, after terrific fighting. The extreme left of the Allied forces threatens to encircle the enemy in the entrenchments to the north of the town.

A great battle has been in progress since Thursday around Mardos. The Allies occupied two hills near Mardos. A Senegalese regiment took seven hundred Turks prisoners on the heights of Ortakou, near Mardos. The authorities at Constantinople have commandeered forty ships as floating hospitals.

Fog Stops Fighting In West.

(Special to the Whig.)

Paris, June 12.—Official.—A thick fog curtailed the battlefront north of Arras to-day, and official despatches reported a complete cessation of military operations.

During the night, the French carried a section of German trenches in the region of Fond de Dubal, north of Lorette, and made some progress in the Labyrinth district.

Elsewhere there has been no change.

Dr. Dernburg Has Sailed For Germany

(Special to the Whig.)—Dr. Bernhard Dernburg, travelling under special safe conduct guaranteed by the Allies, accompanied by his wife, sailed to-day on the Norwegian American liner Bergensfjord for Bergen, Norway. The Kaiser's unofficial representative in this country, who for some months has carried on a campaign favoring Germany's position in the war, declared that he considered his work highly satisfactory.

WHAT BRITAIN OWES NAVY.

Foreign Trade For Four Months Larger Than Year Ago
London, June 12.—During the months of January, February, March and April of this year, British ports show the following returns, notwithstanding submarine blockades: Imports, £281,676,312; exports, £116,776,323; re-exports, £31,729,362. This brings British trade for four months to over two billion dollars, although the chief European customers were involved in war. The returns show an increase of \$115,000,000 over the corresponding period of last year.

Pope May Get Nobel Prize.

London, June 12.—It is thought probable that this year the Nobel Peace Prize will be conferred on the Pope for his efforts to promote peace and his efforts on behalf of war prisoners.

Dr. Gerald Allison, Pictou, who is a lieutenant in the Royal Army Medical Corps, announces that for the present he, with one other of the Toronto University medical men, is connected with a hospital at Eastbourne, on the English Channel, opposite France.

A DANGER TO NAVIGATION

Derelict Sighted Off Southwest Coast Of Nova Scotia.

Halifax, June 12.—Training her six-inch guns on a derelict which she sighted yesterday many miles off the south-west coast of Nova Scotia, one of the cruisers belonging to the Halifax Naval Station attempted to destroy the abandoned vessel, but was unable to sink her. This morning Marine Agent Hargreave received a message from the cruiser saying that she had passed a derelict, dangerous to navigation in 42.44 north 65.00 west, and had fired on it, but without success. It is believed that the derelict is a three-masted schooner Harry, which was abandoned fifty-five miles south-west of Cape Sable on May 23rd, and the crew landed at Shelburne. The Harry has since been reported south of that position by passing steamers.

BENZINE FOR SUBMARINES.

Allies Discover German Cache at Lonely Spot.
Rome, June 12.—A despatch to the Tribune from Athens says: "The Allies have discovered at a lonely part of the coast near Kallimno (an island off the southwest coast of Asia Minor) fifteen hundred cases and 96 barrels of benzine with which it was intended to replenish the tanks of German submarines operating in the Dardanelles region. It is supposed the benzine was shipped from Saloniki to Piræus at Keronee and sent from there to Kallimno."

Frontenac Lady Thanked By Belgian King

Mrs. Stover, Violet, who is past eighty-three years of age, has received a letter from King Albert of Belgium, thanking her in the name of the Belgian people for her donation of fifteen pairs of socks which she knitted herself. The case was brought to the King's attention by a rest, the statement to that effect being due to a messenger standing. Col. Steele and the division are still at Shorncliffe, Eng.

NOT IN FRANCE.

(Special to the Whig.)
Ottawa, June 12.—The announcement, made last night, that the Second Canadian Overseas Division is now in France turns out to be incorrect, the statement to that effect being due to a messenger standing. Col. Steele and the division are still at Shorncliffe, Eng.

WHERE MACKENSEN'S ARMY MET DEFEAT. The German army moving on Lemberg from the west was defeated and driven back four miles toward Przemyśl. On the Dniester, near Zorowka, the Slavs also threw back Linsingen's army. Village of Raczewko and others captured in successful Russian offensive.

FORCING THE STRAITS.

Related Message Tells of Distress in Constantinople.
Athens, June 10.—(Delayed in transmission) — Fighting continues on the Gallipoli Peninsula, with small advantage for the Allies. The fleet is covering and assisting the troops. There was severe firing on Tuesday morning. The bombardment of the Asiatic shore of the straits continues. The effect of the appearance of British submarines in the Sea of Marmora has been that all transport and every communication by sea have ceased. Even small boats have to obtain special permits. The wounded are being transferred from the battlefields by land and are dying in large numbers during the journey. Furthermore, in Constantinople there is a shortage of surgical instruments. The city is also suffering from lack of flour, which is distributed only to Turks, not to Christians. Since the appearance of submarines, prices have risen enormously. On account of the shortage of coal, there is no gas, and at night Constantinople is in darkness. The entire Bosphorus is patrolled by armed motor-boats. On the shore of the Black Sea the Russian fleet has destroyed a newly-constructed pier. The base from the Russian ships was directed by signals from Russian aeroplanes.

A Tory Paper Asks Clean-Up

Winnipeg, June 12.—The Winnipeg Telegram, Conservative published a special edition, yesterday, largely devoted to the evidence of Horwood and Salt before the Royal Commission in Minneapolis and editorially under the heading "A Plain Duty" has the following: "If the evidence given before the Royal Commission in Minneapolis is true, a grievous outrage has been perpetrated against the people of Manitoba. The evidence discloses that there was a conspiracy to rob the people of this province of a large sum of money in connection with the construction of the new Parliament buildings in Winnipeg. The evidence shows further more, that the conspiracy was entered into to shield every individual implicated in this outrage upon the people with the utmost rigor of the law. There is but one duty confronting those sworn with the administration of law in this province. This is to prosecute every individual implicated in this outrage upon the people with the utmost rigor of the law."

BAN ON "ZOO" DANCES.

Dancing Masters Plan a New Combination of Steps.
San Francisco, June 12.—The International Association of Dancing Masters, in convention here, has decided to invent something to take the place of the so-called "Zoo" dances, declared to be a nuisance by the city. The proposed new dance is to be a medium between the fox trot, canter waltz and one-step on the one hand, and the old-fashioned waltz and two-step on the other. A demonstration will be given next Thursday.

CALLS GERMANS TO RISE

If the United States Joins in the War.
Philadelphia, June 12.—Letters purporting to bear the signature of Herman Ridder, editor of the Staats Zeitung, of New York, in which citizens of German descent are called upon to prepare to fight for the Fatherland, if the United States and Germany "clash," are being circulated in this city.

Normal Crops Will Likely Be Harvested

The farmers report that the rain on Friday did an immense amount of good to the country, and though the crops will, as a result of the dry spell, be a little late in maturing, the normal crop should be harvested. The roads at present are muddy, but will dry up quickly. One farmer, in commenting on the rain, said: "It was worth thousands of dollars to this county, coming at the time it did."

SECOND AMERICAN NOTE IN THE KAISER'S HANDS

(Special to the Whig.)
Berlin, via The Hague, June 12.—The second American Note was in the hands of the Kaiser to-day. The complete text, shared the wires from Berlin last night and was rushed to the Emperor's headquarters at the Galicia battlefield, being given precedence over all other despatches at the Kaiser's personal request.

AUSTRO-GERMAN LOSS EXTREMELY HEAVY

In Thursday's Battle the Dead, Wounded And Prisoners Numbered About Forty Thousand.

Less Than Half the Foe That Crossed the River Escaped Slaughter or Capture--Another Army Being Rolled Back--The Russians Have Taken the Offensive.

(Special to the Whig.)
Petrograd, June 12.—Unofficial despatches from Lemberg to-day estimated the Austro-German losses in dead, wounded and prisoners in Thursday's battle at Zurvano at 40,000. Less than half the enemy's forces who crossed the river at that point escaped slaughter or capture.

Under heavy pressure from the Russian left wing, General Linsingen's Austro-German army, that attempted to move on Lemberg from the south, is being rolled back all along the Dniester. An official statement to-day reported the capture of one thousand Austro-Germans last night in a battle at Otynia, twenty miles south-east of Stanislaw. To the north, in the region of Shavli, and along the Dubisea River the Russians, after repulsing strong German attacks, have taken the offensive.

BRYAN TO BEAT WILSON FOR 1916

Will Take the Stump Against the President--Will Be in Race Himself.

Washington, June 12.—The New York Tribune correspondent sent the following to his paper: "William J. Bryan will take the stump within a month against President Wilson's policies of firmness and determination in international affairs. He said to-day he would stay in Washington for a couple of weeks, when he would go to Asheville, N.C., and then to the Charlotte circuit. It is taken here as an assured fact that Mr. Bryan intends to make it so embarrassing for President Wilson that it will be practically impossible for him to be renominated by the Democratic convention next year. The ex-secretary of state frankly confessed that his purpose in going on a speaking trip was to arouse public sentiment in favor of his views to such a pitch that President Wilson would have to capitulate. This announcement by Mr. Bryan is taken to mean that he intends the next Democratic candidate for president to be a man whose views on international affairs are the same as his own."

CHILD DROWNS IN BARREL

Washington, Pa., June 12.—Ellen Quahtier, aged eighteen months, was drowned in a rain barrel in front of her home here last evening. The child was playing on the porch and crawled over to the one end of it, where the rain barrel stood. She is thought to have attempted to look into the barrel, and losing her balance, fell into it.

GETTING READY FOR THE WAR CONTRACT PROBE

Ottawa, June 12.—The Railway Committee room of the Commons, which was the scene of the unveiling of several startling scandals in connection with war contracts last session, will again be enlivened by further investigations to be conducted by Sir Charles Davidson, the Commissioner recently appointed for this purpose by the Government. It is announced by Sir Charles that the hearings will be open to the public, and the scope of the inquiry is said to cover all contracts. Already counsel has been appointed to assist the Commissioner in the persons of William Thompson, K.C., barrister, of Ottawa. The privilege of appointing counsel will also naturally be asked by representatives of the Opposition, so that the investigation may cover all sides of the purchases under consideration.

WOMAN GUIDED TROOPS

Assisted Italians in Occupation of Trentino Town.
Milan, June 12.—Gazette del Topolo tells of an interesting incident which occurred at the occupation of a town in the Trentino. A young woman, seeing the Italian soldiers under fire of the Austrians in the chief streets of the town, left her house and put herself at the head of the troops. She guided them amid a hail of projectiles, explaining the while to the officers the best route to follow to seize the town. For eight hours, until the place was in the hands of the Italians, she remained with the troops, helping them by her knowledge of the place. She now wears as a decoration a Bergaglior hat, presented by grateful soldiers, but a more substantial reward is spoken of.
