HUGE CENTRIFUGAL FORCE MUST SURELY COLLAPSE

How Germany is Regarded by a Neutral.

FLINGING ITS ATOMS

TO CIRCUMFERENCE TO BATTER AGAINST ALLIES.

How The German Masses Are Deceived—They Know Nothing of Bernhardi's Books and Believe Fatherland Was Wantonly Attacked.

London, June 11.—The London Times' neutral correspondent at Berlin describes Germany as a huge centrifugal machine, which is flinging its forces outward.

The working of this machine, he says, is attended by continual and terrible consumption of energy, not only by the machine itself, but by the masses that cannot be replaced among the units which drive outward.

Consequently there are two limits to the machine working. It will slacken down when it can no longer be fed with enough units or force, or when the supply of central energy gives out.

Against such a machine, he continues, only a well-organized material force can prevail. It is true, he contends, that the machine itself may suddenly break down in spite of its wonderful elasticity.

A reverse may throw it temporarily out of gear. As yet, however, there have been few signs of such a contingency, although occasional indications are visible of the way in which the long-protracted tension is telling.

The writer points out the need of constant reports of victory and the denial of unfavorable news. He speaks also of the physical inferiority of the new levies of troops, and reiterates the absolute faith of the whole people in the justice of their cause.

Tremendous Demand for Hair Tonic

Parisian Sage is Guaranteed to Grow Hair

Parisian Sage has been an honest advertiser that its tremendous sales have surprised and even astonished dealers everywhere.

The idea that advertising copy must exaggerate the merits of the goods it aims to sell is false, and the sales of Parisian Sage prove it.

Parisian Sage won't grow hair on bald heads; it can't guarantee to grow hair on bald heads.

But if your hair is thin; if it is falling out or splitting at the ends; if your scalp itches and you are bothered with dandruff, the makers
