GRANT WIDE POWERS

HAVE FULL CONTROL OF SALE OF INTOXICATING DRINKS.

Can Take Over Saloons—Sale Of Beverages to Workmen In Factories Assured.

London, June 15.—The Gazette has issued the text of the order-in-council creating and defining the powers of the "Central Control of Liquor Traffic Board," to consist of a chairman and such other persons as the Minister of Munitions may appoint to control the sale and supply of intoxicating liquors within prescribed areas.

The board is given wide powers to regulate the hours of sale and even to prohibit entirely the sale of liquor and otherwise to accomplish its ends.

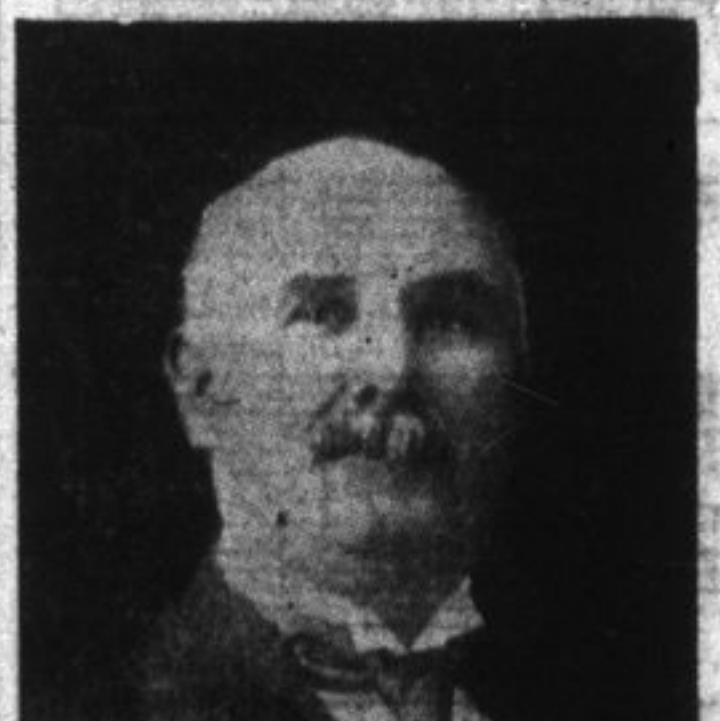

The same issue of the Gazette contains an order modifying the Factory Workshop Act. This exempts any workshop or factory from restrictions if it is necessary to secure the carrying out of work required in the public interests.

The liquor board also is empowered to prevent the practice of treating where it sees fit. Persons guilty of violating orders to this effect may be prosecuted under the Defence of the Realm Act, and will be liable to imprisonment for six months or a fine of \$500.

A novel provision is that the board may take over saloons in areas wherein munitions of war are manufactured, or without licenses dispense liquor under its supervision in factories engaged in Government work. Under this plan intoxicating beverages in moderate amounts would be assured to the workers.

SEES PROSPERITY AGAIN

How West Will Benefit From Increased Production.

PATRICK BURNS.
"The people in the West will have between \$600,000,000 and \$700,000,000 to put in their pockets in the fall for if Providence had specially designed the conditions which are making this possible, these could not be more favorable to this end."

"This remark was made by Patrick Burns, head of the great stock raising and exporting company, with headquarters at Calgary, who called upon Mr. Bury, vice-president of the C. P. R., on Saturday at the general offices of the company, Montreal.

"There will be 40 per cent. more production this year than last. I never saw the soil in such good condition. We have had the proper moisture at the proper time. The seeding was accomplished successfully. Our people are full of heart. Of course, the great civic works in the cities have been suspended owing to the war, but the farmers were never in better condition. Last year though the crop was not more than an average one the prices were high, while this year there will be the extra cultivation, which, with high prices, will give to the farmers the sum I mention."

"Our people in the West," Mr. Burns continued, "have adopted to a great and increasing extent, mixed farming. This Mr. Bury, of the C. P. R., preached for many years, and with ultimate success. Hardly a farmer now but has his bit of stock—one or two or six or more, so that he has always something to sell. I am not at liberty to tell you what the exporting business amounts to in beef and other things; but you would be surprised if you knew the figures of the exportations to the other side. This, owing to the circumstances of the case, cannot be disclosed; but that such business was possible is due, in great part, to the adoption of mixed farming in the West. Our people were long coming to see the benefit of this; but they do now; and mixed farming is the order of the day."

Mr. Burns, who was born near Toronto, but who has lived and prospered in the West and who is an authority upon all matters pertaining thereto, said that the growth of the country had been phenomenal. When he went to Calgary it was hardly on the map—a small village. Other centers had been equally progressive; the setback of the war would speedily be forgotten and the potential wealth of the country remembered.

"The West could not be fatally damaged by economic conditions however untoward. Its resources had not been tapped in their fullness."

"UNDER THE LIGHT."

LIQUOR RESTRICTIONS.

More Stringent Rules Governing The Sale Proposed.
Regina, Sask., June 15.—A number of changes, with a general tendency surrounding the sale of liquor, after the new legislation comes into effect, will still greater restriction, have been made to the Government bill in Committee. It was decided that veterinary surgeons shall not be given the right to sell liquor, as originally provided. Druggists will not be allowed, as proposed, to sell liquor upon the written application of two citizens in urgent cases, and can only sell on the written prescription of a physician. The minimum amount of liquor to be sold at a Government liquor store is fixed at a "reputed pint."

Those Willful Toys.

My house is quite full of such curious things.
There are blocks that have feet, there are books that have wings; And dolls that can walk, and two old Teddy bears
With legs that can carry them up and down stairs.
And Polly's not sure, and Jimmy can't say
Just how they were made in this curious way.

We stand each book nicely away on the shelf.

And toys that were put every day in their place that have wings; All scamper about till they're quite a disgrace,
And Polly can't say, and Jimmy don't know
Just why we should find them wherever we go.

This morning I called in a voice loud and clear.

So even the toys in the attic could hear.
"If you're all in your places at bedtime, I might
Bring home something good in my pockets to-night."
And Polly don't know, and Jimmy can't say,
But they think that the toys are quite sure to obey.

Burgess Johnson, in Harper's Magazine.

A woman is always telling her husband that a man doesn't know what it is to be sick.
A man seldom knows what he doesn't want until after he acquires it.

CHANGE PLANNED

By Directors Largely Matter of Book-keeping.
Montreal, June 14.—Goodwins, Limited, who are to take over the assets of Goodwins, Montreal, Limited, was organized in 1911 to take over the business of A. E. Rae & Co. The change which the directors wish to bring about is largely a matter of bookkeeping. Goodwins, Montreal, Limited, own the real estate and other fixed assets of the business, while Goodwins, Limited, is a holding company, owning the shares of Goodwins, Montreal, Limited.

Big Steel Earnings.

New York, June 14.—The earnings of the United States Steel Corporation for June are expected to run close to \$10,000,000. If April and May average \$8,000,000 the second quarter will total about \$26,000,000, sufficient to cover the preferred stock, and leave a balance equal to 1-4 on the common.

To Extend in Ontario.

Chicago, June 14.—F. M. Zeller & Co., announce that \$1,000,000 new capital of the United Stores Co., of Canada will be used to extend the system by opening 500 new stores in Ontario.

May Figures.

Cobalt, June 14.—It is learned that the McIntyre Mine will show a considerably lower production for the month of May than for the month of April. Their profits, it is said, will amount to about ten thousand dollars, as against thirty-five thousand for the preceding month.

Big Steel Orders.

Toronto, June 14.—Steel Company of Canada has war orders on hand amounting to several million dollars. The company is now turning out about 8,000 shell forgings a day, and in addition to the forging is doing practically all the shell manufacture with the exception of the brass work. The present output of 8,000 a day will be doubled before long.

Revive Rumors of Dividend.

Toronto, June 14.—The directors of Granby Consolidated meet on June 15th, and as the company has freed itself from floating debt through the proceeds of the \$5,000,000 bond issue, the market rumors are to the effect that the stock will go on a dividend basis again, probably the first time since 1907.

mer rate of \$150, per quarter. The bonds which were not taken up by the stockholders went to the underwriters, White, Weld and Co., of Boston.

Demand For Seats.

Montreal, June 14.—Despite the fact that bids for a seat on the Local Stock Exchange have been made recently at a figure of \$18,000, there are no sellers. The last sale was recorded on March 3rd, last, when a seat was sold for \$13,000.

A Long, Long War.

E. A. Powell, in the London Daily Mail. Out along the battle front, however, in the trenches and around the camp-fires, you do not hear the men discussing "the terms of peace we will grant Germany" or "what we will do with the Kaiser." They are not talking much, they are not singing much, they are not boasting at all, but they have settled down to the herculean task that lies before them with that same bulldog tenacity of purpose, that same grim determination, which characterized the men who wore the blue in the dark days of the American Civil War.

Don't think that I doubt the eventual triumph of the Allies; for I don't not for a minute.

But from what I have observed while in the field with four of the armies; from what I have seen of the strength of the German positions along the western front; from what I have learned from reliable sources of Germany's military and economic resources and of the temper of the German people; from the conversations I have had with Cabinet Ministers and diplomatists and generals and staff officers, and particularly with the fighting men themselves, I have come to the opinion that the war will unquestionably last two years—and that even then Germany may not be conquered.

The sooner the people of England stop deceiving themselves and look the facts in the face; the sooner they are willing to admit that the German soldier is as good a fighter as the British soldier, and that the German officers are, as a whole, far better trained than the British officers; the sooner they come to realize that, if Germany is to be beaten, every man in England between the ages of eighteen and forty-eight who is able to carry a rifle will have to take the field, just that much sooner will this bloody, bloody business be over.

A near argument is one in which nobody gets angry.
