WALDRON'S

HERO OF SKIES DEAD

CONQUEROR OF ZEPPELIN AND H. H. NEEDHAM FALL.

Young Canadian Overtaken By Tragedy After Being Decorated With Legion Of Honor—Companion a Writer.

Paris, June 18.—Lieutenant Reginald A. J. Warneford, who gained fame recently by flying to pieces a Zeppelin over England, was killed on Thursday by the fall of an aeroplane at Buc, France.

Lieutenant Warneford was piloting the machine, which had a passenger, Henry B. Needham, an American writer, who also was killed. Lieutenant Warneford and Needham fell from a height of 500 feet. The lieutenant had been spending a few days in Paris, where he came after his Zeppelin exploit to receive his decoration of the Legion of Honor.

According to a report received in Paris, the accident resulted from an explosion in midair, which caused Lieutenant Warneford to lose control, the machine crashing to earth.

Needham's body was taken to the English Hospital in Trion Palace, Versailles. He had been in Europe about four months acting as correspondent of magazines and a New York newspaper. He had received permission from the military authorities to make a flight in order to get material for a story. His wife, who also is a writer, accompanied him during the early part of his trip abroad. Mrs. Needham sailed for America six weeks ago.

DIFFICULT TO SECURE

Officers of Experience—Large Numbers Have Qualified.

In other military centres there seems to be a scarcity in the supply of qualified officers. In Kingston there is no such shortage, although it is almost impossible to secure experienced officers. There has been large numbers of provisional schools for not only infantry but artillery and cavalry, and all through the division are men who have attended courses.

According to regulations a man who has attended a provisional school is considered after having passed the exam to be a qualified officer, but this does not mean that he is an experienced officer. While attending a school technical knowledge may be obtained, but a short course officer is very seldom as good for the work as one who has worked up through the ranks. In this division are large numbers of men who have attended schools, but the authorities are finding it difficult to secure officers who have had very much other training in actual work, and the men obtainable for commissions therefore are unacquainted with the conditions the rank and file are working under.

SINKING FUND COMMITTEE

Appointed at Meeting of the Civic Finance Committee.

At a meeting of the Civic Finance Committee held on Thursday night, a Sinking Fund Committee, composed of Mayor Sutherland, Ald. Kent and City Treasurer Bartles was appointed. It was felt that it would be beneficial to have such a committee appointed to look after all the sinking funds of the city and at the same time look after all investments made by the city.

The committee also decided to have the city become a member of the Ontario Municipal Association. For this membership there is a fee of \$25, but it is felt that with representation on the association it will be money well spent. The city at present a member of the Dominion Municipal Association for which there is a fee of \$60.

TRADES AND LABOR COUNCIL

Opposes Granting Power to Street Railway at Less Than Cost.

The members of the Trades and Labor Council are opposed to the granting by the city of power at less than cost to the Kingston Street Railway Company.

The matter of a new contract between the city and the company was under discussion on Thursday night, when a resolution was passed putting the Council on the record as being opposed to any scheme to give the company power at less than cost.

The council takes the stand that the city will not give the city hospitals water at less than cost, it has no right to give the street railway company power at less than cost.

VOTING ON BY-LAWS

More Majority is Required On The Voting on Monday.

Two by-laws will be voted upon on Monday next, that of the expenditure of \$7,000 for an incinerator, and the other for or against the repeal of the by-law appointing a commission to operate the civic utilities. Every person who had a vote in the municipal elections has a vote on the commission by-law, while every property owner votes on the by-law regarding the incinerator. A person can vote in every ward he has property on the question of the incinerator.

The deputy returning officer and scrutineers have been appointed, the ballots have been printed, and everything is now in readiness for the election.

SIX TO WALK CARPET

For Hiding Their Bicycles on Sidewalks in City.

Riding bicycles on the sidewalk is a dangerous practice, and the police are doing their best to stop the nuisance. Six citizens have been summoned to appear before the magistrate on Saturday morning charged with riding on the sidewalk.

Many complaints have been received by the police from different sections of the city about bicyclists using the walks and endangering the lives of pedestrians. One citizen told the Whig that he came within an ace of being hurt by a young man who rode his bicycle on the sidewalk.

IN MARINE CIRCLES

Movements Of Vessels Reported Along the Harbor.

Steamer Missisquoi will commence next week making three trips a week to Kingston from Gananoque.

Steamer Barn Whittaker, discharging oats at Richardson's elevator, cleared for the Welland Canal. Steamer Stanstead is now at the elevator, with a cargo of oats, from Buffalo.

M. T. Company's bulletin:—Tug Emerson, from Montreal, two light barges and cleared with barge Dunmore to load grain at Port Colborne; steamer India cleared from Port Colborne, Thursday night for Montreal; steamer Advance passed up light Thursday night, to Port Colborne.

Government steamer Loretta that plies along the Rideau between Kingston and Ottawa, having charge of the lights and buoys, arrived at Swift's wharf on Thursday night.

Steamer Rideau Queen cleared for Smith's Falls Friday morning.

Steamer Britannic due from Montreal Friday afternoon.

Steam barge Jex went into the Kingston Shipbuilding drydock on Friday morning. Tug Shanley left the same dock at noon on Thursday.

Steamer John Reynolds cleared for Bay of Quinte ports Friday.

Steamer Stapstead passed down at 4 p.m. Thursday.

CARBIDE NOT RESPONSIBLE

For the Explosion in Toronto on June 14th.

In our edition of June 14th we published an account of an explosion which occurred in Toronto. The article stated that carbide exploded. This was found later to be incorrect, and we now wish to inform our readers that carbide was not in any way responsible for the accident. We are advised now that the accident was caused by the explosion of a cylinder of compressed acetylene gas. In regard to the occurrence we have gathered the following information regarding carbide:

Carbide is a safe article to store or transport, when packed in steel sheet drums. It is not affected by shock or concussion, and transportation lines accept it for shipment as they do various forms of hardware. Thousands of drums of carbide are daily shipped in Canada as ordinary freight, and never has carbide, when packed in steel drums which protect it from moisture, been responsible for an accident.

When carbide comes in contact with water, acetylene gas is produced, and the accident at Toronto on June 14th was caused by a cylinder of compressed acetylene gas exploding. There was no carbide in the vicinity.

Battle Field Of Waterloo Still Swept

Paris, June 18.—Eighty miles from the battle field of Waterloo, where Napoleon was crushed by an Allied Army 100 years ago to-day, another army is hurling itself against the Germans before Lens in one of the greatest battles in the present war. More shells are crashing against the German positions every hour than Napoleon fired in cannon ball during the whole of the victorious battle. Napoleon's Army in Waterloo consisted of 115,947 men, a mere handful compared with the forces at grips around Arras.

VAUDEVILLE AT THE GRAND

A Fine Bill Being Offered For the Week-End.

The vaudeville entertainment at the Grand last evening delighted a large audience.

Lillian Mascott who possesses a sweet and rich voice, sang "All For the Love of a Girl," "Just a Little Love and a Little Girl," gave a violin solo, "Tales of Hoffman," and concluded with a dance playing the violin at the same time.

The Uynos gave a novelty in the line of musical acts. The scene is a farmyard. On the fence is perched a crow that takes a leading part in the comedy. There is a cow from which the farmer draws milk. Every article in the farmyard is used to give music. The finish of the act in Scotch costume is a scream.

The Paramount Film Company presented the inimitable William H. Cagney in "David Harum." The two reel Mutual play "God is Love," and the comedy play, "Breaking Hearts and Beating Carpets." The Pathé Film showed sporting scenes in the United States.

The same bill will be presented to-night and on Saturday.

Opening Lake Ontario Park.

The ever popular summer resort, Lake Ontario Park will open for the season on Monday, June 21st, brighter and grander than ever. Time and money has not been spared in making the park one of the best amusement places in Canada. New attractions have been added, the grounds thoroughly cleaned and many trees have been planted and numerous lights have been strung around the park, making it an ideal spot to spend the hot summer evenings and enjoy the cool breezes from Lake Ontario. For the pavilion, high class vaudeville and photo plays have been booked, and expense never thought of in securing the very best that money could get for this part of the entertainment. All the amusements in the park will be usual, free of charge, and the management promises most delightful entertainments for all those going to the park this season.

Police Court Briefs.

There have been very few cases before the Police Magistrate this week. Kingston has been on her good behaviour. On Friday morning two drunks were the only offenders, and a fine of \$1 and costs was imposed upon each.

\$1.50 Corset, \$1.00 Dutton's.

R. & O. BOAT LABELLED FOR \$265,000 DAMAGES

Claimed by 1,913 Passengers, Who Charged Impure Water Was Supplied.

Buffalo, N.Y., June 18.—The steamer Rochester, of the Richelleu & Ontario Navigation Company, was labelled here for a total of \$265,000 damages on behalf of forty-five residents of the State of Rhode Island.

The libel and damages are claimed upon the charge that impure water was provided on the steamer in September, 1913, when the Rhode Islanders were in a party of excursionists carried on the steamer to the Perry centennial celebration here. It is charged that many cases of typhoid fever resulted, of which several proved fatal.

Were Exonerated.

Montreal, June 18.—With reference to the libel against the steamer Rochester in Buffalo, it was stated here by an official of the Canada Steamships Company, which absorbed the R. & O., that at the time mentioned in the Buffalo despatch there were typhoid outbreaks in a number of American cities visited by the steamer Rochester. There were on the Rhode vessel at the same time as the Rhode Islanders some American soldiers who afterwards fell ill. The United States Government held an investigation, in the course of which the Richelleu & Ontario Navigation Company was entirely exonerated. The same thing would naturally apply to the Rhode Islanders, who, said the official, would find difficulty in locating the exact place on shore where the disease was contracted.

A PRETTY ROMANCE.

Followed By a Wedding at Athens on Thursday.

Athens, Ont., June 17.—A wedding of considerable interest to many here was solemnized at eight o'clock this morning in the Methodist Church, when Miss Emma Bottomley was united in marriage to Rev. Norris Lineweaver, Rootstown, Ohio.

The ceremony was the culmination of a romance begun a few years ago, when Norris Lineweaver, an ambitious Methodist divinity student, visited Epworth, Eng., the birthplace of John Wesley, incidentally meeting Miss Emma Bottomley, who, with her mother and sister, came here to reside, and her student friend, now Rev. Mr. Lineweaver, Rootstown, Ohio, visiting her in Athens on two occasions, pressed his suit so successfully that to-day he claimed her as his bride.

LAKE BOATS FOR OCEAN.

Number of Railroads Have Received Offers For Their Vessels.

New York, June 18.—Reports that some of the Atlantic steamship companies are negotiating for the purchase of steamers now plying on the Great Lakes were supported to-day by an admission from the offices of the Erie Railroad that the company had under consideration offers for the transfer of some of its lake vessels. The Pennsylvania, New York Central, Lackawanna, and Lehigh Valley Railroads also, it is said, are considering offers to purchase their Great Lake steamships.

Mysterious Double Tragedy.

New York, June 18.—A mysterious double tragedy in the select residential district of Brooklyn claimed the lives of a young woman and a man Thursday. Mrs. Barbara Cornelius, twenty-two years old, wife of Carman Cornelius, a produce merchant, of 90 Hopkinson avenue, was murdered as she lay in her bed by a youth who is believed to have been a burglar. After firing four bullets into the woman's body the young man turned the weapon upon himself.

King's Condition Worse.

(Special to the Whig.)—King Constantine's condition was worse to-day. An official bulletin said the King was very weak. Great anxiety is felt in official circles.

An Order Issued.

According to an order issued by the Provincial License Commission, hotelkeepers must dispense with the custom of serving guest with intoxicants in their rooms after regular hours.

Over 9,000 Now.

(Special to the Whig.)—Ottawa, June 18.—Casualty lists to date: Killed, 1,430; wounded, 5,803; missing, 1,839. Total casualties, 9,072.
