LIQUOR BEING BROUGHT INTO BARRIEFIELD CAMP

By Some Civilians, Who Are Being Watched.

VERY SEVERE PENALTY

AWAITS THEM IF THEY ARE CAUGHT.

Major de Hertel, Smith's Falls, Brings More Recruits—He Is One Of The Best Recruiting Officers In Canada.

The Minister of Militia has declared that every militia camp in Canada will be "dry" and has asked the co-operation of the men and officers under him to keep this declaration. The Barriefield camp is certainly a dry one, but this is not due to any hard and fast orders issued by the authorities at Ottawa or anywhere else, but to the spirit of the men on the question. Even the boozier is trying to keep up the reputation of the brigade by abstaining from the use of liquor within the camp limits.

The Commandant has discovered that a few men are guilty of bringing liquor into the camp, and the names of some of the suspects have been taken. In future a close watch will be kept upon them, and if they are found carrying liquor they will be severely dealt with. Barriefield is in the township of Kingston, which is "dry" and Barriefield camp by a special military order is "dry" so that a person who is found guilty of bringing liquor into the camp would be and will be very much more severely dealt with than in ordinary cases.

Major de Hertel, who is known all over the Division as one of the best recruiting officers in Ontario, brought thirty more recruits to the Base Battalion on Tuesday afternoon. Major de Hertel is major of the 38th Battalion, Smith's Falls, and has such an organization perfected that there is seldom a week that he does not send in from twenty to thirty recruits. He stated on Tuesday that he has at least twenty more men that he will bring down, and very many of the recruits have been inducted, medically examined and attested. He stated that if Canada should be invaded he could call to arms 8,000 men who never before wore a uniform, and this is certainly no exaggeration as anyone who knows the Major will certify. In the twenty men who were brought here from the 42nd Regiment on Tuesday were four commercial travellers and eight clerks, the remainder being farmers, most of them leaving splendid farms to answer the call to arms.

Lieut. Potter, late of the headquarters pay office, who left a week ago for England, has arrived at Plymouth, according to a cable received on Tuesday. Lieut. Potter will take a position in the Record Office, similar to the one he held during the South African campaign.

"Rain, and then some; no work to-day; absolutely nothing doing." This was the greeting on all sides at Barriefield camp on Tuesday morning. The rain came down in torrents at times, and the parade ground was so soft for any work whatever. The Army Service Corps and the pickets were the only soldiers who were out, the others remaining in their tents. As is usual on Sundays and rainy days, the Y. M. C. A. tent was full. The men for the most part wrote letters, read books and played games. Gambling is prohibited in camp, and to give the men credit they are refraining from anything that could be covered by the order.

Kidney Disease Cured Sworn Statement

Of Mr. Wesley Maxwell, Who Gratefully Gives All Credit to Dr. Chase's Kidney-Liver Pills.

It is one thing to make big claims for a medicine and quite another thing to produce irrefutable evidence that it actually cures in serious cases.

We prefer to let the cured ones speak for themselves, and that is why you find in almost every newspaper the report of someone who has been cured by the use of Dr. Chase's medicines. Today we present the sworn statement of Mr. Wesley Maxwell. When a man goes to this trouble in expressing his gratitude there can be no question of the benefit he has received. Mr. Wesley Maxwell, Orangeville, Ont., writes: "I have been using Dr. Chase's Kidney-Liver Pills, and I must tell you that before I started using them I could only make water with the greatest difficulty, and had very severe pains in the back. I am completely cured now by the use of these pills. Before that I used a lot of 'doctors' medicine without any benefit; that I could see.

left leg was torn and both were badly frayed. His coat was of an entirely different quality than his pants, and was of a style that saw the light of day many, many years ago. And his hat looked as if it had been discarded by the original owner. Everything about the man showed that he was down and out, and the only thing he had was a perfect constitution. He was first examined by the medical officer, and, being found fit, after being sworn in he was issued with a uniform. There is one thing that all quarters masters pride themselves in, and that is that every man receives a good fitting uniform. To-day that man is one of the best men in the Base Battalion.

The 500 men that are being transferred from the Base Battalion to the 38th Battalion are being taken over in instalments, so as far as possible, to avoid interfering with the routine work. On Tuesday afternoon 164 men were transferred which brings the battalion strength up to 1,148 men.

Capt. McNeill, Capt. Falkins and Capt. Ferguson, 38th Battalion, are in Ottawa, where on Tuesday evening they attended a banquet in their honor given by the members of the Legion Club. Presentations were made to them.

There are between 500 and 600 horses at Barriefield camp, and according to the P.V.O., Lieut.-Col. Morgan, their health is remarkably good. The change from stable to camp life for the first week had certain bad effects, but as is the case with the men the results after the first week are beneficial. The horses are kept out in the open but are so well cared for that they are in splendid condition. The horses as a rule at Barriefield camp are a fine lot.

Lieut. Glass, assistant adjutant of the 38th Battalion, is acting adjutant in the absence of Capt. McNeill.

Like a Japanese bungalow on the hillside, is the Detention Hospital at Barriefield camp. It is being extended by the addition of two marquees and a kitchen tent, to include a Field Hospital as well. Capt. R. B. Richardson, with the assistance of Sergeants Emery and Reid are doing a splendid work, and situated as it is in the centre of the camp, the Detention Hospital is one of the most important institutions on the grounds. There are usually about ten patients brought in every day to be treated. Some of the cases are very serious and some only need treatment for a day or two, but all receive the best of attention. The equipment is of the best, and Major R. J. Gardiner can be congratulated on having secured such a good staff of officers for such an important branch of the work.

An application has been received by Lieut.-Col. Morgan asking for the names of all qualified veterinary officers in this division who will volunteer for overseas service. Successful applicants will be granted Lieutenancies in the Imperial Army Veterinary Corps, but they must be under fifty years of age and graduates of some recognized British or Canadian Veterinary College. Col. Morgan has already sent about fifteen officers to the front and is confident that this call will be answered by a large number.

Lieut. Charleson, C.A.S.C., is in the hospital with an attack of pneumonia.

Capt. R. F. Parkinson, 38th Battalion, is in Ottawa.

The choir of Chalmers Church will give a concert to the soldiers in the Y.M.C.A. tent on Wednesday evening.

Pte. R. Campbell, C.A.S.C., is in the hospital with an attack of appendicitis.

Sergeant-Major McKenna, 43rd Regiment, Ottawa, brought twelve recruits to the Base Battalion on Tuesday.

Capt. Membery, 8th C.M.R., returned to camp on Tuesday after visiting friends in Ottawa.

Sergeant-Major Blakney, 8th C.M.R., is in the General Hospital, ill of pneumonia.

Five cases were attended to in the Detention Hospital on Tuesday.

I am thankful for being cured, and can recommend Dr. Chase's Kidney-Liver Pills very highly." SWORN STATEMENT. "This is to certify that I, Wesley Maxwell, of the Township of Caledon, was cured of kidney trouble by taking Dr. Chase's Kidney-Liver Pills. "Wesley Maxwell."

(Sworn before me as correct this 6th day of January, 1915. — Wm. Hawkins, Sen. Justice of the Peace.) This statement is also endorsed by the Rev. Geo. W. Robinson, who is Mr. Maxwell's pastor. This cure will interest a great many people who are suffering as Mr. Maxwell was with kidney and urinary troubles. It will only cost you a quarter to buy a box of Dr. Chase's Kidney-Liver Pills and put this medicine to the test. We are sure that you will be thankful to the writer for describing his cure to you. For sale at all dealers or Edmondson, Bates & Co., Limited, Toronto.

Three patients were transferred to the General Hospital, two with pneumonia and one with mastoids.

Certificates of military qualification have been granted to the following men of No. 5 P.C.C.E.: Sergeants C. L. O'Brien, J. H. C. Smith and J. J. Davidson; Corporals Jones, J. E. Hanlon and N. G. Sutcliffe as corporals.

Col. G. Hunter Ogilvie is president of a board of officers of which Major W. J. Brown and Lieut. Godfrey are members which will conduct equitation examinations at the camp.

Lieut.-Col. C. E. Edwards is president of a board of officers which will conduct the Field Officers examination. The members on the board are: Major W. J. Brown, G.S. O. and Major C. Ferguson, 38th.

The name of the Base Battalion will in future be the 59th Overseas Battalion. The officers of Lieut.-Col. H. Dawson's command will take over the work as soon as the formal approval of the names comes from Ottawa. The provisional officers, who are now in charge of the different companies of the Base, will finish their course in a month, and these twelve companies will be ready to take over the command. As the original order for the organization of the 59th Battalion read that the organization would take place in Kingston, the new battalion will undoubtedly be stationed at Barriefield.

To take the place of the Base Battalion, the order has been received that the 38th Battalion would have a base company on the same lines as that of the 21st Battalion. The 59th will also have a Base company and these two companies will be in charge of all recruits who will be drilled until drafted into companies which are below full strength.

Captain, the Rev. H. I. Horsey, pastor of Welcome Zion Congregational Church, Montreal, who has been appointed chaplain of the 38th "Royal Ottawa" Regiment, C.E.F., now in training at Barriefield military camp, has been officially notified of his appointment. Capt. Horsey has long been interested in military matters and carries a service medal for services rendered in the Northwest Rebellion. He was a member of the Midland Regiment under Col. Williams. Capt. Horsey is a brother of E. E. Horsey, Kingston.

On Wednesday morning all the infantrymen in camp paraded to the west grounds for field work. There were over 1,800 men in the parade.

The officers attending the Provisional School of Infantry are being instructed in different kinds of field work. Outpost duty, that of guarding an imaginary body of troops on the move, is emphasized particularly.

On Wednesday morning the 7th Artillery Brigade was engaged in mounted artillery work.

The 8th C.M.R. held a short route march through Barriefield village and afterwards was engaged in squadron work.

Owing to the condition of the roads through the camp, the wagons which carry the soldiers to the city each evening were not allowed to enter the lines, but remained at the end of the camp grounds. It is likely that the main road through the camp will be repaired in such a way that better drainage will allow the water to drain off. If this is not done the heavy wagons will continue to remain at the end of the grounds and not be allowed to come through and cut up the road.

WAR BULLETINS

Lieut.-General Burdell, of the Canadian Artillery, a Kingstonian, and more than one hundred other officers and men of the First Canadian Contingent are mentioned in despatches by Field Marshal French in the London Gazette for "Gallant and distinguished service in the field." Several officers and men mentioned were killed in action or died of wounds.

It was officially announced in Paris that after three weeks of continuous assault the French troops have taken the entire sector, known as the Labyrinth from the Germans.

Nursing Matron Campbell and Nursing Sister Richardson, of the Canadian Contingent are among those recommended for distinguished service in the field.

Major Alexander Macphail, Kingston, with the 1st Field Company, Canadian Engineers, is also mentioned for distinguished service.

Important operations are on in the Dardanelles. The French captured several important Turkish redoubts. The Italian Army is again making progress. All the slopes of Mount Nero are now in the hands of the invaders.

The German gun which shelled Dunkirck has been located and dismantled by French artillery.

Fifty-eight nursing sisters of Britain and Canada were recommended for gallantry by Field-Marshal French.

Britain has ordered the tightening of the blockade on ships en route to Holland.

It is officially stated in Berlin that the Prussian casualties to date are one and a half millions.
