

EVERY FIT CANADIAN

MAY HAVE TO ENLIST, SAYS HON. ARTHUR MEIGHEN.

Address At Oplilla.—New Call For Troops, He Says, Is Challenge to Native Born.

Oplilla, June 23.—In the course of an impressive address before the Oplilla Canadian Club, Hon. Arthur Meighen, Solicitor-General, said: "Up to the present the problem has been for the Government to create machinery to keep pace with the offers for service; but the machinery has been provided, and now it is a question of the response being equal to the demand. The call has gone out for 35,000 more men. It is a challenge to the native-born. In a month we shall know what the response has been and how Canada has met the test. I am not an alarmist, and I do not know of any occasion on which people with British blood in their veins have been frightened by words, but I believe it may come to this—that every physically fit Canadian will have to join in the fight for the existence of the British Empire and the continuance of civilization."

The Minister did not despair of universal peace. He believed it would be brought about by the development of a deeper interest in foreign politics, and of more respect for the rights of the little nations.

STEAMER SACRIFICED CAIRO.

Norwegian Skipper First to Make Such Bargain.

Newcastle, Eng., June 23.—The Norwegian mail steamer Venus arrived here to-day minus the larger part of her cargo, which was thrown overboard, the captain asserted, under a threat of a German submarine commander that otherwise the Venus would be sunk.

The captain says that the Venus was hailed by the submarine and given the alternative of jettisoning all foodstuffs on board or being sent to the bottom, and that in order to save his boat several hundred cases of butter and many cases of salmon and other tinned fish were consigned to the sea. The remainder of the freight on the Venus, consisting of wood, was permitted to remain on board.

This is the first time that a German submarine boat is reported to have permitted a vessel to escape under such terms.

Mistakes. God sent us here to make mistakes, To strive, to fail, to begin; To taste the bitter fruit of Sin And find what bitter fruit it makes.

To miss the path, to go astray, To wander blindly in the night, But searching, praying for the light, Until at last we find the way.

And looking back along the past We know we needed all the strain Of fear and doubt and strife and pain To make us value peace at last.

Who falls finds later triumphs sweet; Who stumbles once walks then with care And knows the place to cry "be-ware" To other unaccustomed feet.

Through strife the slumbering soul escapes; We learn on error's troubled route The truths we could not prize without.

The sorrow of our sad mistakes, The death occurred on Monday at the residence of her daughter, Mrs. Abraham Moore, 32 Tunnel avenue, Brockville, of Mrs. James Herron, aged eighty-nine years.

Squadron, who was wounded on June 5th, writes from a Boulogne hospital that there has been a general advance all along the battle front. Nature's Diet. Charles D. Clarke in the Bath India. There is sadness in the sunshine; there is madness in the rain. And though the winds are soothing in the zephyrs there is pain; And the best of stomach action oft goes wrong in spring of year. Causing awful indigestion and the heart goes acting queer; It all means, Eat greens!

All the winter we've been living on the meats and fat of land, We've been overheating systems, doing what all science banded, We have got our corporations all confounded, out of fix; So revengeful but wise nature now is playing us some tricks; What she means, Eat Greens!

Just 'nuff to call doctors or to Just quit piling in wrong fuel that your locomotive plugs, Just accept the earth's good offerings; eat vegetables, fruit, And devour more of essentials, thus getting down to roots; Which means, Eat greens!

What she means, Eat Greens!

WHAT THE LAYMEN DID. At the Recent Bay of Quinte Methodist Conference.

The laymen of the Bay of Quinte Methodist Conference held sessions during the sitting of Conference at Ottawa, and discussed some practical church problems. It would have pleased the ministers to hear the splendid discussions and the high spirit which characterized the deliberations.

The financial interests of the church were considered, and many men gave their experiences. The outcome of the debate was the adoption of this resolution: "We recommend that all congregations throughout this Conference be earnestly requested to adopt the duplex or other envelope system where not already in use, and to take action to organize for the successful carrying out of a systematic plan of work for financing each church. The envelope system is the best yet tried, and should be adopted by the churches."

Attendance at the mid-week prayer service in the churches was considered at length, and there seemed to be an earnest desire to accomplish improvement. The recommendations of the laymen were that Conference give earnest attention to the subject, that a record of attendance be given at every quarterly meeting, that laymen in each church be a committee to help the pastor in forming plans and carrying out arrangements for increasing the interest and attendance at prayer meetings, that a record of attendance be given at the quarterly meeting (at every Sunday service would be still better—Ed.), that an appeal be made to all officials and members for special prayer and earnest efforts by personal invitation and attendance to increase attendance, and that minister and brethren be requested to bring this vitally important subject before congregations on a Sunday in July.

It is hoped that this request will be honored by every minister. Albert College, Belleville, was considered by the laymen at some length, as its claims as the church are very strong and just now urgent. To meet the larger salaries of teachers there must be increased income. Rev. E. N. Baker, B.A., D.D., Principal, is soliciting subscriptions for \$100,000 endowment of which amount he has already about \$45,000 subscribed. An "Albert College Day" in every church in this Bay Conference at which offerings and subscriptions shall be taken, was approved, and Conference appointed a committee to arrange details.

For One Man's "Gloria". Rochester Post-Express. Nobody knows and probably nobody will ever know how many of the Kaiser's subjects marched away to a glorious death, or how many of the Kaiser's subjects were maimed, crippled, blinded, piteous wrecks. The weeks shall grow into months and merge into the endless procession of years, but we shall never know how many splendid stalwart heroes, kind of fathers, and loving sons, were slaughtered that the Kaiser might figure in history as a conqueror, or how they died or in what populous trench they sleep, waiting the judgment day.

A GOOD THING. When It Comes Along Don't Let It Get Away From You. "I really feel that it is hardly possible to say too much in favor of Grape-Nuts as a health food," writes a Chicago lady.

"For 9 or 10 years I had suffered from indigestion and chronic constipation, caused by the continued use of coffee and rich, heavy foods. My ailments made my life so wretched that I was eager to try anything that held out a promise of help. And that is how I happened to buy a package of Grape-Nuts food last spring.

"That ended my experiments. For in Grape-Nuts I found exactly what I wanted and needed. From the day I began to use it I noticed an improvement and in a very few weeks I found my health was being restored.

"My digestive apparatus now works perfectly and chronic constipation has been entirely relieved. I have gained in weight materially, and life is a very pleasant thing to me so long as I use Grape-Nuts once or twice a day. I have found it a pleasant surprise that if I leave it off for a few days my health suffers.

"A physician in our town has great success in treating stomach troubles, and the secret of it is that he puts his patient on Grape-Nuts food—it always brings back the power of digestion."

BUSINESS TALKS

To the Readers of the Whig by the Advertising Department.

SALADA TEA is a notable example of a product that has been distributed, marketed, and standardized, in the United States and Canada, by the use of newspaper advertising. It is also an interesting "account" because it has won its way through newspaper advertising employed section by section; and its experience gives point to the claim as to the economies entailed in the use of newspaper space.

P. C. Larkin, President of the Salada Tea Company, of Toronto, says this: "I have tried demonstrating, street-car advertising, street posters, sampling from door to door, electric outside signs, etc., but I do not believe that anything has given me the results, for the money expended, as has newspaper advertising."

"I do not think that I can give you any better proof of my belief in newspaper advertising than to tell you that at present we are spending over seventy-five thousand dollars per year in advertising, and yet this is less than three-quarters of a cent per pound on our output, for last year we sold over 8,000,000 pounds of Salada. In 1892 we sold only 12,658.

"Results are obtained by quality first, and then the use of the daily newspaper columns."

Salada Tea is a steady advertiser in the Daily Whig.

There is a lesson here for every business man to take to heart.
