He Was Formerly Viceroy of Ireland -A Story About the Duchess of Manchester.

In the new British ministry recently formed the Marquis of Crewe has become Lord President of the Council. He has held many important places through many years, and is eminently a statesman and a skilled diplomat

His father was the late Lord Houghton, so honored and beloved that his son Robert was at the first accepted on trust.

Gladstone had him sent as Viceroy to Ireland, and about this time he married the daughter of Lord Rosebery, Lady Margaret Primrose, and she has become one of the most devoted mothers to a little son and heir, born to them after twelve years of marriage. Lady Crewe's mother was a Rothschild, and left her a

The "crack" ships in the British havy are those which bear names that have been passed from ship to ship for centuries and with which are bound up many famous traditions. Some men quickly procured a row boat, but before they got off the bull was out in the centre of the river and going strong. When the boatmen reached it it was considerably more than half-way across the Foyle, and, seeing that it would be more convenient to get it out at the shore on the Waterside, they headed in that direction. Went Home Bootless.

An interesting anecdote was related at a bazaar at Hawarden by the Rev. Stephen Gladstone. He spoke of the mission church which was originally established at Sandy-croft, and said his mother and two one day his mother arrived at Hawarden Castle minus her boots, and they wondered what had become of them. The secret was that Mrs. Gladstone had been visiting Sandy croft, and there met a poor woman who had no boots. As his mother was riding comfortably in a carriage by herself, she took off her boots, gave them to the poor old woman, and drove back to Hawarden Castle without any boots.

Cat and Rat as Playfellows. Mr. John Williams, of the Lion Hotel, Abersychan, Monmouthshire, owns a tabby cat which has formed an unusual attachment for a large rat that lives under the stables of the adjoining Abersychan Brewery. These two animals, whose natures are so opposite, may frequently be seen playing like kittens in the yard at the rear of the stables, and a thorough understanding and comradeship prevails between them.
