Captured Second Time-Austrian

Consul Lowers Flag and Montene-

grin General Takes Charge of City. Paris, July 2.- Describing the ocupation of Scutari, Albania, by Montenegrin troops, the Rome correspondent of the Havas Agency says. "Mussulmans, Catholics, members of the orthodox faith, the communal authorities, members of the Government, the police force, the schools and the population, preceded by flags and bands, marched out of the city. At noon came the triumphal entry of the Montenegrins, preceded by an advance guard. Following the advance guard were priests in the ceremonial robes, carrying the cross and religious standards; then came the main Montenegrin army led by General Vechovitch and the Montenegrin Consul, and bands of irregular Albanians followed.

"The Austrian Consul lowered the flag and placed the Consulate in the care of the Greek Consul.

"The General Staff of the troops occupying Scutari have taken charge of the administration of the city. declaring that citizens must henceforth consider themselves subjects of Montenegro, and be judged according to Montenegrin law and that disturbers of the new regime will be punished by martial law. General Vechovitch addressed the Foreign Consulates, announcing that he was taking possession of the city in the name of King Nicholas. Patrols guard the consulates and public buildings."

Novel Way In Which British Sink Under-Sea Raiders.

New York, July 2 .- Captain Arthur R. Mills of the American liner Philadelphia, which arrived from Liverpool, said that submarines had been in the River Mersey as far as the Bar Lightship, and had sunk a sailing vessel close by as he was nearing Liverpool on his last eastbound voyage.

He met two patrol boats inside Holyhead going at full speed, and was warned by the Admiralty that submarines were near by. One of the submarines was sunk by a patrol boat, the Captain said, but nothing was printed about it in the newspapers on the other side.

NEWSPAPERS IN INDIA.

They Seem to Be Run in a Happy-Go-Lucky Sort of Way.

Americans, accustomed to the hustle and bustle of our newspapers that are enterprising to a marvellous extent, would be amazed, if not exasperated, with the papers of India, One of these sheets recently published this explanation:

"This is only the beginning of our paper. We were not sure how much matter was required to fill it up, and, thinking we had sufficient, we did not exert ourselves much to get any more. We therefore beg that our readers will excuse us for the space left blank and promise to do better and get more in the future." How many subscribers would that paper have in this country? Still more curious was the announcement of a paper that came out with two columns blank, the editor having the cheek to say that a large quantity of exceedingly interesting matter has been left out for want of space.

When the average East Indian editor wants a holiday he suspends publication until it is convenient to resume, and taking the public into his confidence, informs them plainly why the paper was not issued on the expected dates. "With the consent of our readers we now propose to take our annual holiday. We are sure none of them will begrudge us our relaxation."-St. Louis Globe-
