

HOW YOU MAY REDUCE YOUR WEIGHT.

Spectacles were invented by Alexander de Spina, a monk in Italy about 1285. Pictures of them appear as early as 1417.

Those were crude, ungainly things in heavy, queer iron frames. Since then eyeglasses have been constantly improved.

GAYEST IN EUROPE

WAR HAS BROUGHT MONEY TO ROUMANIAN CAPITAL.

Very Easy To Spend Money in That City—Women Are Lavishly Dressed and Are Much Given to Dress and Powder.

Bucharest, July 3.—Bucharest, long known as the "pocket Paris" now boasts of being the gayest city in Europe. The war has brought a great deal of money into Roumania, and those who have benefited are staying at home to spend their newfound fortunes, for there is little to attract a traveller these days to Paris, or Vienna or London.

It is sufficiently easy to spend money in Bucharest, and it is part of the cult of the city that pleasure can only be commensurate with outlay. Most articles of clothing cost five times as much here as in Paris or London. The hotels ask \$6 a day for a very ordinary room, and meals are correspondingly costly.

The women of Bucharest model their style and carriage closely after the example of Paris, but not the chastened Paris of wartime. Tempting heels are higher in Bucharest than anywhere else in the world, and the Eastern temperament of Roumania allows more exaggeration in the use of rouge and powder than Paris would sanction.

Society appears at its best in the afternoon, when everyone that aspires to be anyone goes for a drive on the Chasse. The horse-drawn vehicle is still quite the thing, with coachman and driver in velvet heavy and silken sash of gaudiest color. After the drive comes 5 o'clock tea, taken either at home or at one of the fashionable cafes.

The evening is taken up with dinner and the theater. Then at midnight, when the concerts and theaters are finished, the night cafes open. There are cabarets and dance halls by the score, and everywhere plenty of music. Prices are on a scale which it would be hard to beat in New York.

The afternoon promenade on the Callea Victoria, which is the riverside drive of Bucharest and like it the starting point of many a romance.

Flower women and child beggars in great numbers haunt the neighborhood of the cafes until almost dawn. They are allowed to enter even the best restaurants and circulate around among the tables, where they play a few coins and many bits of food.

The afternoon promenade on the Callea Victoria strikes the foreign visitor as a little freer and more unconventional than anything of the same kind to be found in European or American cities. The man who smiles at a lady he does not know is not considered a person to be frowned upon, but is rather regarded by the majority as a commendably dashing and gallant fellow.

QUEEN VICTORIA OF SWEDEN. Who has been visiting her mother in Germany and she has expressed her sympathies as being with the Germans.

A British submarine in the Sea of Margora sunk another Turkish transport filled with troops.

Two German battleships were injured and a German cruiser reported sunk in a battle with the Russians in the Baltic.

HELPING THE HOSPITAL.

The Gifts of the People Are Coming In.

Leicester Lodge, No. 33, Sons of England, in sending a donation to the Movat Memorial Hospital, said it was to help "the grand work the institution is engaged in."

The good work of helping is proceeding nicely, and the citizens are expressing their belief in the institution, as the list will show:

Previously acknowledged, \$50. \$100—Thax offering, Mrs. J. C. Connell, Mrs. D. E. Muquell, Mrs. J. A. Hendry, Dr. J. F. Sparks, Dr. R. E. Sparks, Rev. G. I. Campbell, Leicester Lodge, No. 33, Sons of England.

\$10—J.W. and E. Clarke, Ross Rac. Another much appreciated gift was a cheque from Mr. and Mrs. Cornelius Bermingham for \$250, their annual contribution to the institution.

HUGH JOHN AS LEADER. Winnipeg, July 3.—It is altogether probable that when the time comes to name the new leader, a considerable faction within the Conservative ranks will be found to give voice and vote for Sir Hugh John Macdonald. His name would, it is assured, serve as a rallying-cry for the shattered ranks of Conservatism in this province.

Flat contradiction of statements that American shells have been used to a large extent by the French was contained in a statement issued by the French Embassy at Washington.

The late William Noxon. The subject of this sketch was born in Bloomfield, and with the exception of a few years spent in Ingersoll, lived all his life in this county, mostly in Bloomfield, but for the last ten years in Picton.

He was a member of the Methodist Church. He married Armina E. Broughton, who, with an adopted daughter, a niece, and many other relatives, remain to mourn his loss. The deceased, says the Picton Times, was very fond of children, and was a good neighbor. He belonged to a family of fourteen, all of whom grew to manhood and womanhood, but now only four brothers and one sister are left. Mr. Noxon was in his seventy-ninth year. He died at his home Sunday evening as the first bells were ringing for worship on June 27th.
